**Online Resource 3.** Result of the quality appraisal

| | Was the study question well specified? | Were quantification methods appropriate and well-executed? | Were healthcare resources valued appropriately? | Was the inclusion of indirect costs appropriate? | Was a range of estimates presented? | Was a sensitivity analysis performed? | Was uncertainty around the estimates and its implications adequately discussed? | Were important limitations discussed regarding the cost components, data, assumptions, and methods? | Will the results help to understand indirect costs of SSTIs? |
