	Granado et al., 2007	Siegel & Weinberger, 2009	Siegel et al., 2011	Siegel & Weinberger, 2012	Siegel & Warren, 2013	Lipka et al., 2014	Siegel & Gallagher, 2015	Siegel et al., 2018	Tascherau-Dumouchel et al., 2018a
1. Sampling									
a. Was probability sampling used? (1)	0	0	0	0	1	0	0	0	0
b. Was sample size justified to obtain adequate power? (1)	0	1	1	1	1	1	1	1	0
Subtotal (n/2)	**0**	**0.5**	**0.5**	**0.5**	**1**	**0.5**	**0.5**	**0.5**	**0**
2. Design									
a. One pre-test or baseline and several post-test measures or (2)		2	2	2	2	2	2	2	
b. Simple before-and-after study (1)	1								1
Subtotal (n/2)	**0.5**	**1**	**1**	**1**	**1**	**1**	**1**	**1**	**0.5**
3. Control of confounders Does the study employ a comparison strategy? An attempt to create or assess equivalence of groups at baseline by:									
a. Matching group participants (2) or									
b. Statistical control (1) or	1	1	1	1	1	1	1	1	1
c. None (0)									
Subtotal (n/2)	**0.5**	**0.5**	**0.5**	**0.5**	**0.5**	**0.5**	**0.5**	**0.5**	**0.5**
4. Data Collection and Outcome Measurement									
a. Was the DV directly measured by an assessor? (1)	1	1	1	1	1	1	1	1	1
b. Were dependent variables either:									
i. directly measured or (2)		2	2	2	2		2	2	2
ii. self-reported (1)	1					1			
c. Were dependent variables measured reliably (with reliability indices previously or for this study)? (1)	1	1	1	1	1	1	1	1	1
d. Were dependent variables measured validly (with validity assessments previously or for this study)? (1)	1	1	1	1	1	1	1	1	1
Subtotal (n/5)	**0.8**	**1**	**1**	**1**	**1**	**0.8**	**1**	**1**	**1**
5. Statistical Analysis and Conclusions									
a. Was (were) the statistical test(s) used appropriate for the main outcome and at least 80% of the others? (1)	1	1	1	1	1	1	1	1	1
b. Were p values and confidence intervals reported properly? (1)	1	1	1	1	1	1	1	1	1
c. If multiple outcomes were studied, were correlations analyzed? (1)	1	1	1	1	1	1	1	1	1
d. Were missing data managed appropriately? (1)	1	1	1	1	1	1	1	1	1
Subtotal (n/4)	**1**	**1**	**1**	**1**	**1**	**1**	**1**	**1**	**1**
5. Drop outs									
a. Is attrition rate <30% (if no attrition code 1) (1)	1	1	1	1	1	1	1	1	1
Subtotal (n/1)	**1**	**1**	**1**	**1**	**1**	**1**	**1**	**1**	**1**
Subtotal (n/16)	**0.6875**	**0.875**	**0.875**	**0.875**	**0.937**	**0.812**	**0.875**	**0.875**	**0.75**
Overall Validity Rating	**Medium**	**High**	**High**	**High**	**High**	**High**	**High**	**High**	**Medium**
