Supplementary material

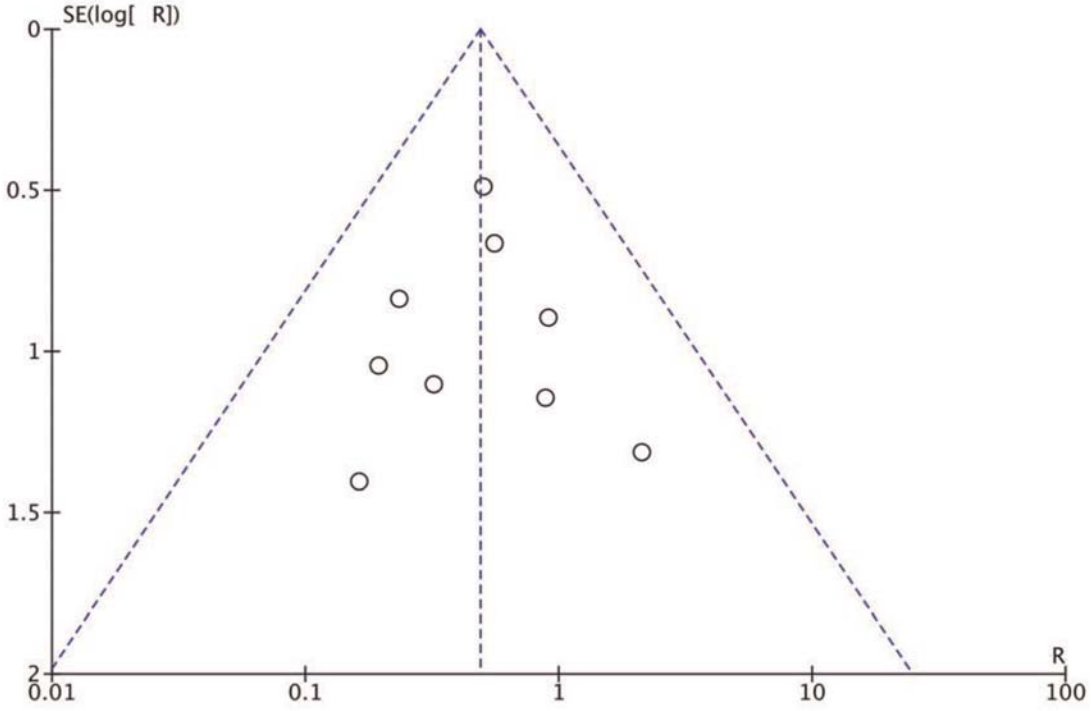

Supplementary Table 1s. Risk of bias assessment and quality of included studies.

	Selection	Comparability	Outcome	Overall quality
Chahal 2020	***	NA	**	H
Chen 2015	**	NA	**	M
Hookey2019	***	NA	**	H
Holster 2014	*	NA	**	L
Ng 2019	**	NA	**	M
Prei 2016	**	NA	**	M
Rodriguez de Santiago 2019	**	NA	*	L
Vitali 2019	**	NA	*	L
Hussein 2020	**	NA	*	L

L, low; H, high; U, unclear; M, moderate.
Study quality assessment performed by means of Newcastle/Ottawa scale (each asterisk represents if the respective criterion within the subsection was satisfied)
