
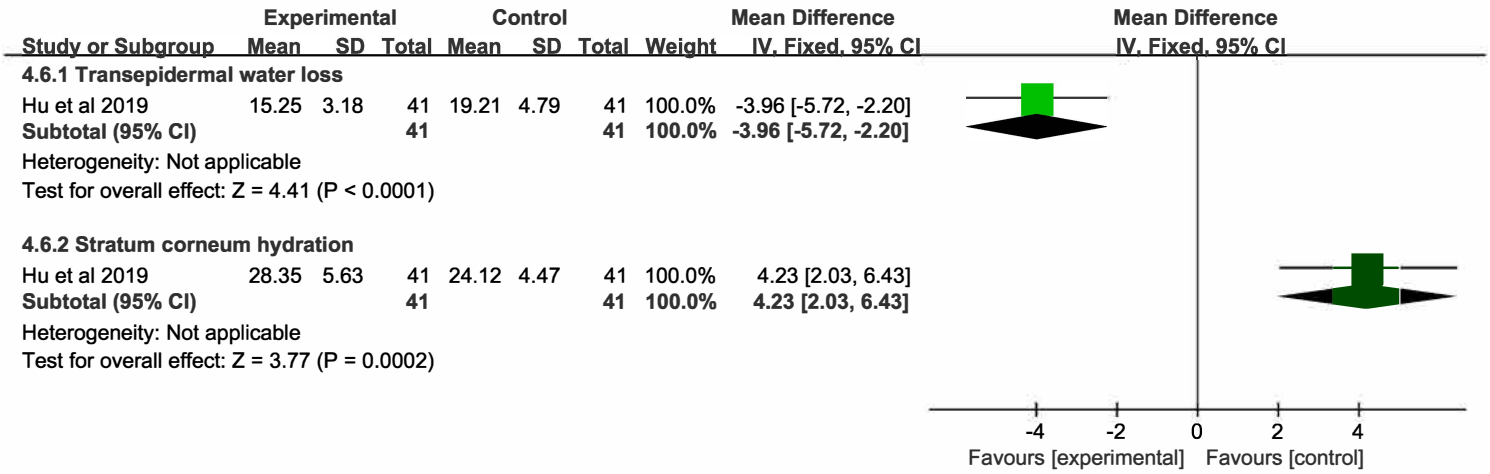
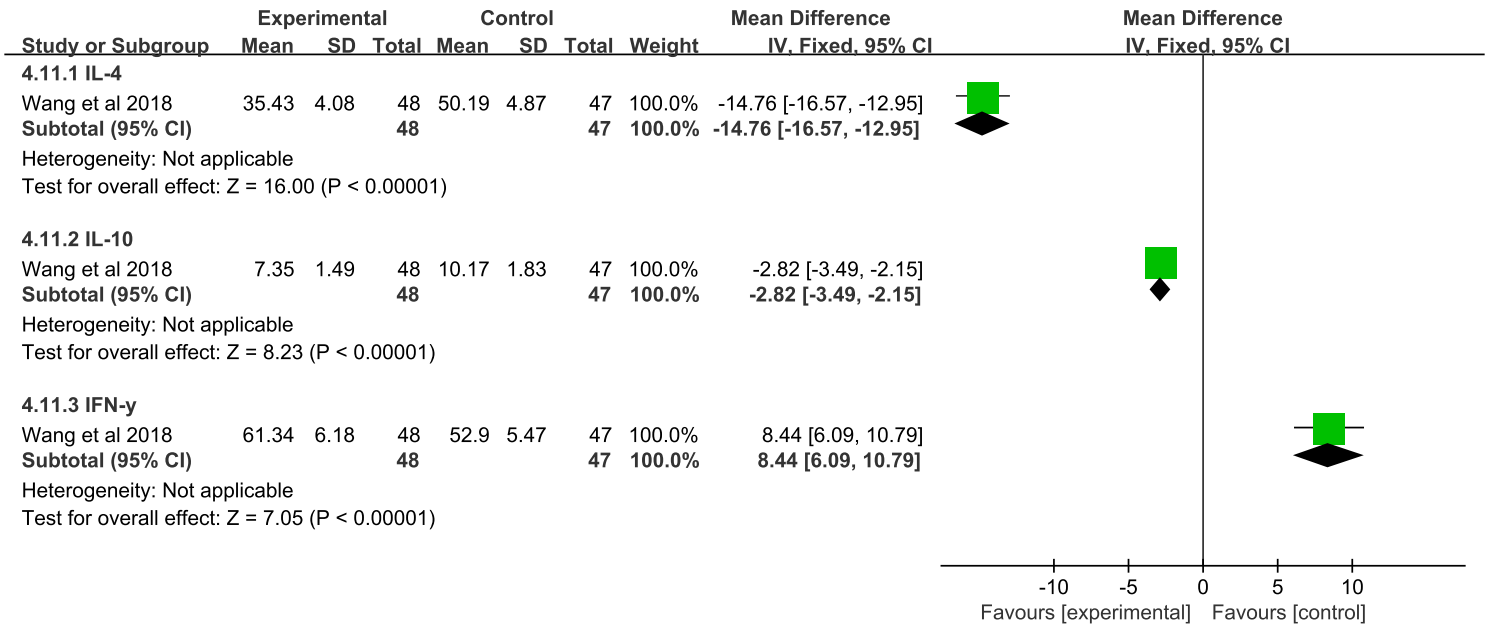
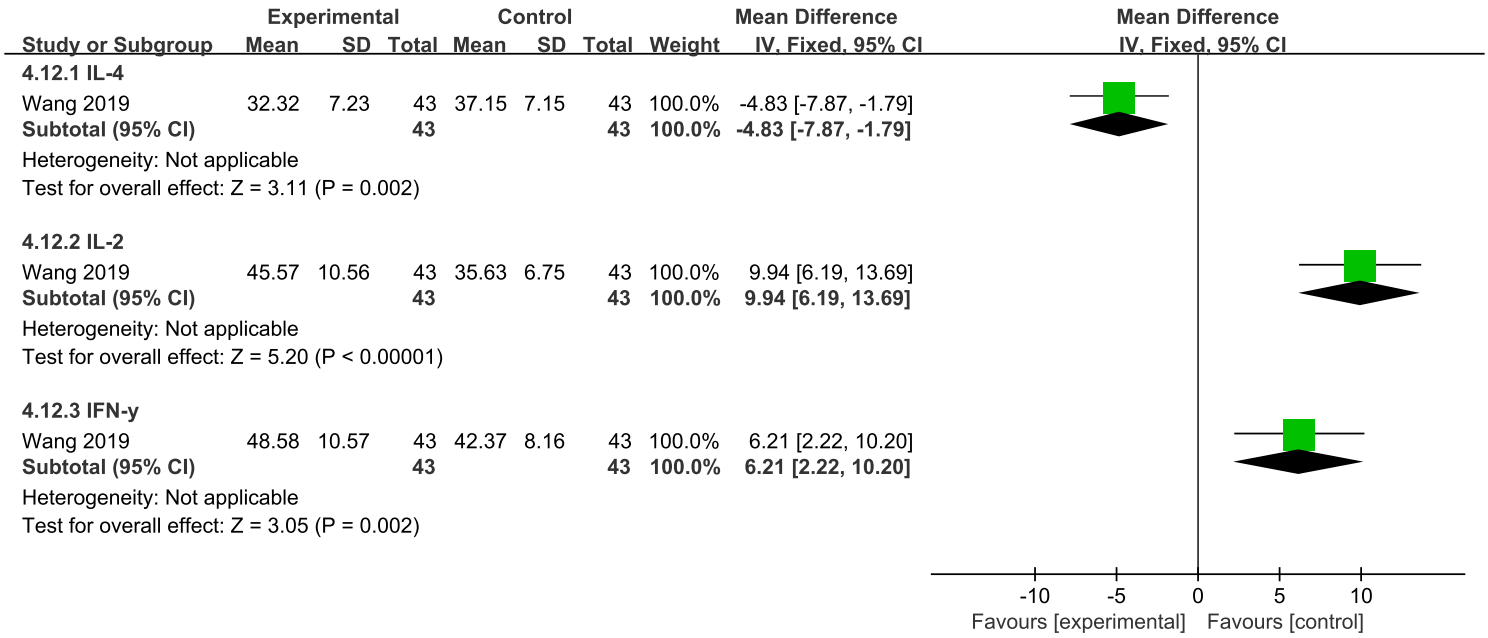
Supplementary Figure 1. The forest plot for pruritus score between MPS cream and vaseline ointment.



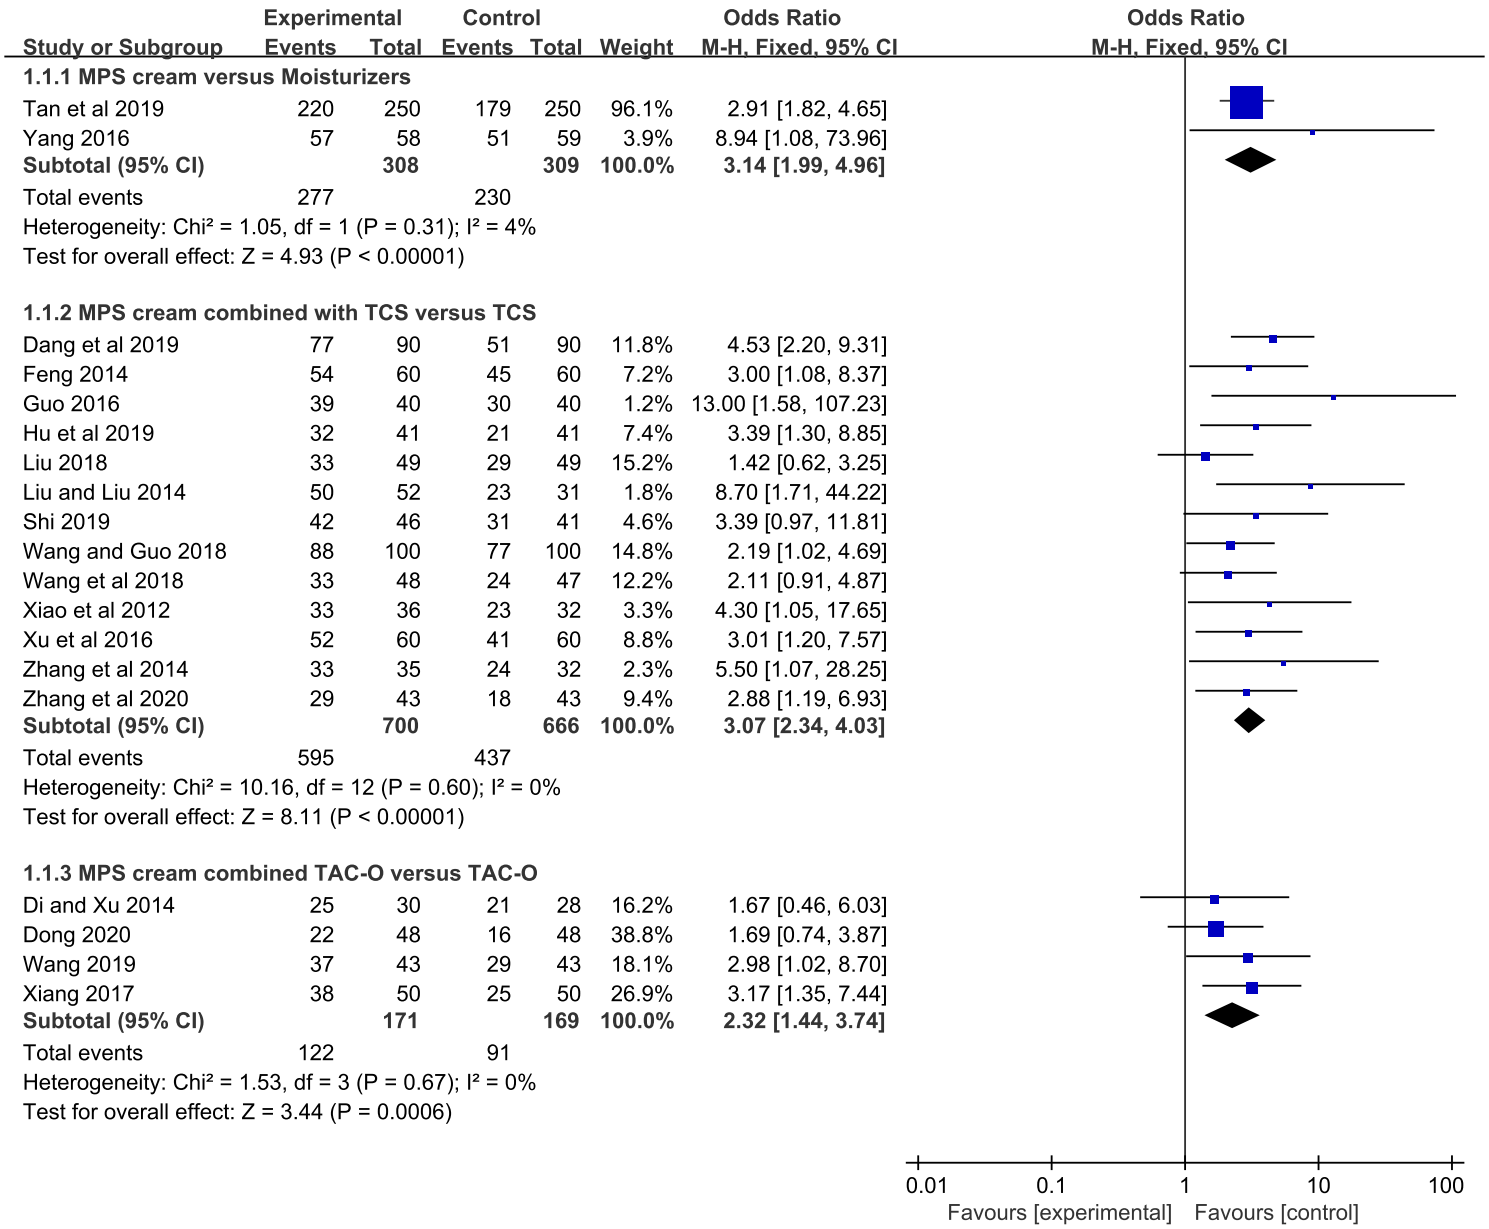
Supplementary Figure 2. The forest plot for the levels of TEWL and stratum corneum hydration between MPS cream combined with triamcinolone acetonide and econazole cream and triamcinolone acetonide and econazole cream monotherapy.



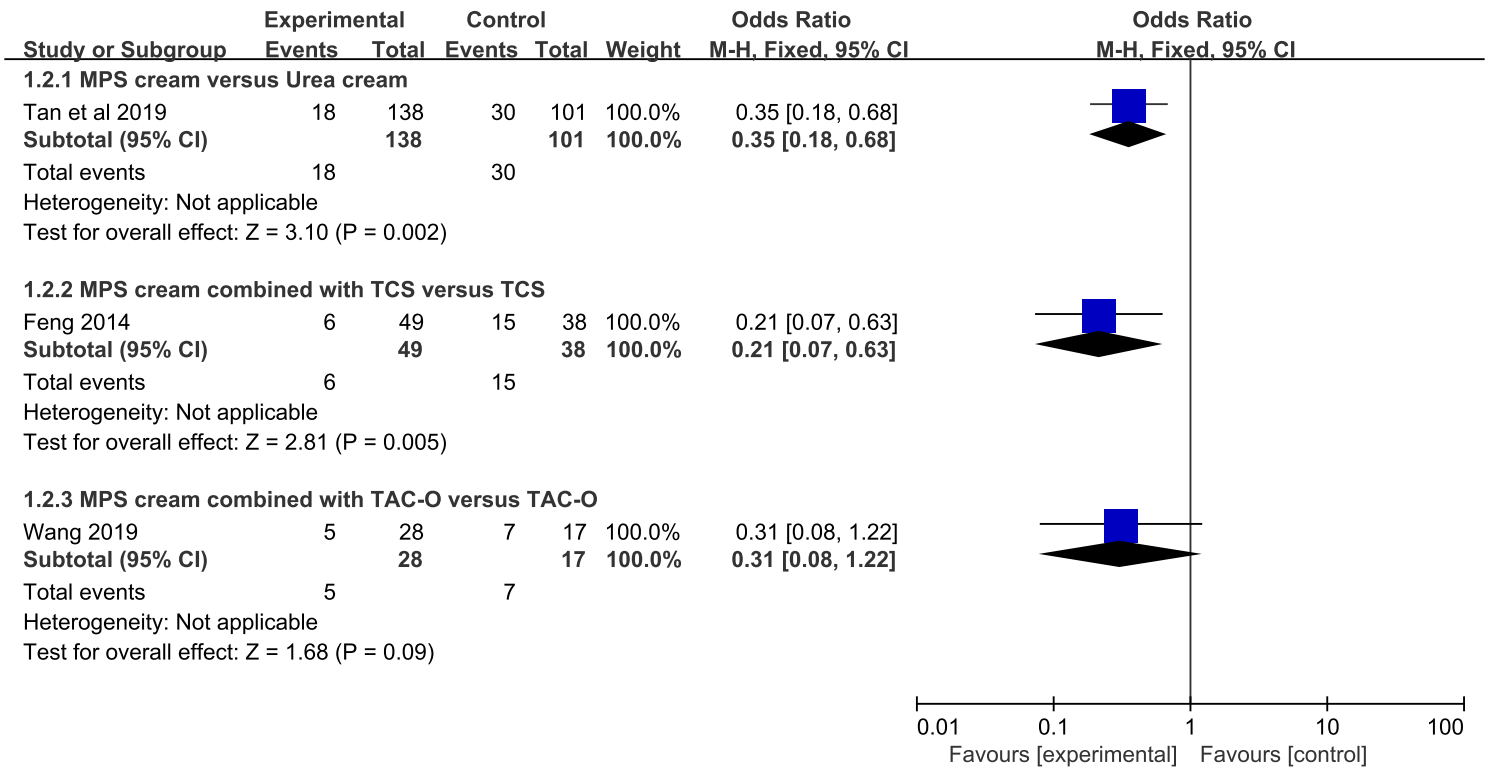
Supplementary Figure 3. The forest plot for the levels of cytokines in serum between MPS cream combined with hydrocortisone cream and hydrocortisone cream monotherapy.



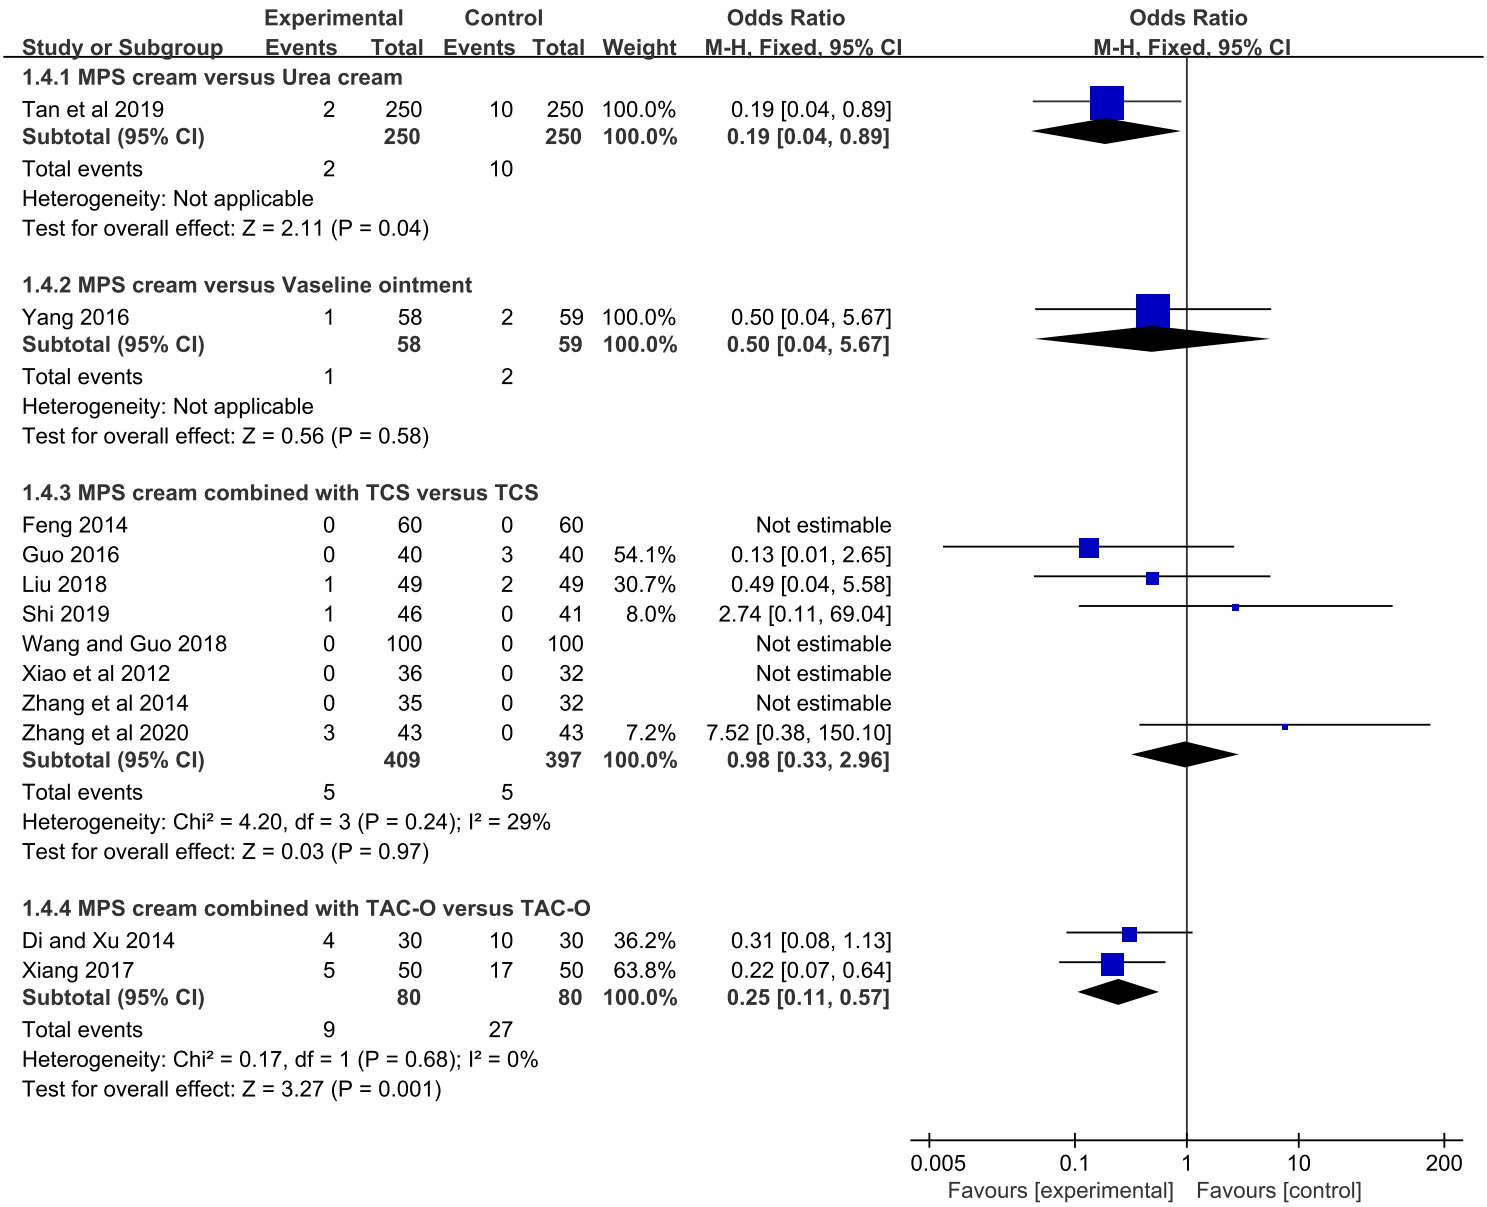
Supplementary Figure 4. The forest plot for the levels of cytokines in serum between MPS cream combined with TAC-O and TAC-O monotherapy.



Supplementary Figure 5. The forest plot for total efficacy rate calculated by odds ratio between MPS cream therapy and non-MPS cream therapy.



Supplementary Figure 6. The forest plot for recurrence rate calculated by odds ratio between MPS cream therapy and non-MPS cream therapy.



Supplementary Figure 7. The forest plot for the incidence of skin inflammatory reactions calculated by odds ratio between MPS cream therapy and non-MPS cream therapy.
