Data type:

A = RNA microarray only

B = RNA microarray and miRNA microarray

C = RNA sequencing only

D = RNA microarray and RNA sequencing

E = miRNA microarray only

F = RNA sequencing, RNA microarray and miRNA microarray

G = RNA sequencing and miRNA microarray

H = RNA microarray and DNA methylation

I = RNA sequencing, RNA microarray and DNA methylation

J = Unspecified

If a study used a data source but not specified the number of patients, the column for data source would be “Yes [NS]” indicating number of patients not specified.
