(Update t.o.v. 20200116)

Table 1. Diagnostic robots cerebral palsy or stroke

Database searched	via	Years of coverage	References	After de-duplication
Embase	Embase.com	1971 - Present	1068	1027
Medline ALL	Ovid	1946 - Present	754	63
Web of Science Core Collection	Web of Knowledge	1975 - Present	1048	421
Cochrane Central Register of Controlled Trials	Wiley	1992 - Present	514	290
Other sources: Google Scholar			200	105
CoCites			93 (stroke) + 52(CP) = 145	143
Manual			16	16
Total			**3745**	**2120***

*Note: *Total of all references is not equal to the added number of each single database together in the file. This because it is an update of a previous search and an article can be removed/added from the used ranking or is removed/added from the database or the thesaurus terms of an article have been changed.*

***New references in EndNote file: 270 (t.o.v. 20200116)*

CoCites

Two most cited articles (highest number of citations) from the databases above were used; one for CP and one for Stroke. These articles were used as the query articles as input for the search system of CoCites: https://www.cocites.com/
