Supplementary Data 2: Table of Included Studies – (with references)

Year	Author (first author only)	Study Title / Topic / Condition	Type of Composite	Primary or Secondary Outcome?
2019	Pels[1]	sildenafil versus placebo for pregnant women with severe early onset fetal growth restriction (STRIDER)	Perinatal	Primary
2019	Pasquier[2]	Intentional early delivery versus expectant management for preterm premature rupture of membranes at 28-32 weeks' gestation (MICADO STUDY)	Perinatal	Primary
2018	Baqui[3]	Prevalence of and risk factors for abnormal vaginal flora and its association with adverse pregnancy outcomes in a rural district in north-east Bangladesh	1. Maternal - General 2. Perinatal	Primary
2018	Simon[4]	Supplemental oxygen room air during planned caesarean delivery on umbilical cord gases	1. Maternal - General 2. Perinatal	Primary
2018	Simmons[5]	Immediate treatment for GDM (intervention) or no treatment (control): Treatment of Booking Gestational diabetes Mellitus (TOBOGM)	Combined	Primary
2018	Venkateswaran[6]	eRegQual-an electronic health registry with interactive checklists and clinical decision support for improving quality of antenatal care: protocol	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2018	Goldenberg[7]	Routine antenatal ultrasound in low- and middle-income countries	Combined	Primary
2018	Luitjes[8]	Innovative implementation strategy and feedback versus minimal implementation strategy of audit and feedback only.	Maternal - General	Primary
2018	Nathan[9]	Evaluation of a novel device for the management of high blood pressure and shock in pregnancy in low-resource settings: protocol (CRADLE-3 trial)	Maternal - General	Primary
2018	Zaki[10]	Comparison of staples vs subcuticular suture in class III obese women undergoing cesarean	Maternal - Wound	Primary
2018	Scrafford[11]	Effect of intra-operative glove changing during cesarean section on post-operative complications	Maternal - Wound	Primary
2018	Armstrong-Buisseret[12]	(ReMIT-2 protocol): standard care informed by placental growth factor (PlGF) blood test result versus standard care alone in women presenting with reduced fetal movement at or after 36+ 0 weeks gestation	Perinatal	Primary
2018	Berry[13]	insulin plus metformin versus insulin plus placebo for the treatment of type 2 diabetes complicating pregnancy (MOMPOD) study	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2018	Norman[14]	no pessary vs (Arabin) pessary to prevent preterm birth in twin pregnancy with health economics and acceptability: STOPPIT-2-a protocol	Perinatal	Primary
2018	Chappell[15]	Ursodeoxycholic acid versus placebo in the treatment of women with intrahepatic cholestasis of pregnancy (ICP) to improve perinatal outcomes: Protocol (PITCHES)	Perinatal	Primary
2018	Subtil[16]	single-course or triple-course clindamycin for bacterial vaginosis in pregnancy (PREMEVA)	Perinatal	Primary
2018	Brocklehurst[17]	Computerised interpretation of the fetal heart rate during labour: Decision support or no decision support (INFANT)	Perinatal	Primary
2018	Hermans[18]	Cervical pessary vs no pessary after arrested preterm labor	Perinatal	Primary
2018	Cahill[19]	Immediate vs Delayed Pushing on Rates of Spontaneous Vaginal Delivery among Nulliparous Women Receiving Neuraxial Analgesia	Perinatal	Primary
2018	Dugoff[20]	Prevention of preterm birth with pessary vs no pessary in singletons (PoPPS):	Perinatal	Primary
2018	Blackwell[21]	PROLONG Clinical Hydroxyprogesterone Caproate to Reduce Recurrent Preterm Birth	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2018	Grobman[22]	Labor induction versus expectant management in low-risk nulliparous women	Perinatal	Primary
2018	Senat[23]	Effect of Glyburide vs subcutaneous insulin on perinatal complications among women with gestational diabetes	Perinatal	Primary
2018	Balogun[24]	Serial Third-Trimester Ultrasonography Compared With Routine Care in Uncomplicated Pregnancies	1. Maternal - General 2. Maternal - General 3. Perinatal	Primary and Secondary
2018	Norman[25]	progesterone prophylaxis vs placebo to prevent preterm labour improve outcome? A randomised double-blind placebo-controlled trial (OPPTIMUM)	1. Perinatal 2. Perinatal	Primary and Secondary
2018	Price[26]	Health consequences for mother and baby of substantial vs modest pre-conception weight loss in obese women: protocol	Combined	secondary
2018	Wihbey[27]	Prophylactic negative pressure therapy compared with standard surgical dressings on Wound Complication after Cesarean Delivery in Women with Class II or III Obesity	Maternal - Wound	Secondary
2017	Bardou[28]	NAITRE- effect of conditional cash transfer on poor pregnancy outcomes in underprivileged women: Protocol	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2017	Schreiber[29]	(HYPATIA) Protocol: Hydroxychloroquine versus Placebo in Addition to Standard Treatment in Pregnant Women with Antiphospholipid Syndrome or Antibodies	Combined	Primary
2017	Fransen[30]	Simulation-based team training for multi-professional obstetric care teams to improve patient outcome:	Combined	Primary
2017	Linden[31]	Pelvic Examination vs no pelvic examination in Patients Presenting to the Emergency Department With Vaginal Bleeding or Abdominal Pain When an Intrauterine Pregnancy Is Identified on Ultrasonography	Maternal - General	Primary
2017	Ruhstaller[32]	Prophylactic Wound Vacuum Therapy vs standard wound care after Cesarean Section to Prevent Wound Complications in the Obese Population: A (the ProVac Study)	Maternal - Wound	Primary
2017	Pasquier[33]	A cluster-randomized trial to reduce major perinatal morbidity among women with one prior cesarean delivery in Quebec (PRISMA trial): protocol	Perinatal	Primary
2017	van Zijl[34]	Pessary or Progesterone to Prevent Preterm delivery in women with short cervical length: The Quadruple P	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2017	Berghella[35]	BiotequeTM cup cervical pessary or no pessary for prevention of preterm birth with pessary in twins (PoPPT)	Perinatal	Primary
2017	Dodd[36]	Fetal middle cerebral artery Doppler to time second and subsequent intrauterine transfusions to treat anaemia due to red cell allo-immunisation	Perinatal	Primary
2017	Semrau[37]	Outcomes of a coaching-based WHO safe childbirth checklist program in India	Combined	Primary and Secondary
2017	Groom[38]	standard high-risk care or standard high-risk care plus enoxaparin for the prevention of preeclampsia and intrauterine growth restriction in women with a history	Combined	Primary and Secondary
2017	Springel[39]	chlorhexidine-alcohol versus povidone-iodine for cesarean antisepsis	Maternal - Wound	Secondary
2017	Koullali[40]	cervical pessary or cervical cerclage in the prevention of preterm delivery in women with short cervical length and a history of preterm birth - PC study	Perinatal	Secondary
2017	Rodo[41]	Arabin cervical pessary vs expectant management for prevention of preterm birth in cases of twin-to-twin transfusion syndrome treated by fetoscopic LASER coagulation: The PECEP LASER	Perinatal	Secondary

Supplementary Data 2: Table of Included Studies – (with references)

2017	Visser[42]	Low dose aspirin vs placebo in the prevention of recurrent spontaneous preterm labour - the APRIL study	Perinatal	Secondary
2017	Crowther[43]	Vaginal progesterone pessaries for pregnant women with a previous preterm birth to prevent neonatal respiratory distress syndrome (the PROGRESS Study)	Perinatal	Secondary
2017	Connolly[44]	simultaneous (oxytocin and Foley balloon) or sequential (oxytocin after the expulsion of Foley balloon) induction of Labor Trial in Multiparas (FIAT-M)	Perinatal	Secondary
2016	Wattar[45]	Effect of simple, targeted diet in pregnant women with metabolic risk factors on maternal and fetal outcomes (ESTEEM): protocol	1. Maternal - General 2. Perinatal	Primary
2016	Barasinski[46]	Effect of the type of maternal pushing during the second stage of labour on obstetric and neonatal outcome: The EOLE protocol	1. Maternal - General 2. Maternal - General	Primary
2016	Salim[47]	Adjusting enoxaparin dosage according to anti-fxa levels vs 40 mg daily enoxaparin nonpregnancy outcome in thrombophilic women	Combined	Primary
2016	Feig[48]	Metformin or placebo in women with type 2 diabetes in pregnancy (MiTy)	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2016	Kimani[49]	azithromycin-chloroquine versus sulfadoxine-pyrimethamine for intermittent preventive treatment of plasmodium falciparum malaria infection in pregnant women in Africa	Combined	Primary
2016	Haddad[50]	Enoxaparin and Aspirin Compared with Aspirin Alone to Prevent Placenta-Mediated Pregnancy Complications	Combined	Primary
2016	Madanitsa[51]	Scheduled Intermittent Screening with Rapid Diagnostic Tests and Treatment with Dihydroartemisinin-Piperaquine versus Intermittent Preventive Therapy with Sulfadoxine-Pyrimethamine for Malaria in Pregnancy in Malawi	Combined	Primary
2016	McCarthy[52]	Self-weighing and simple dietary advice for overweight and obese pregnant women to reduce obstetric complications without impact on quality of life	Maternal - General	Primary
2016	Ducloy-Bouthors[53]	Fibrinogen concentrate vs placebo for postpartum haemorrhage-induced coagulopathy: protocol (FIDEL)	Maternal - Wound	Primary
2016	Duggal[54]	Perioperative Oxygen Supplementation and Surgical Site Infection After Cesarean Delivery	Maternal - Wound	Primary
2016	Van Vliet[55]	Nifedipine versus atosiban for threatened preterm birth (APOSTEL III)	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2016	Norman[56]	Vaginal progesterone prophylaxis for preterm birth (the OPPTIMUM study)	Perinatal	Primary
2016	Eikelder[57]	Induction of labour at term with oral misoprostol versus a Foley catheter (PROBAAT-II):	Combined	Primary
2016	Murphy[58]	The Breathing for Life Trial: A of fractional exhaled nitric oxide (FENO)-based management of asthma vs clinical assessment and self-management education during pregnancy and its impact on perinatal outcomes and infant and childhood respiratory health	Perinatal	Primary
2016	D'Angelo[59]	High dose antithrombin supplementation vs placebo in early preeclampsia	Perinatal	Primary
2016	Nijman[60]	Nifedipine versus placebo in the treatment of preterm pre-labor rupture of membranes (APOSTEL IV)	Perinatal	Primary
2016	Gyamfi-Bannerman[61]	Antenatal betamethasone vs placebo for women at risk for late preterm delivery	Perinatal	Primary
2016	Elden[62]	protocol of SWEPIS- to compare induction of labour at 41 completed gestational weeks versus expectant management and induction at 42 completed gestational weeks	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2016	Fang[63]	Effects of quercetin and melatonin in pregnant and gestational diabetic women	Perinatal	Primary
2016	Garcia[64]	Do knowledge of uterine artery resistance in the second trimester and targeted surveillance improve maternal and perinatal outcome? UTOPIA study	1. Maternal - General 2. Combined	Primary and Secondary
2016	Henrichs[65]	Effectiveness and cost-effectiveness of routine third trimester ultrasound screening for intrauterine growth restriction: protocol (The IRIS Study)	1. Maternal - General 2. Maternal - General 3. Perinatal	Primary and Secondary
2016	Tita[66]	Adjunctive azithromycin prophylaxis vs placebo for cesarean delivery	1. Maternal - General 2. Maternal - General 3. Perinatal 4. Perinatal	Primary and Secondary
2016	Widmer[67]	Room temperature stable carbetocin vs oxytocin for the prevention of postpartum haemorrhage during the third stage of labour in women delivering vaginally: protocol	Maternal - General	Primary and Secondary
2016	Kakuru[68]	Dihydroartemisinin-piperaquine for the prevention of malaria in pregnancy	Combined	Secondary
2016	Nicolaides[69]	Cervical pessary placement for prevention of preterm birth in unselected twin pregnancies:	Perinatal	Secondary

Supplementary Data 2: Table of Included Studies – (with references)

2016	Hezelgrave[70]	design of SuPPoRT:to compare three treatments: Cervical cerclage, cervical pessary and vaginal progesterone, for the prevention of preterm birth in women who develop a short cervix	Perinatal	Secondary
2016	Hermans[71]	Effectiveness of a cervical pessary for women who did t deliver 48 h after threatened preterm labor (Apostel VI)	Perinatal	Secondary
2016	Goya[72]	Cervical pessary vs expectant management to prevent preterm birth in women with twin gestation and so graphic short cervix: A multicenter (PECEP-Twins)	Perinatal	Secondary
2016	Morris[73]	Immediate delivery compared with expectant management after preterm pre-labour rupture of the membranes close to term (PPROMT trial):	Perinatal	Secondary
2016	Connolly[74]	A randomized trial of Foley balloon induction of labor trial in nulliparas (FIAT-N)	Perinatal	Secondary
2015	Equy[75]	Clinical impact of the disposable ventouse iCup versus a metallic vacuum cup	Combined	Primary
2015	Broekhuijsen[76]	Immediate delivery versus expectant monitoring for hypertensive disorders of pregnancy between 34	Maternal - General	Primary

Supplementary Data 2: Table of Included Studies – (with references)

		and 37 weeks of gestation (HYPITAT-II)		
2015	Boulvain[77]	Induction of labour versus expectant management for large-for-date fetuses	Perinatal	Primary
2015	Van Os[78]	Preventing Preterm Birth with Progesterone in Women with a Short Cervical Length from a Low-Risk Population	Perinatal	Primary
2015	Hammad[79]	Uncomplicated Pregnancies- third trimester ultrasonographic exams versus routine prenatal care) to improve the detection of small for gestational age	Perinatal	Primary
2015	George[80]	Comparison of neonatal outcomes in women with gestational diabetes with moderate hyperglycaemia on metformin or glibenclamide	Perinatal	Primary
2015	Awwad[81]	17-hydroxyprogesterone caproate vs placebo for the prevention of preterm birth in twin gestation (PROGESTWIN)	Perinatal	Primary
2015	Belfort[82]	"open" or "masked" monitoring with fetal ST-segment analysis	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2015	Desai[83]	Intermittent screening and treatment or intermittent preventive treatment with dihydroartemisinin-piperaquine versus intermittent preventive treatment with sulfadoxine-pyrimethamine for the control of malaria during pregnancy in western Kenya	Perinatal	Primary and Secondary
2015	Cluver[84]	Double blind, randomised, placebo controlled trial to evaluate the efficacy of esomeprazole to treat early onset pre-eclampsia (PIE Trial): A protocol	1. Maternal - General 2. Perinatal 3. Perinatal	Secondary
2015	Combs[85]	17-hydroxyprogesterone caproate vs placebo for preterm rupture of the membranes	Perinatal	Secondary
2015	Brizot[86]	Vaginal progesterone vs placebo for the prevention of preterm birth in twin gestations	Perinatal	Secondary
2014	Alves[87]	BRAMAG trial: Oral magnesium supplementation in pregnancy for the prevention of preterm birth and perinatal and maternal morbidity	1. Maternal - General 2. Perinatal	Primary
2014	Rodger[88]	Antepartum dalteparin versus no antepartum dalteparin for the prevention of pregnancy complications in pregnant women with thrombophilia (TIPPS)	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2014	McClure[89]	ultrasound to improve pregnancy outcomes in low income country settings	Combined	Primary
2014	MacKeen[90]	Suture compared with staple skin closure after cesarean delivery	Maternal - Wound	Primary
2014	Esmer[91]	subcutaneous closure vs non-subcut closure in preventing wound complications after cesarean delivery with Pfannenstiel incision:	Maternal - Wound	Primary
2014	Liem[92]	Cervical pessaries for prevention of preterm birth in women with a multiple pregnancy (ProTWIN): , open-label	Perinatal	Primary
2014	Barrett[93]	planned cesarean or vaginal delivery for twin pregnancy	Perinatal	Primary
2014	Schmitz[94]	Outpatient cervical ripening by nitric oxide donors vs placebo for prolonged pregnancy	Perinatal	Primary
2014	Slaghekke[95]	Fetoscopic laser coagulation of the vascular equator versus selective coagulation for twin-to-twin transfusion syndrome	Perinatal	Primary
2014	Kamat[96]	Comparison of nifedipine and progesterone for maintenance tocolysis after arrested preterm labour	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2014	Galyean[97]	Removal versus retention of cerclage in preterm premature rupture of membranes	Perinatal	Secondary
2013	Ayala[98]	Chronotherapy with low-dose aspirin for prevention of complications in pregnancy	Combined	Primary
2013	Glavind[99]	Elective caesarean section at 38 weeks versus 39 weeks: Neonatal and maternal outcomes	Maternal - General	Primary
2013	CORONIS Collaborative Group (Brocklehurst)[100]	Caesarean section surgical techniques (CORONIS)	Maternal - General	Primary
2013	Figueroa[101]	Surgical staples compared with subcuticular suture for skin closure after cesarean delivery	Maternal - Wound	Primary
2013	Francis[102]	Timing of prophylactic antibiotic at cesarean section: A double-blinded, randomized trial	Maternal - Wound	Primary
2013	Roos[103]	effect of maintenance tocolysis with nifedipine vs placebo in threatened preterm labor on perinatal outcomes	Perinatal	Primary
2013	Heazell[104]	standard or intensive management of reduced fetal movements after 36 weeks gestation-feasibility study	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2013	Kwak[105]	The efficacy of cefazolin plus macrolide (erythromycin or clarithromycin) versus cefazolin alone in neonatal morbidity and placental inflammation for women with PPROM	Perinatal	Primary
2013	Nuthalapaty[106]	A RCT of early versus delayed skin staple removal following caesarean section in the obese patient	Maternal - Wound	Secondary
2013	Crowther[107]	Magnesium sulphate at 30 to 34 weeks' gestational age vs placebo: Neuroprotection trial (MAGENTA) - protocol	Perinatal	Secondary
2013	Vigil-De Gracia[108]	steroids with prompt delivery after 48 hours vs steroids and expectant managements for severe preeclampsia remote from term: The MEXPRE Latin Study,	Perinatal	Secondary
2012	Seal[109]	Cesarean or vaginal delivery on maternal and perinatal outcome in women with eclampsia? A randomized controlled pilot study	1. Maternal - General 2. Perinatal	Primary
2012	Martinelli[110]	Heparin vs medical surveillance alone in pregnant women with previous placenta-mediated pregnancy complications	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2012	Dioulasso[111]	Maternal HIV-1 disease progression 18-24 months postdelivery according to antiretroviral prophylaxis regimen (triple-antiretroviral prophylaxis during pregnancy and breastfeeding vs zidovudine/single-dose nevirapine prophylaxis):kesho bora	Maternal - General	Primary
2012	Grobman[112]	17 alpha-hydroxyprogesterone caproate vs placebo to prevent prematurity in nulliparas with cervical length less than 30 mm	Perinatal	Primary
2012	Dodd[113]	Elective birth at 37 weeks of gestation versus standard care for women with an uncomplicated twin pregnancy at term: The Twins Timing of Birth Trial	Perinatal	Primary
2012	Norman[114]	Trial protocol OPPTIMUM- Does progesterone prophylaxis for the prevention of preterm labour improve outcome?	Perinatal	Primary and Secondary
2011	Gris[115]	Addition of enoxaparin to aspirin for the Secondary prevention of placental vascular complications in women with severe pre-eclampsia: NOH-PE trial	Combined	Primary
2011	Gris[116]	enoxaparin for the Secondary prevention of placental vascular complications in women with previous severe pre-eclampsia: NOH-PE study	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2011	Scifres[117]	Supplemental oxygen (nasal cannula vs non-rebreathe) for the prevention of post cesarean infectious morbidity	Maternal - General	Primary
2011	Boers[118]	Induction versus expectant monitoring for intrauterine growth restriction at term: Randomised equivalence trial (DIGITAT)	Perinatal	Primary
2011	Combs[119]	17-hydroxyprogesterone caproate vs placebo for twin pregnancy	Perinatal	Primary
2011	Lim[120]	17alpha-hydroxyprogesterone caproate vs placebo for the prevention of adverse neonatal outcome in multiple pregnancies:	Perinatal	Primary
2011	Combs[121]	17-Hydroxyprogesterone caproate vs placebo to prolong pregnancy after preterm rupture of the membranes	Perinatal	Primary
2010	Haas[122]	Vaginal cleansing vs. no cleaning before cesarean delivery to reduce postoperative infectious morbidity	Maternal - General	Primary
2010	Vanky[123]	Metformin Versus placebo from first trimester to delivery in polycystic ovary syndrome	Combined	Primary
2010	Basha[124]	wound complication rates of subcuticular suture vs staples for skin closure at cesarean delivery	Maternal - Wound	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2010	Combs[125]	Failure of 17-hydroxyprogesterone to reduce neonatal morbidity or prolong triplet pregnancy	Perinatal	Primary
2010	Macones[126]	scaling and root planning (active) or tooth polishing (control) on occurrence of preterm birth: (PIPS)	1. Maternal - Wound 2. Perinatal	Secondary
2009	Nassar[127]	Two dose regimens of nifedipine for management of preterm labor	1. Maternal -General 2. Perinatal	Primary
2009	Landon[128]	usual prenatal care or dietary intervention, self-monitoring of BM, and insulin therapy, if necessary for mild gestational diabetes	Combined	Primary
2009	Rey[129]	Dalteparin vs. no dalteparin for the prevention of recurrence of placental-mediated complications of pregnancy in women without thrombophilia	Combined	Primary
2009	Koopmans[130]	Induction of labour versus expectant monitoring for gestational hypertension or mild pre-eclampsia after 36 weeks' gestation (HYPITAT):	Maternal - General	Primary
2009	Garite[131]	Impact of a 'rescue course' of antenatal corticosteroids vs placebo on neonatal morbidity	Perinatal	Primary
2009	Roos[132]	perinatal outcome after sustained tocolysis in early labour (APOSTEL-II trial)	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2009	Caritis[133]	Prevention of preterm birth in triplets using 17 alpha-hydroxyprogesterone caproate	1. Perinatal 2. Combined	Primary and Secondary
2008	Rouse[134]	magnesium sulfate for the prevention of cerebral palsy	Perinatal	Primary
2008	Mazumder[135]	Single versus multiple courses of antenatal betamethasone and neonatal outcome	Perinatal	Primary
2008	Murphy[136]	Multiple courses of antenatal corticosteroids vs placebo for preterm birth (MACS)	Perinatal	Primary
2008	Rowan[137]	Metformin versus insulin for the treatment of gestational diabetes	Perinatal	Primary
2008	Nicholson[138]	The impact of the active management of risk in pregnancy at term on birth outcomes	Perinatal	Primary
2007	Marret[139]	Magnesium sulphate given before very-preterm birth to protect infant brain: PREMAG trial	Combined	Primary
2007	Smith[140]	placebo vs transdermal nitroglycerin for preterm labor	Perinatal	Primary
2006	Wapner[141]	Single versus weekly courses of antenatal corticosteroids: Evaluation of safety and efficacy	Perinatal	Primary
2006	Ovalle[142]	Antibiotic administration to patients with preterm labor and intact	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)

		membranes in patients with endocervical inflammation		
2005	Fraser[143]	Amnioinfusion for the prevention of the meconium aspiration syndrome	Combined	Primary
2005	Ramsey[144]	Subcutaneous tissue reapproximation, alone or in combination with drain, in obese women undergoing cesarean delivery	Maternal - Wound	Primary
2005	Ganzevoort[145]	two temporising management strategies, one with and one without plasma volume expansion, for severe and early onset pre-eclampsia	Perinatal	Primary
2003	Harrigill[146]	intraabdominal irrigation vs no irrigation at cesarean delivery on maternal morbidity	Maternal - General	Primary
2003	Crowther[147]	Effect of Magnesium Sulfate Given for Neuroprotection before Preterm Birth	Perinatal	Primary and Secondary
2003	Segel[148]	Duration of antibiotic therapy (3 vs 7 days) after preterm premature rupture of fetal membranes	Perinatal	Secondary
2002	Landon[149]	diet therapy and insulin as required versus specific treatment for mild gestational diabetes mellitus	Combined	Primary

Supplementary Data 2: Table of Included Studies – (with references)

2001	Kenyon[150]	ORACLE - Antibiotics for preterm prelabour rupture of the membranes: Short-term and long-term outcomes	Perinatal	Primary
2001	Guinn[151]	Single vs weekly courses of antenatal corticosteroids for women at risk of preterm delivery	Perinatal	Primary
2001	Kenyon[152]	Broad-spectrum antibiotics for spontaneous preterm labour (ORACLE II)	Perinatal	Primary
2001	Kenyon[153]	Broad-spectrum antibiotics for preterm, prelabour rupture of fetal membranes (ORACLE I)	Perinatal	Primary
2000	Hofmeyer[154]	Planned caesarean section versus planned vaginal birth for breech presentation at term: a randomised multicentre trial.	1. Maternal - General 2. Perinatal	Primary and Secondary
1997	Rouse[155]	Chlorhexidine vs sterile water vaginal irrigation for the prevention of peripartal infection	Maternal - General	Primary
1997	Mercer[156]	Antibiotic therapy for reduction of infant morbidity after preterm premature rupture of the membranes	Perinatal	Primary

Supplementary Data 2: Table of Included Studies – (with references)
