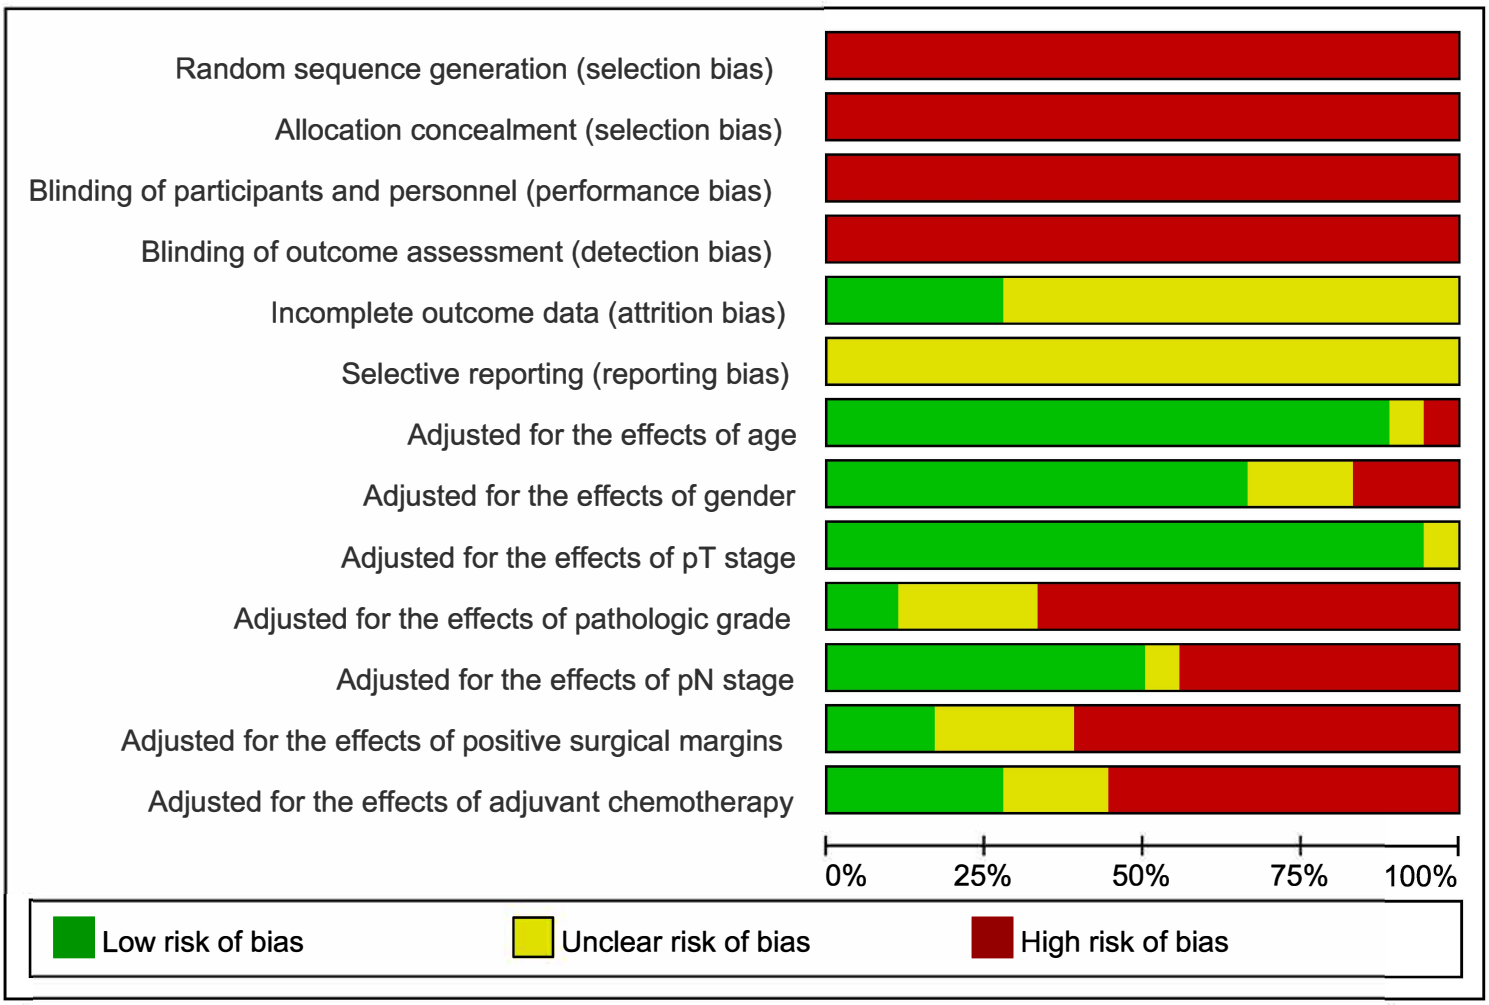
NAC:



Random sequence generation (selection bias)
Allocation concealment (selection bias)
Blinding of participants and personnel (performance bias)
Blinding of outcome assessment (detection bias)
Incomplete outcome data (attrition bias)
Selective reporting (reporting bias)
Adjusted for the effects of age
Adjusted for the effects of gender
Adjusted for the effects of pT stage
Adjusted for the effects of pathologic grade
Adjusted for the effects of pN stage
Adjusted for the effects of positive surgical margins
Adjusted for the effects of adjuvant chemotherapy
0%
