Appendix 5: Sensitivity analyses of the effect of using standardised mean difference, mean difference or end scores on the resultant effect size estimates.

	Standardised Mean Difference			Mean difference including only those studies that reported a mean difference SD			Mean difference*			End scores and end score SD		
Outcome or subgroup	# studies	# participants	effect estimate	# studies	# participants	effect estimate	# studies	# participants	effect estimate	# studies	# participants	effect estimate
