Appendices

Appendix 1

Section/topic	#	Checklist item	Information reported		Line number(s)
			Yes	No	
ADMINISTRATIVE INFORMATION					
Title					
Identification	1a	Identify the report as a protocol of a systematic review	☑	☐	Page2/21, line 8
Update	1b	If the protocol is for an update of a previous systematic review, identify as such	☐	☐	
Registration	2	If registered, provide the name of the registry (e.g., PROSPERO) and registration number in the Abstract	☑	☐	Page 4/21, line 47
Authors					
Contact	3a	Provide name, institutional affiliation, and e-mail address of all protocol authors; provide physical mailing address of corresponding author	☑	☐	Page 2/21, lines 10-55
Contributions	3b	Describe contributions of protocol authors and identify the guarantor of the review	☑	☐	Page 13/21, lines 3-21
Amendments	4	If the protocol represents an amendment of a previously completed or published protocol, identify as such and list changes; otherwise, state plan for documenting important protocol amendments	☑	☐	Page 12/21, lines 36-41
Support					
Sources	5a	Indicate sources of financial or other support for the review	☑	☐	Page 12/21, lines 51-53
Sponsor	5b	Provide name for the review funder and/or sponsor	☑	☐	Page 12/21, lines 53
Role of sponsor/funder	5c	Describe roles of funder(s), sponsor(s), and/or institution(s), if any, in developing the protocol	☑	☐	Page 12/21, lines 51-53
INTRODUCTION					
Rationale	6	Describe the rationale for the review in the context of what is already known	☑	☐	Page 6-7/21
Objectives	7	Provide an explicit statement of the question(s) the review will address with reference to participants, interventions, comparators, and outcomes (PICO)	☑	☐	Page 8/21, lines 3-14
METHODS					
Eligibility criteria	8	Specify the study characteristics (e.g., PICO, study design, setting, time frame) and report	☑	☐	Page 8/21, lines 20-55;

Section/topic	#	Checklist item	Information reported		Line number(s)
			Yes	No	
		characteristics (e.g., years considered, language, publication status) to be used as criteria for eligibility for the review			Page 9/21, lines 3-18
Information sources	9	Describe all intended information sources (e.g., electronic databases, contact with study authors, trial registers, or other grey literature sources) with planned dates of coverage	☑	☐	Page 9/21, lines 32-40
Search strategy	10	Present draft of search strategy to be used for at least one electronic database, including planned limits, such that it could be repeated	☑	☐	Page 9/21, lines 20-31
STUDY RECORDS					
Data management	11a	Describe the mechanism(s) that will be used to manage records and data throughout the review	☑	☐	Page 9/21, line 52
Selection process	11b	State the process that will be used for selecting studies (e.g., two independent reviewers) through each phase of the review (i.e., screening, eligibility, and inclusion in meta-analysis)	☑	☐	Page 9/21, lines 48-55; page 10/21, lines 3-14
Data collection process	11c	Describe planned method of extracting data from reports (e.g., piloting forms, done independently, in duplicate), any processes for obtaining and confirming data from investigators	☑	☐	Page 10/21, lines 26-50
Data items	12	List and define all variables for which data will be sought (e.g., PICO items, funding sources), any pre-planned data assumptions and simplifications	☑	☐	Page 8/21, lines 31-50
Outcomes and prioritization	13	List and define all outcomes for which data will be sought, including prioritization of main and additional outcomes, with rationale	☑	☐	Page 8/21, lines 52-55; page 9/21, lines 3-7
Risk of bias in individual studies	14	Describe anticipated methods for assessing risk of bias of individual studies, including whether this will be done at the outcome or study level, or both; state how this information will be used in data synthesis	☑	☐	Page 10/21, lines- 15-24
DATA					
Synthesis	15a	Describe criteria under which study data will be quantitatively synthesized	☑	☐	Page 11/21, lines 3-43
	15b	If data are appropriate for quantitative synthesis, describe planned summary measures, methods of handling data, and methods of combining data from studies, including any planned exploration of consistency (e.g., I^2, Kendall's tau)	☑	☐	Page 11/21, lines 3-14

Section/topic	#	Checklist item	Information reported		Line number(s)
			Yes	No	
	15c	Describe any proposed additional analyses (e.g., sensitivity or subgroup analyses, meta-regression)	☑	☐	Page 11-21,lines 14-21
	15d	If quantitative synthesis is not appropriate, describe the type of summary planned	☑	☐	Page 11/21, lines 22-43
Meta-bias(es)	16	Specify any planned assessment of meta-bias(es) (e.g., publication bias across studies, selective reporting within studies)	☑	☐	Page 12/21, lines 32-41
Confidence in cumulative evidence	17	Describe how the strength of the body of evidence will be assessed (e.g., GRADE)	☑	☐	Page 12/21, lines 43-47

Appendix 3

Joanna Briggs Institute for Meta-Analysis of Statistics Assessment and Review Instruments

1. JBI critical appraisal checklist for randomized control trials

Reviewer…….. Date……..

Author…….. Year……..

		Yes	No	Unclear	Not applicable
1	Was the assignment and treatment groups truly random?				
2	Were participants blind to treatment allocation?				
3	Was the allocation to treatment groups concealed from the allocator?				
4	Were the outcomes of people who withdrew described and included in the analysis?				
5	Were those assessing outcomes blind to the treatment allocation?				
6	Were the control and treatment groups comparable at entry?				
7	Were groups treated identically other than for the named interventions?				
8	Were outcomes measured in the same way for all groups?				
9	Were outcomes measured in a reliable way?				
10	Was appropriate statistical analysis used?				

Overall appraisal: include…… exclude……. Seek further info…….

Comments (include reasons for exclusion)……..

2. JBI critical appraisal checklist for non-randomized control trials

Reviewer…….. Date……..

Author…….. Year……..

1	Was study based on random or pseudo sample?				

2	Were the criteria for inclusion in the sample clearly defined?				
3	Were confounding factors identified and strategies to deal with them stated?				
4	Were outcomes assessed using objective criteria?				
5	If comparisons are being made, was there sufficient description of the groups?				
6	Was follow up carried out over a sufficient time period?				
7	Were the outcomes of people who withdrew described and included in the analysis?				
8	Were outcomes measured in a reliable way?				
9	Was appropriate statistical analysis used?				

Overall appraisal: include…… exclude……. Seek further info…….

Comments (include reasons for exclusion)……..

Appendix 4

Data Extraction Form for Quantitative Research

Study Characteristics

1. **Author:**
2. **Year of publication:**
3. **Journal:**
4. **Record number:**

Study Method

1. **Study Design:**

RCT	Quasi-RCT	Longitudinal	Retrospective	Observational	Other

2. **Purpose:**
3. **Research Questions:**

Participant Characteristics

Country where the study took place	Setting	Population	Sex	Age	Sample size	Ethnicity (if applicable)	socioeconomic status (if applicable)	education level (if applicable)

Pressure Ulcer Prevention Strategies

Strategy 1:

Strategy 2:

Strategy 3:

Outcome Measures

Outcome Description	Scale/measure

Study results

Dichotomous data

Outcome	Intervention ( ) number / total number	Intervention ( )number / total number

Continuous data

Outcome	Intervention ( ) mean & SD (number)	Intervention ( ) mean & SD (number)

Authors' conclusions:
