Summary of search protocol

Category	Search terms
Natural history	'natural history', pattern
Diagnosis 1	diagnosis, presentation
Diagnosis 2	AFP, alpha-fetoprotein, 'alpha fetoprotein', age, delay
Respiratory	respirat*, 'sinopulmonary disease', Bronchi*, 'interstitial lung disease', ILD, 'lung disease'
Neurology	neurol*, neuroimag*, neurodisabil*, 'nerv* system, 'oculomotor apraxia', cerebell*, ataxia, dysarthria*, 'movement disorder', CT, 'computed tomography', MRI, 'magnetic resonance imaging', bradykinesia, dystonia, myoclonus, choreoathetosis, neurodegener*, tremor, PET, 'positron emission tomography'
Gastrointestinal	growth, nutrition, malnutrition, aspiration, dysphagia, PEG, gastroin*, gastrostomy, 'percutaneous endoscopic gastrostomy'
Malignancy	malignancy, cancer, leukaemia, leukemia, tumour, tumor, carcinoma, neoplasm
Genetics	genot*, phenot*, genet*, *ATM*, 'ataxia-telangiectasia mutated', 'ataxia-telangectasia mutated', 'ataxia telangiectasia mutated', 'ataxia telangectasia mutated', variant
Immunology	immunol*, 'immune system', infection, lymphop*, lymphc*
Endocrinology	endocrine*, hormone*, diabetes, T1DM, T2DM, 'insulin resistance', 'vit* D' or 'vit* E'
Orthopaedics	'skeletal abnormalit*', scoliosis, 'foot deformit*', fracture, bone
Dermatology	dermatology, skin, hyperpiment*, 'café au lait', hypopigment*, telangiectasia, telangiectasia
Death	death, mortality, survival
Pregnancy	fertility, pregnancy, childbirth
Cognition	neuropsychometric, IQ, 'cognitive function', intel*
Psychiatry	'mental state', mood, anxiety, depression
Lifestyle	'quality of life', lifestyle,

Search Protocol

Search as per the search terms chart. Each column needs to be searched with the first column (Ataxia-telangiectasia) using ‘AND’.

All date ranges, ages and languages.

Searching title, keywords and MeSH terms in each database.

1. PubMed

Human only filter.
