S3 Table. Results of meta-regression of 25 samples of the included studies

Variable		Coefficient	*P*-Value
Region	West Bank	-11.60	0.196
	Gaza Strip	Ref	
Assessment	Self-report	-2.09	0.761
	Interview	Ref	
Survey-setting	Home/ Community	Ref	0.961
	School	-0.36	
Time from exposure	6 months	-9.44	0.231
	>6 months	Ref	
Sample	Representative	-23.49	0.011
	Not representative	Ref	
Quality assessment score	High (≥7)	Ref	
	Low (<7)	4.71	0.56
Age	<13 years	Ref	0.192
	≥13 years	9.98	
Constant		50.26	0.001
Number of samples	**25**		
R^2	**56.9%**		

Prevalence estimates were the dependent variable and all other variables of the subgroup analysis were the independent variables except for gender which we could not include due to limited amount of data.
