S4 Table. Main reasons of exclusion of eligible studies

N°	Author, Year	Title	Reason of exclusion
1	Abdullahi, 2021	The interplay between environmental factors, vector competence and vaccine immunodynamics as possible explanation of the 2019 yellow fever re-emergence in Nigeria.	Review
2	Abílio, 2020	First confirmed occurrence of the yellow fever virus and dengue virus vector Aedes (Stegomyia) luteocephalus (Newstead, 1907) in Mozambique.	No data on YFV prevalence or case fatality rate
3	Adungo, 2016	Development and Characterization of Monoclonal Antibodies to Yellow Fever Virus and Application in Antigen Detection and IgM Capture Enzyme-Linked Immunosorbent Assay.	No data on YFV prevalence or case fatality rate
4	Agboli, 2021	Mosquito-Associated Viruses and Their Related Mosquitoes in West Africa.	Review
5	Ahmed, 2017	Yellow fever from Angola and Congo: a storm gathers.	Review
6	Ahmed, 2021	First report of epidemic dengue fever and malaria co-infections among internally displaced persons in humanitarian camps of North Darfur, Sudan.	No data on YFV prevalence or case fatality rate
7	Akoua-Koffi, 2001	[Investigation surrounding a fatal case of yellow fever in Côte d'Ivoire in 1999].	Duplicates
8	Alencar, 2021	Natural Infection and Vertical Transmission of Zika Virus in Sylvatic Mosquitoes Aedes albopictus and Haemagogus leucocelaenus from Rio de Janeiro, Brazil.	Study outside Africa
9	Althouse, 2015	Impact of climate and mosquito vector abundance on sylvatic arbovirus circulation dynamics in Senegal.	No data on YFV prevalence or case fatality rate
10	Amraoui, 2019	Potential of Aedes albopictus to cause the emergence of arboviruses in Morocco.	No data on YFV prevalence or case fatality rate
11	Anonymous, 2016	Yellow fever spreads from Angola.	Full text or abstract not found
12	Anonymous, 2018	Yellow fever in Nigeria.	No data on YFV prevalence or case fatality rate
13	Appawu, 2006	Surveillance of viral haemorrhagic fevers in ghana: entomological assessment of the risk of transmission in the northern regions.	No data on YFV prevalence or case fatality rate
14	Attoh-Toure, 2010	Resurgence of yellow fever epidemics in Cote-d'Ivoire.	No data on YFV prevalence or case fatality rate
15	Awando, 2013	Seroprevalence of Anti-Dengue Virus 2 Serocomplex antibodies in out-patients with fever visiting selected hospitals in rural parts of western Kenya in 2010-2011: a cross sectional study	No data on YFV prevalence or case fatality rate
16	Baba, 2013	Evidence of arbovirus co-infection in suspected febrile malaria and typhoid patients in Nigeria.	Case report
17	Bagcchi, 2017	Looking back at yellow fever in Angola.	Comment on an article
18	Bamou, 2021	An update on the mosquito fauna and mosquito-borne diseases distribution in Cameroon.	Review
19	Barennes, 2002	[An epidemic risk of yellow fever in Burkina Faso despite a rapid immunisation riposte: role of a multidisciplinary investigation team].	Case report
20	Beck, 2013	Phylogeographic reconstruction of African yellow fever virus isolates indicates recent simultaneous dispersal into east and west Africa.	No data on YFV prevalence or case fatality rate
21	Beressa, 2021	Potential Benefits of Antiviral African Medicinal Plants in the Management of Viral Infections: Systematic Review.	Review
22	Bisimwa, 2016	Molecular detection of arboviruses in Aedes mosquitoes collected from Kyela district, Tanzania.	No data on YFV prevalence or case fatality rate
23	Boga, 2019	Simultaneous detection of Dengue virus, Chikungunya virus, Zika virus, Yellow fever virus and West Nile virus.	Study outside Africa
24	Brinkmann, 2017	Development and preliminary evaluation of a multiplexed amplification and next generation sequencing method for viral hemorrhagic fever diagnostics.	Study outside Africa

25	Buechler, 2017	Seroprevalence of Zika Virus in Wild African Green Monkeys and Baboons.	No data on YFV prevalence or case fatality rate
26	Canela Soler, 2009	A mortality study of the last outbreak of yellow fever in Barcelona City (Spain) in 1870.	Study outside Africa
27	Çavdaroğlu, 2021	The spread of Yellow fever amidst the COVID-19 pandemic in Africa and the ongoing efforts to mitigate it.	Review
28	Chaubal, 2018	Development of single step RT-PCR for detection of Kyasanur forest disease virus from clinical samples.	No data on YFV prevalence or case fatality rate
29	Chisenga, 2020	Sero-prevalence of arthropod-borne viral infections among Lukanga swamp residents in Zambia.	No data on YFV prevalence or case fatality rate
30	Clara, 2020	Community-Based Surveillance in Cote D'Ivoire.	No data on YFV prevalence or case fatality rate
31	Coelho, 2018	Phylogeny of Yellow Fever Virus, Uganda, 2016.	Duplicates
32	Cooke, 2005	Yellow fever in Guinea and Mali.	Full text or abstract not found
33	Coulibaly, 2000	Prevalence and control of zoonotic diseases: collaboration between public health workers and veterinarians in Burkina Faso.	No data on YFV prevalence or case fatality rate
34	Cracknell Daniels, 2021	Yellow fever in Asia-a risk analysis.	Study outside Africa
35	Dash, 2012	Development of a SYBR green I based RT-PCR assay for yellow fever virus: application in assessment of YFV infection in Aedes aegypti.	No data on YFV prevalence or case fatality rate
36	Diallo, 2013	Bloodfeeding patterns of sylvatic arbovirus vectors in southeastern Senegal.	No data on YFV prevalence or case fatality rate
37	Diallo, 2012	Larval ecology of mosquitoes in sylvatic arbovirus foci in southeastern Senegal.	No data on YFV prevalence or case fatality rate
38	Dimeglio, 2019	Hepatitis E Virus Infections among Patients with Acute Febrile Jaundice in Burkina Faso.	No data on YFV prevalence or case fatality rate
39	Djarma, 2021	[Recrudescence of yellow fever in Chad: case report of the last confirmed case in the health district of Lai-Chad].	Case report
40	Drosten, 2002	Rapid detection and quantification of RNA of Ebola and Marburg viruses, Lassa virus, Crimean-Congo hemorrhagic fever virus, Rift Valley fever virus, dengue virus, and yellow fever virus by real-time reverse transcription-PCR.	Sample size < or = 10 participants
41	Efunshile, 2021	Mosquito control at a tertiary teaching hospital in Nigeria.	No data on YFV prevalence or case fatality rate
42	Escadafal, 2014	Rapid molecular assays for the detection of yellow fever virus in low-resource settings.	Not possible to extract data on YFV prevalence or case fatality rate
43	Gadia, 2017	Identification of pathogens for differential diagnosis of fever with jaundice in the Central African Republic: a retrospective assessment, 2008-2010.	No data on YFV prevalence or case fatality rate
44	Garske, 2014	Yellow Fever in Africa: estimating the burden of disease and impact of mass vaccination from outbreak and serological data.	No data on YFV prevalence or case fatality rate
45	Gaythorpe, 2021	The global burden of yellow fever.	Review
46	Giovanetti, 2019	Yellow Fever Virus Reemergence and Spread in Southeast Brazil, 2016-2019.	Study outside Africa
47	Goenaga , 2012	Isolation of yellow fever virus from mosquitoes in Misiones province, Argentina.	Study outside Africa
48	Goodman, 2021	Technical viability of the YF MAC-HD ELISA kit for use in yellow fever-endemic regions.	Selection of study participants with already Flavivirus result known
49	Green, 2016	Yellow fever continues to spread in Angola.	No data on YFV prevalence or case fatality rate
50	Grobbelaar, 2016	Resurgence of Yellow Fever in Angola, 2015-2016.	Sample size < or = 10 participants
51	Hamer, 2018	Fatal Yellow Fever in Travelers to Brazil, 2018.	Study outside Africa

52	Hamid, 2021	Stegomyia indices of Aedes aquatic stages in El Geneina town, Western Sudan.	No data on YFV prevalence or case fatality rate
53	Hamlet, 2021	Seasonality of agricultural exposure as an important predictor of seasonal yellow fever spillover in Brazil.	Study outside Africa
54	Isa, 2021	Genetic diversity of Dengue virus serotypes circulating among Aedes mosquitoes in selected regions of northeastern Nigeria.	No data on YFV prevalence or case fatality rate
55	Jaenson, 2012	[Yellow fever epidemic threatens refugee camps in western Sudan].	Article not in English or in French
56	Joannides, 2021	Species composition and risk of transmission of some Aedes-borne arboviruses in some sites in Northern Ghana.	No data on YFV prevalence or case fatality rate
57	Johnson, 2021	Laboratory capacity assessments in 25 African countries at high risk of yellow fever, August-December 2018.	Not possible to extract data on YFV prevalence or case fatality rate
58	Jupp, 2002	Laboratory vector competence experiments with yellow fever virus and five South African mosquito species including Aedes aegypti.	No data on YFV prevalence or case fatality rate
59	Kallas, 2019	Predictors of mortality in patients with yellow fever: an observational cohort study.	Article not in English or in French
60	Kamgang, 2019	Potential of Aedes albopictus and Aedes aegypti (Diptera: Culicidae) to transmit yellow fever virus in urban areas in Central Africa.	No data on YFV prevalence or case fatality rate
61	Konan, 2011	Entomological investigations conducted around ten cases of yellow fever in 2009 in the Denguele sanitary region, Cote-d'Ivoire.	No data on YFV prevalence or case fatality rate
62	Konan, 2009	[Entomological investigation following the re-emergence of yellow fever in 2008 in Abidjan area (Côte d'Ivoire)].	No data on YFV prevalence or case fatality rate
63	Konan1, 2014	Management of the yellow fever epidemic in 2010 in Seguela (Cote d'Ivoire): value of multidisciplinary investigation.	No data on YFV prevalence or case fatality rate
64	Kone, 2013	Entomological evaluation of the risk of urban outbreak of yellow fever in 2008 in Abidjan, Cote d'Ivoire.	No data on YFV prevalence or case fatality rate
65	Koraka, 2002	Reactivity of serum samples from patients with a flavivirus infection measured by immunofluorescence assay and ELISA.	Selection of study participants with already Flavivirus result known
66	Kraemer, 2019	Spread of yellow fever virus outbreak in Angola and the Democratic Republic of the Congo 2015-16: a modelling study (vol 17, pg 330, 2017).	No data on YFV prevalence or case fatality rate
67	Kraemer, 2017	Spread of yellow fever virus outbreak in Angola and the Democratic Republic of the Congo 2015-16: a modelling study.	Duplicates
68	Kwallah, 2013	A real-time reverse transcription loop-mediated isothermal amplification assay for the rapid detection of yellow fever virus.	Selection of study participants with already Flavivirus result known
69	LaBeaud, 2011	Arbovirus Prevalence in Mosquitoes, Kenya.	No data on YFV prevalence or case fatality rate
70	Leal, 2020	Abundance and Updated Distribution of Aedes aegypti (Diptera: Culicidae) in Cabo Verde Archipelago: A Neglected Threat to Public Health.	No data on YFV prevalence or case fatality rate
71	Leta, 2018	Global risk mapping for major diseases transmitted by Aedes aegypti and Aedes albopictus.	Selection of study participants with already Flavivirus result known
72	Li, 2019	Rift Valley Fever Virus and Yellow Fever Virus in Urine: A Potential Source of Infection.	Selection of study participants with already Flavivirus result known
73	Li, 2017	Adaptive Diversification Between Yellow Fever Virus West African and South American Lineages: A Genome-Wide Study.	Selection of study participants with already Flavivirus result known
74	Li, 2022	Molecular epidemiology of yellow fever virus in Africa: A perspective of the phylogeographic split between East/Central African and West African lineages.	No data on YFV prevalence or case fatality rate
75	Liu, 2016	Development of a TaqMan Array Card for Acute-Febrile-Illness Outbreak Investigation and Surveillance of Emerging Pathogens, Including Ebola Virus.	Selection of study participants with already Flavivirus result known

76	Liu, 2021	Preparation and application of yellow fever virus NS1 protein-specific monoclonal antibodies.	Study outside Africa
77	Mackenzie, 2022	Pneumococcal conjugate vaccination schedules in infants-acquisition, immunogenicity, and pneumococcal conjugate and yellow fever vaccine co-administration study.	No data on YFV prevalence or case fatality rate
78	Makiala-Mandanda, 2018	Identification of Dengue and Chikungunya Cases Among Suspected Cases of Yellow Fever in the Democratic Republic of the Congo.	Selection of study participants with already Flavivirus result known
79	Makiala-Mandanda, 2017	High Prevalence and Diversity of Hepatitis Viruses in Suspected Cases of Yellow Fever in the Democratic Republic of Congo.	Selection of study participants with already Flavivirus result known
80	Makiala-Mandanda, 2021	Herpes Infections in Suspected Cases of Yellow Fever in the Democratic Republic of the Congo.	No data on YFV prevalence or case fatality rate
81	Markoff, 2013	Yellow fever outbreak in Sudan.	Comment on an article
82	Mayanja, 2021	Mosquito-borne arboviruses in Uganda: history, transmission and burden.	Review
83	Mbanzulu, 2017	Mosquito-borne viruses circulating in Kinshasa, Democratic Republic of the Congo.	Not possible to extract data on YFV prevalence or case fatality rate
84	McArthur, 2020	Molecular Characterization of Hamster-Adapted Yellow Fever Virus.	No data on YFV prevalence or case fatality rate
85	McMullan, 2012	Using next generation sequencing to identify yellow fever virus in Uganda.	Sample size < or = 10 participants
86	Mendez, 2007	Detection of yellow fever virus by reverse transcriptase polymerase chain reaction in wild monkeys: a sensitive tool for epidemiologic surveillance.	Sample size < or = 10 participants
87	Méndez, 2013	Development of a reverse transcription polymerase chain reaction method for yellow fever virus detection.	No data on YFV prevalence or case fatality rate
88	Montoya-Ruiz, 2018	Epidemiological Surveillance of Viral Hemorrhagic Fevers With Emphasis on Clinical Virology.	No data on YFV prevalence or case fatality rate
89	Mukadi Kakoni, 2021	Leptospirosis as a cause of fever associated with jaundice in the Democratic Republic of the Congo.	Not possible to extract data on YFV prevalence or case fatality rate
90	Mullaert, 2015	Diphtheria, tetanus, poliomyelitis, yellow fever and hepatitis B seroprevalence among HIV1-infected migrants. Results from the ANRS VIHVO vaccine sub-study.	Study outside Africa
91	Mushi, 2021	A Longitudinal Study Regarding the Health Profile of the 2017 South African Hajj Pilgrims.	No data on YFV prevalence or case fatality rate
92	Mutebi, 2004	Genetic relationships and evolution of genotypes of yellow fever virus and other members of the yellow fever virus group within the Flavivirus genus based on the 3' noncoding region.	No data on YFV prevalence or case fatality rate
93	Mutebi, 2001	Phylogenetic and evolutionary relationships among yellow fever virus isolates in Africa.	No data on YFV prevalence or case fatality rate
94	Nathan, 2001	Shortage of vaccines during a yellow fever outbreak in Guinea.	Not possible to extract data on YFV prevalence or case fatality rate
95	Ndumu, 2021	Serological evidence of Rift Valley fever virus infection among domestic ruminant herds in Uganda.	No data on YFV prevalence or case fatality rate
96	Niedrig, 2008	Evaluation of an indirect immunofluorescence assay for detection of immunoglobulin M (IgM) and IgG antibodies against yellow fever virus.	Study outside Africa
97	No author listed, 2016	Reining in Angola's yellow fever outbreak.	Review
98	No author listed, 2016	Yellow fever in Angola.	Review
99	Nomhwange, 2021	The resurgence of yellow fever outbreaks in Nigeria: a 2-year review 2017-2019.	Not possible to extract data on YFV prevalence or case fatality rate

100	Nunes, 2011	Evaluation of two molecular methods for the detection of Yellow fever virus genome.	Study outside Africa
101	Nunes, 2015	Analysis of a Reverse Transcription Loop-mediated Isothermal Amplification (RT-LAMP) for yellow fever diagnostic.	Study outside Africa
102	Ochola, 2022	Mosquitoes Larvicidal Activity of Ocimum kilimandscharicum Oil Formulation under Laboratory and Field-Simulated Conditions.	No data on YFV prevalence or case fatality rate
103	Ofosu-Appiah, 2022	An evaluation of the diagnostic performance characteristics of the Yellow Fever IgM immunochromatographic rapid diagnostic test kit from SD Biosensor in Ghana.	Selection of study participants with already Flavivirus result known
104	Oladepo, 2021	Outcome of reminder text messages intervention on completion of routine immunization in rural areas, Nigeria.	No data on YFV prevalence or case fatality rate
105	Olivero, 2016	Dengue Virus Seroconversion in Travelers to Dengue-Endemic Areas.	Study outside Africa
106	Omololu, 2019	YELLOW FEVER CHILDHOOD IMMUNIZATION COVERAGE IN JOS NORTH LOCAL GOVERNMENT AREA, NORTH CENTRAL NIGERIA: 2015 – 2017	No data on YFV prevalence or case fatality rate
107	Onyango, 2004	Yellow fever outbreak, southern Sudan, 2003.	No data on YFV prevalence or case fatality rate
108	Onyango, 2004	Yellow Fever Outbreak; Imatong; Southern Sudan.	Duplicates
109	Phan, 2019	Genomic sequence of yellow fever virus from a Dutch traveller returning from the Gambia-Senegal region, the Netherlands, November 2018.	Study outside Africa
110	Phoutrides, 2011	Dengue virus seroprevalence among febrile patients in Bamako, Mali: results of a 2006 surveillance study.	Selection of study participants with already Flavivirus result known
111	Ramos Junior, 2015	Yellow fever risk assessment in the Central African Republic.	Duplicates
112	Raulino, 2021	Multiplex detection of antibodies to Chikungunya, O'nyong-nyong, Zika, Dengue, West Nile and Usutu viruses in diverse non-human primate species from Cameroon and the Democratic Republic of Congo.	No data on YFV prevalence or case fatality rate
113	Rojas, 2018	Internally Controlled, Multiplex Real-Time Reverse Transcription PCR for Dengue Virus and Yellow Fever Virus Detection.	Study outside Africa
114	Rossetto, 2016	REPORTING DELAY DURING THE YELLOW FEVER OUTBREAK, ANGOLA, 2016.	No data on YFV prevalence or case fatality rate
115	Rubbo, 2018	Evidence of human leptospirosis cases in a cohort of febrile patients in Bangui, Central African Republic: a retrospective study, 2012-2015.	Selection of study participants with already Flavivirus result known
116	Sánchez-Seco, 2006	Detection and subtyping of dengue 1-4 and yellow fever viruses by means of a multiplex RT-nested-PCR using degenerated primers.	Study outside Africa
117	Scheck, 2022	FluoRNT: A robust, efficient assay for the detection of neutralising antibodies against yellow fever virus 17D.	Study outside Africa
118	Selemane, 2019	Epidemiological monitoring of the last outbreak of yellow fever in Brazil An outlook from Portugal.	Study outside Africa
119	Shi, 2016	Surveillance of mosquito-borne infectious diseases in febrile travelers entering China via Shenzhen ports, China, 2013.	Study outside Africa
120	Simões, 2012	Evaluation of accuracy and reliability of the plaque reduction neutralization test (micro-PRNT) in detection of yellow fever virus antibodies.	Study outside Africa
121	Simon-Loriere, 2017	Autochthonous Japanese Encephalitis with Yellow Fever Coinfection in Africa.	Case report
122	Soghaier, 2013	Yellow Fever outbreak in Darfur, Sudan in October 2012; the initial outbreak investigation report.	Sample size < or = 10 participants
123	Sow, 2019	Seroreactivity to Chikungunya and West Nile Viruses in Rwandan Blood Donors.	No data on YFV prevalence or case fatality rate
124	Stock, 2015	Development and characterization of polyclonal peptide antibodies for the detection of Yellow fever virus proteins.	No data on YFV prevalence or case fatality rate
125	Stock, 2013	Biological and phylogenetic characteristics of yellow fever virus lineages from West Africa.	No data on YFV prevalence or case fatality rate

126	Sutherland, 2011	Serologic evidence of arboviral infections among humans in Kenya.	Duplicates
127	Tricou, 2020	Hepatitis E virus outbreak associated with rainfall in the Central African Republic in 2008-2009.	Selection of study participants with already Flavivirus result known
128	Trindade, 2020	Detection of Yellow Fever Virus by Quantitative Real-Time PCR (qPCR).	No data on YFV prevalence or case fatality rate
129	Umoke, 2021	Delay in health-seeking behaviour: Implication to yellow fever outcome in the 2019 outbreak in Nigeria.	Selection of study participants with already Flavivirus result known
130	Vianello, 2019	Ocular Findings in Yellow Fever Infection.	Case report
131	von Lindern, 2006	Genome analysis and phylogenetic relationships between east, central and west African isolates of Yellow fever virus.	No data on YFV prevalence or case fatality rate
132	Wat'senga Tezzo, 2021	High Aedes spp. larval indices in Kinshasa, Democratic Republic of Congo.	No data on YFV prevalence or case fatality rate
133	WHO, 2006	Outbreak news. Yellow fever, Cote d'Ivoire.	No data on YFV prevalence or case fatality rate
134	WHO, 2002	Yellow fever, Senegal--update.	No data on YFV prevalence or case fatality rate
135	WHO, 2002	Yellow fever, Senegal (update).	No data on YFV prevalence or case fatality rate
136	WHO, 2007	Outbreak news. Yellow fever, Togo.	No data on YFV prevalence or case fatality rate
137	WHO, 2007	Outbreak news. Yellow fever, Togo--update.	No data on YFV prevalence or case fatality rate
138	WHO, 2008	Outbreak news. Yellow fever, Liberia.	No data on YFV prevalence or case fatality rate
139	WHO, 2008	Outbreak news. Yellow fever, Guinea.	No data on YFV prevalence or case fatality rate
140	WHO, 2009	Outbreak news. Yellow fever, Republic of the Congo.	No data on YFV prevalence or case fatality rate
141	WHO, 2010	Yellow fever, Senegal.	No data on YFV prevalence or case fatality rate
142	WHO, 2010	Yellow fever surveillance and outbreak response: revision of case definitions, October 2010.	Review
143	WHO, 2011	Outbreak news. Yellow fever, Sierra Leone.	No data on YFV prevalence or case fatality rate
144	WHO, 2011	Outbreak news. Yellow fever, Côte d'Ivoire.	No data on YFV prevalence or case fatality rate
145	WHO, 2011	Outbreak news. Yellow fever, Uganda.	No data on YFV prevalence or case fatality rate
146	WHO, 2011	Outbreak news. Yellow fever, Côte d'Ivoire –update.	No data on YFV prevalence or case fatality rate
147	WHO, 2012	Outbreak news. Yellow fever, Sudan.	No data on YFV prevalence or case fatality rate
