OCD Comorbidity Meta-analysis: Across the Lifespan

Sharma E et al

26/07/2021

Quality Check (QC) for each disorder

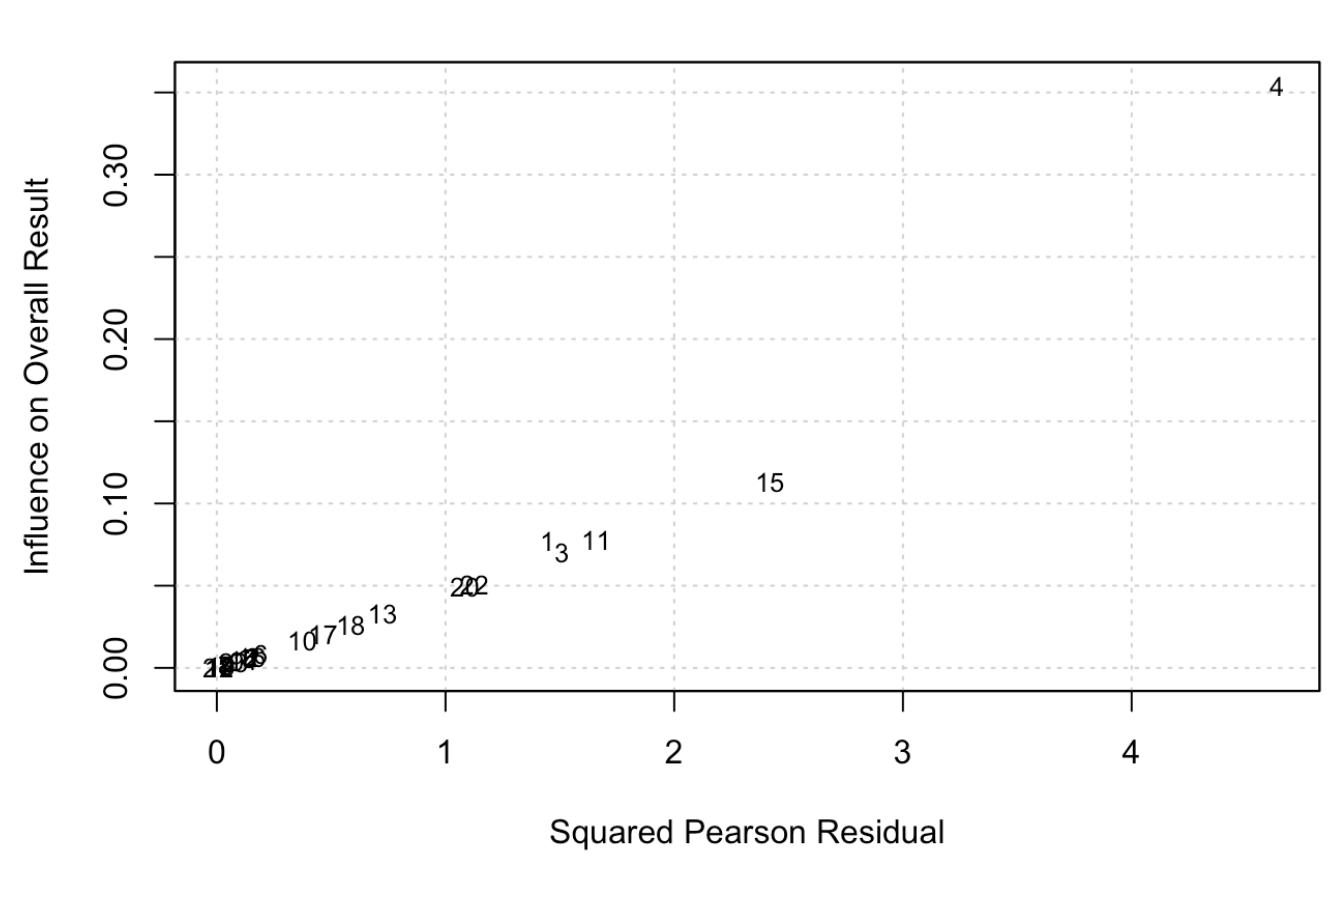
The numbers in the Baujat plots indicate the Study No in the corresponding table for the particular co-morbidity in Supplementary File 1.

Studies marked in red in the influence plots indicate outliers that significantly influence the pooled estimate and are excluded from the final analysis.

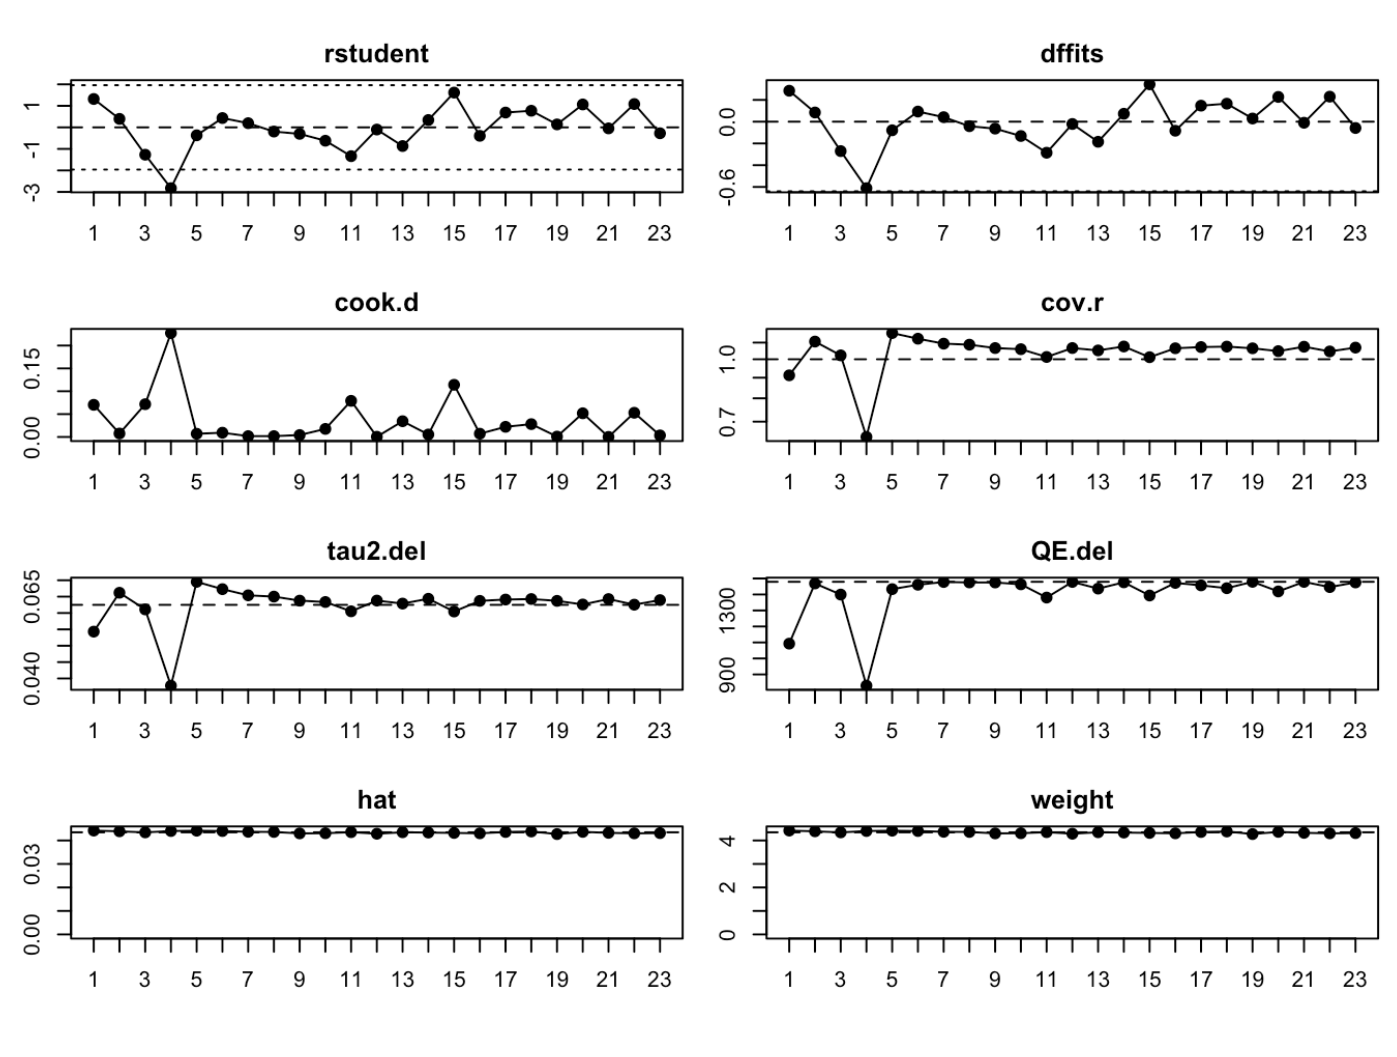
Suppl Figure 1.1 QC Plots for Any psychiatric comorbidity

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



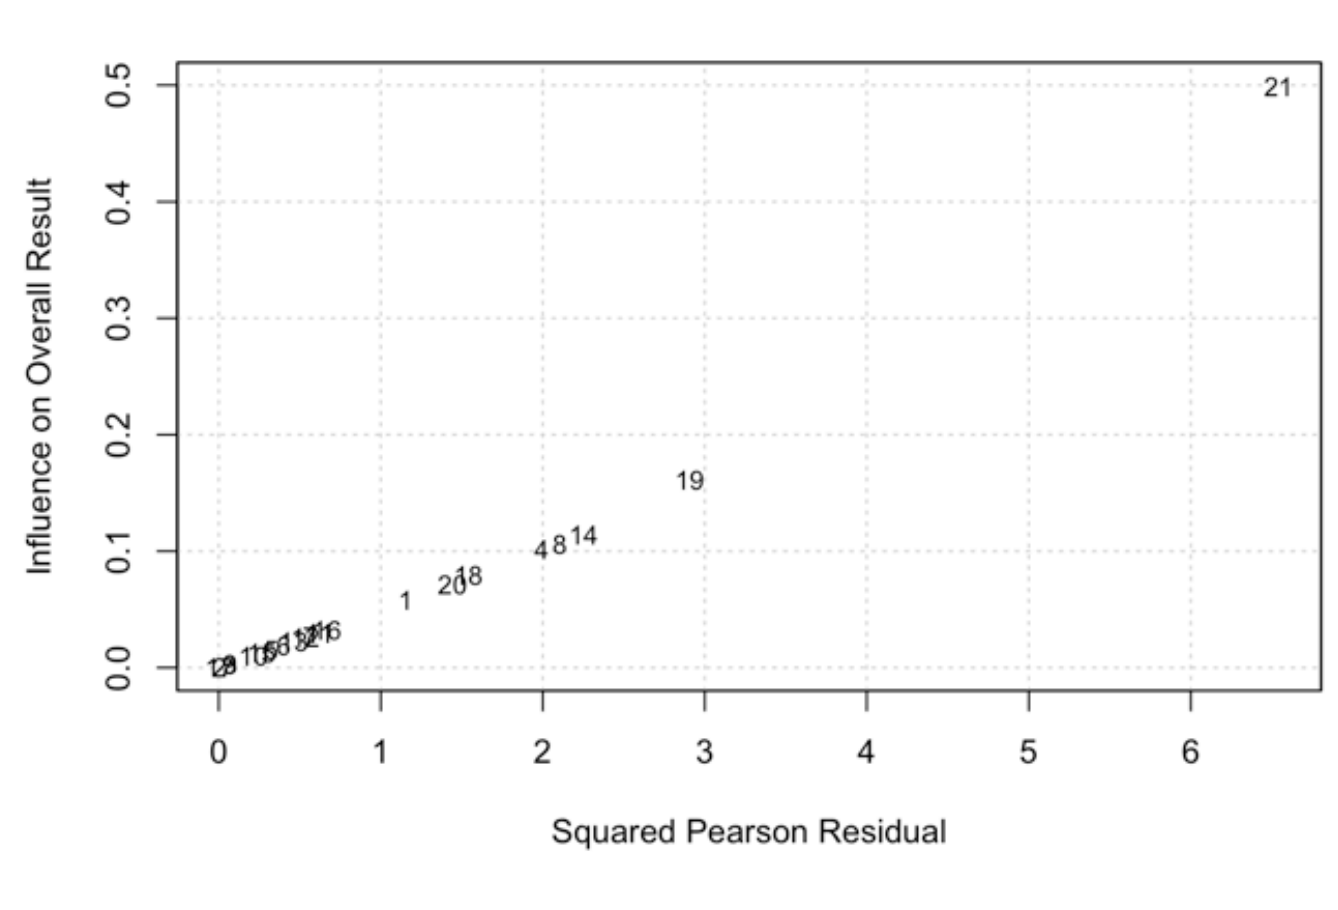
Influence Plots



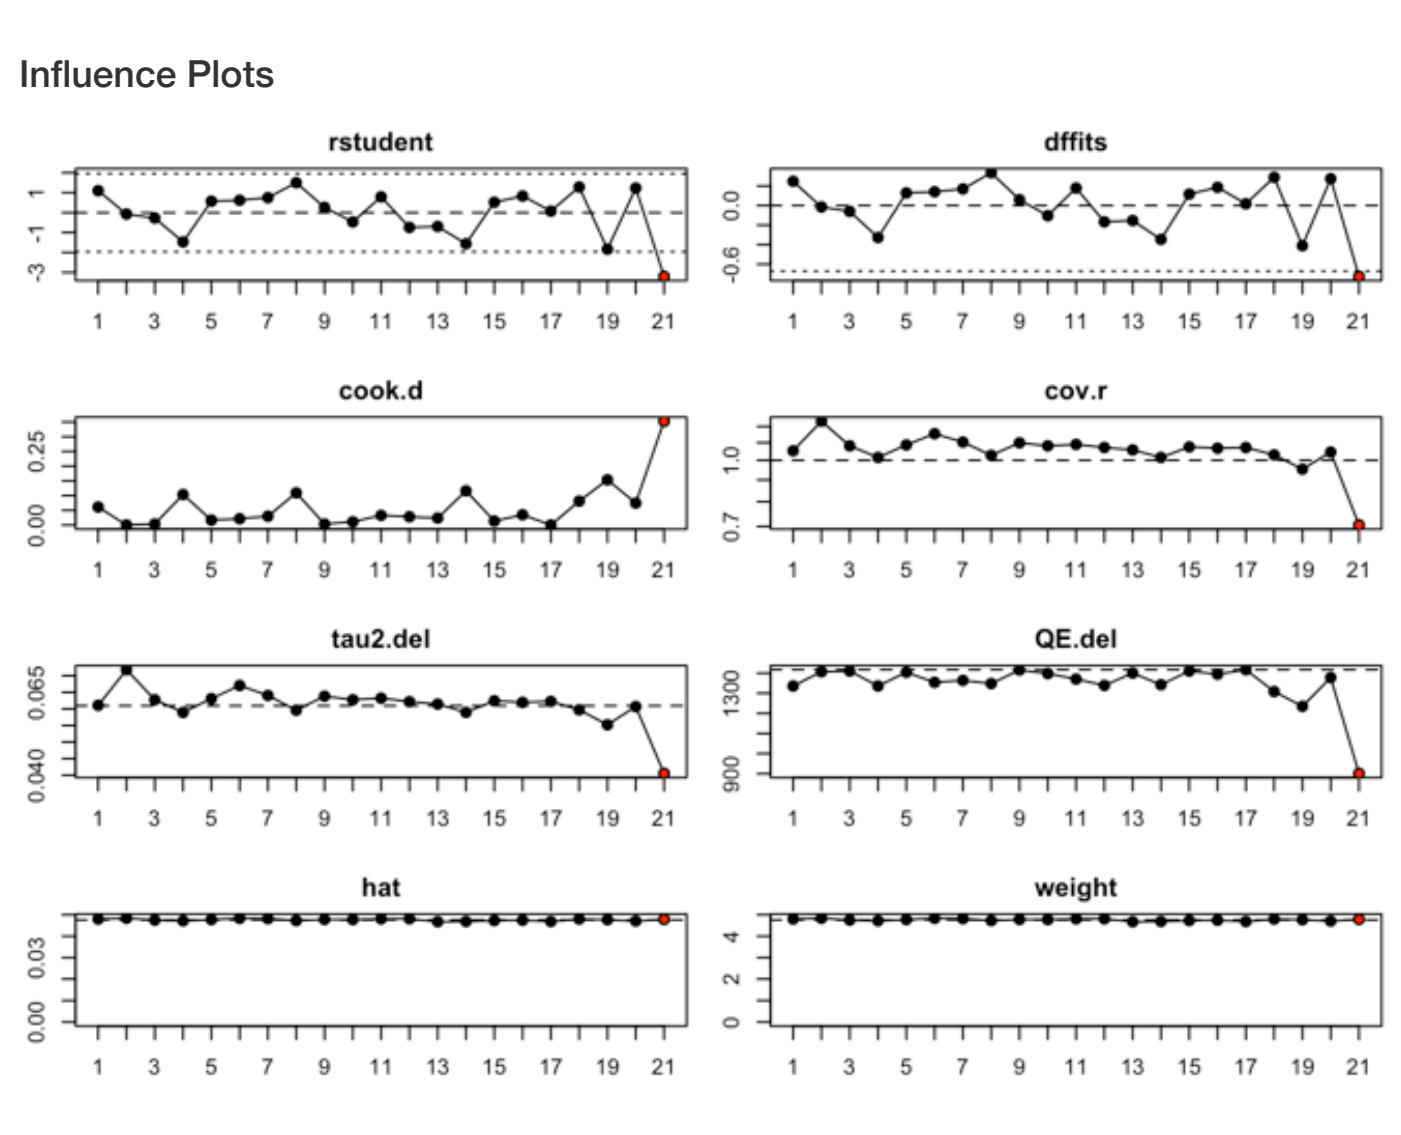
Suppl Figure 1.2 QC Plots for Any mood disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: Calamari 2008

Baujat Plot



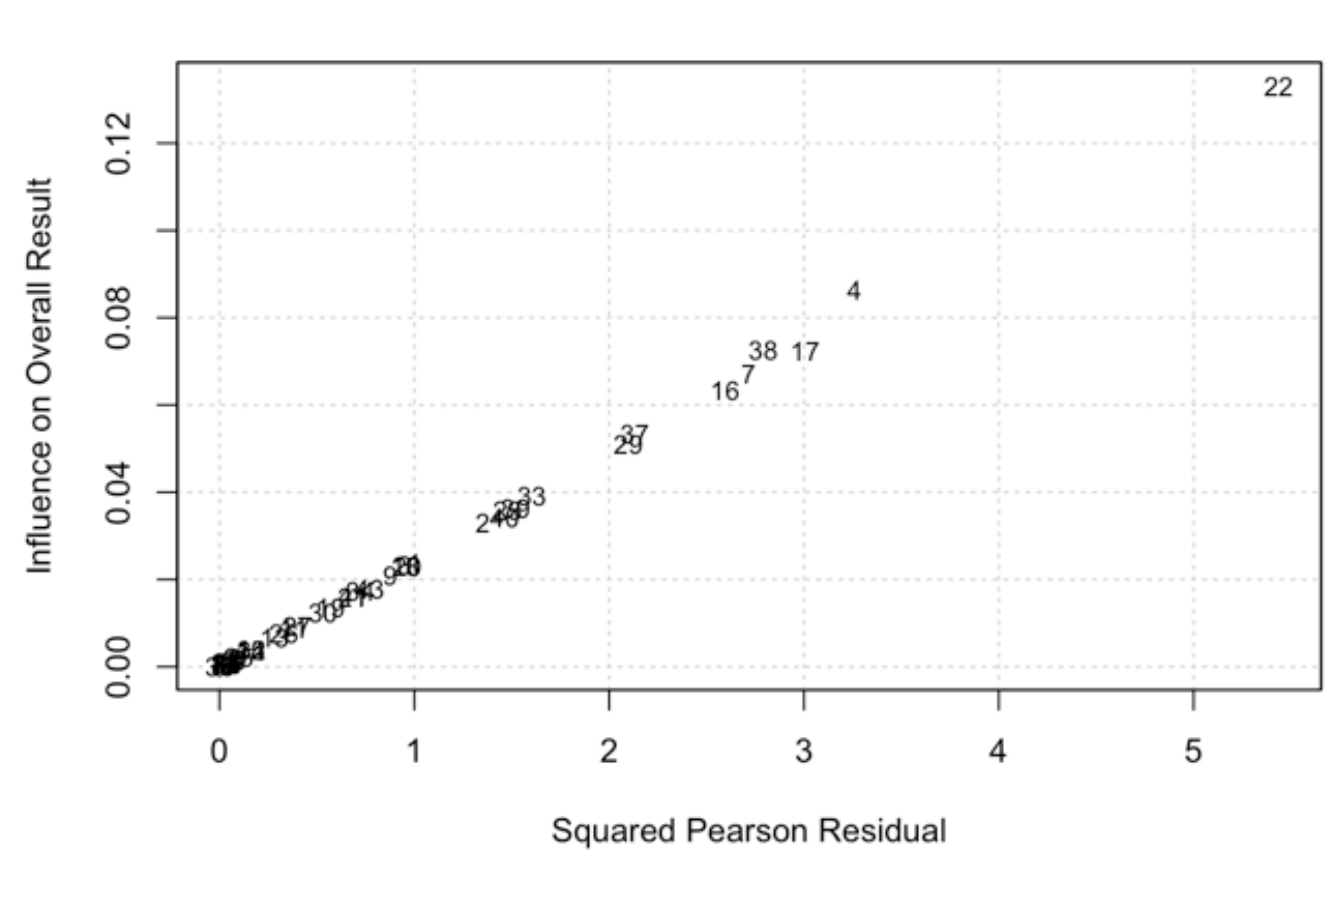
Influence Plots



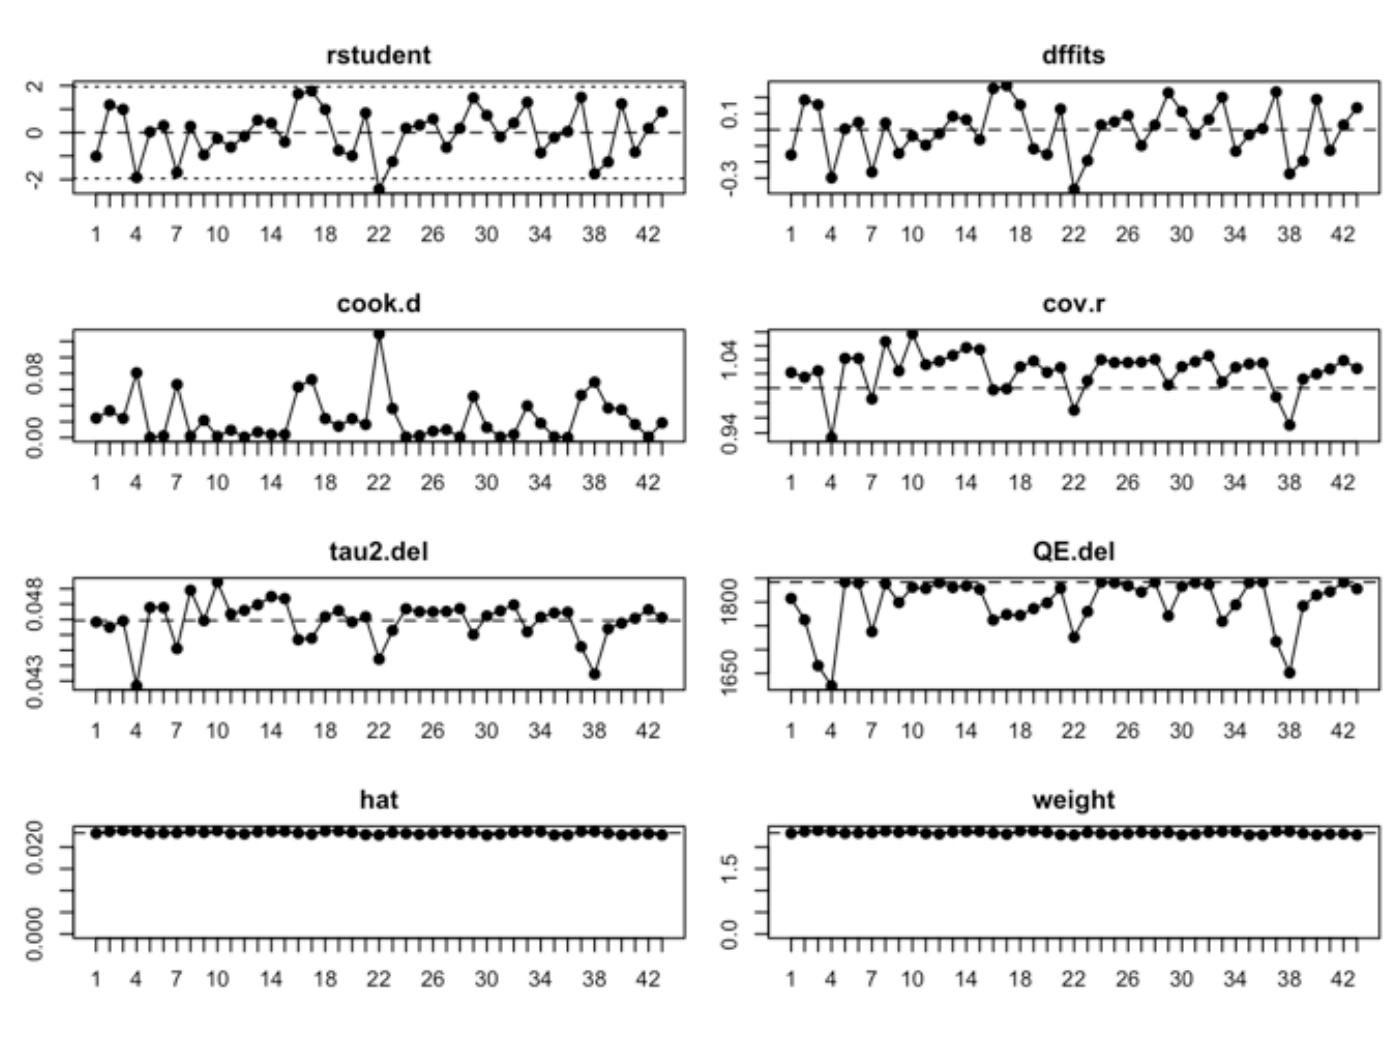
Suppl Figure 1.3 QC Plots for Major Depressive Disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



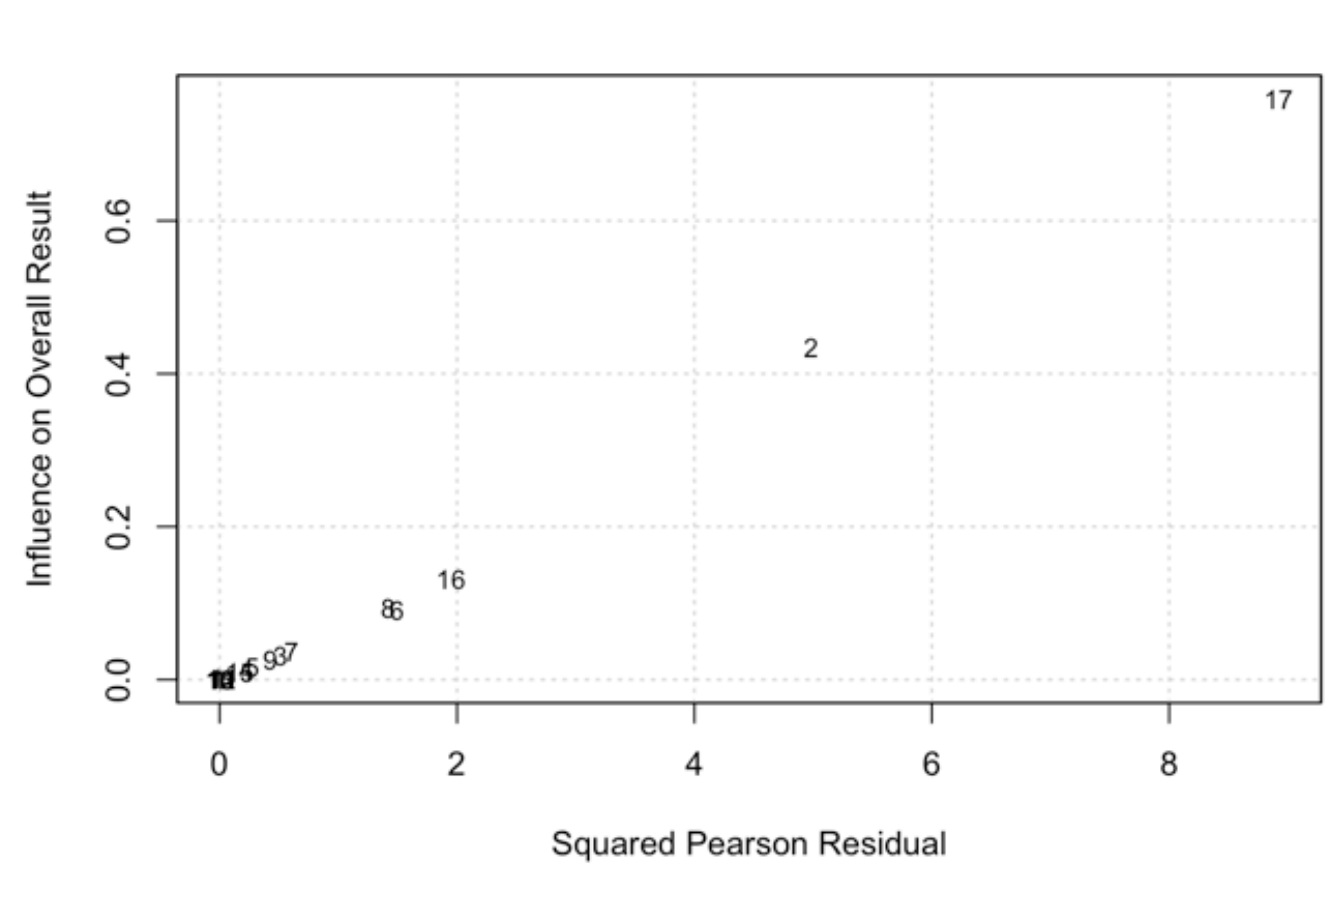
Influence Plots



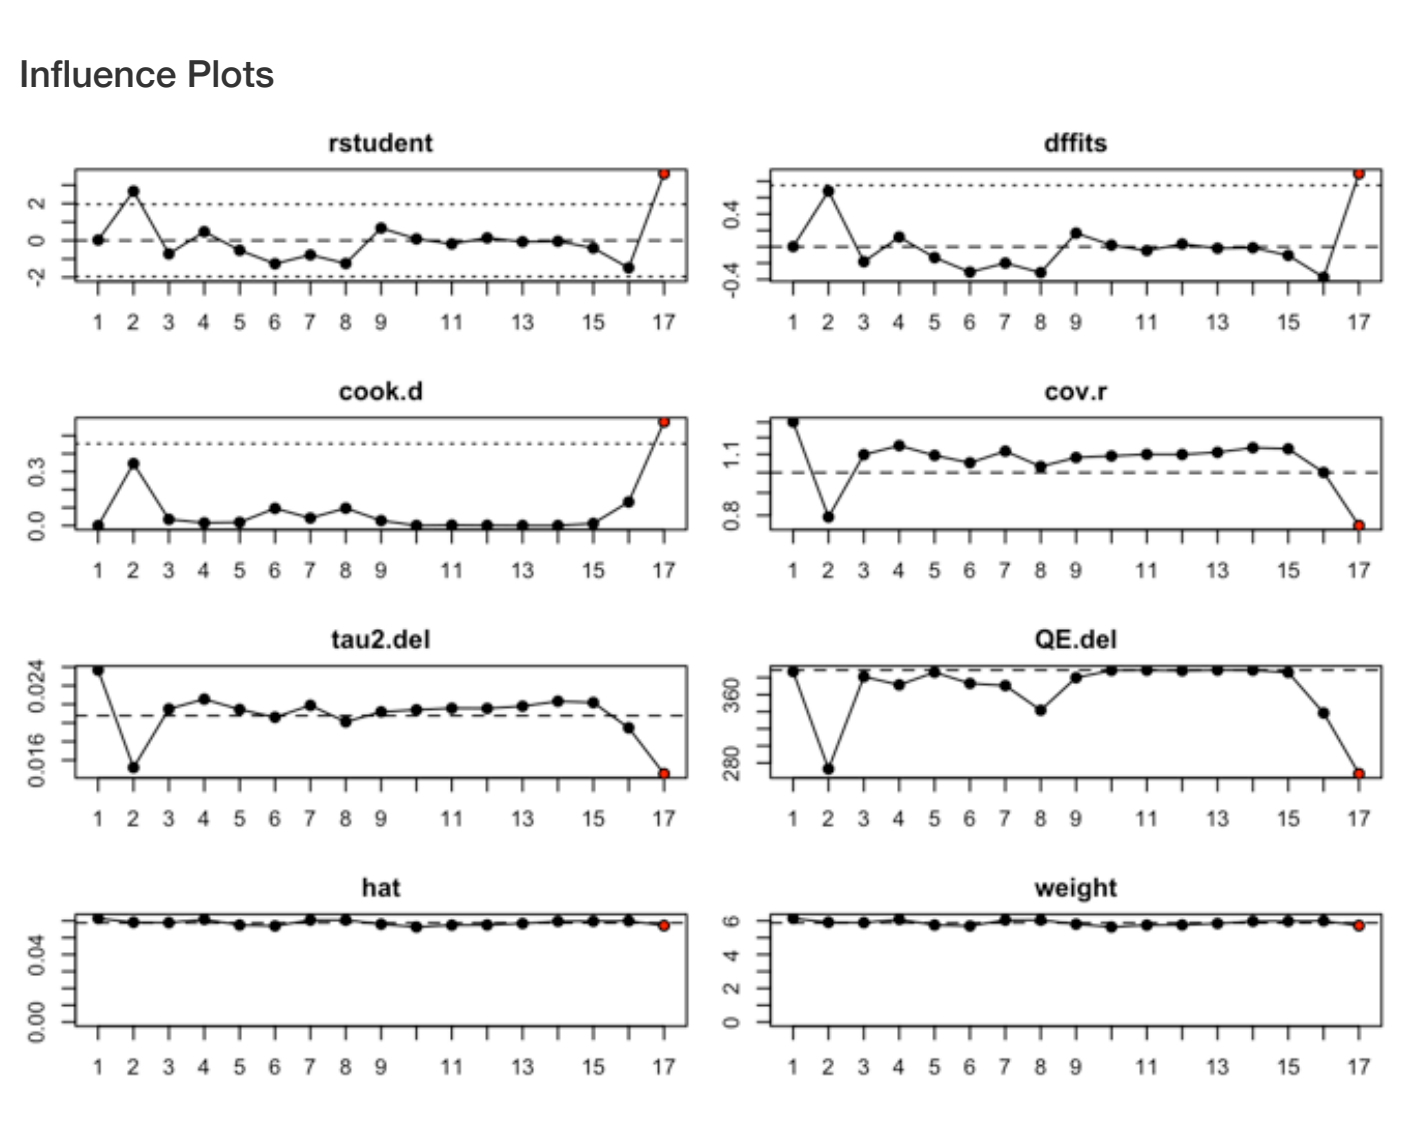
Suppl Figure 1.4 QC Plots for Dysthymia

Consider excluding the following study(s), based on the Baujat & Influence Plots: Fals-Stewart 1993

Baujat Plot



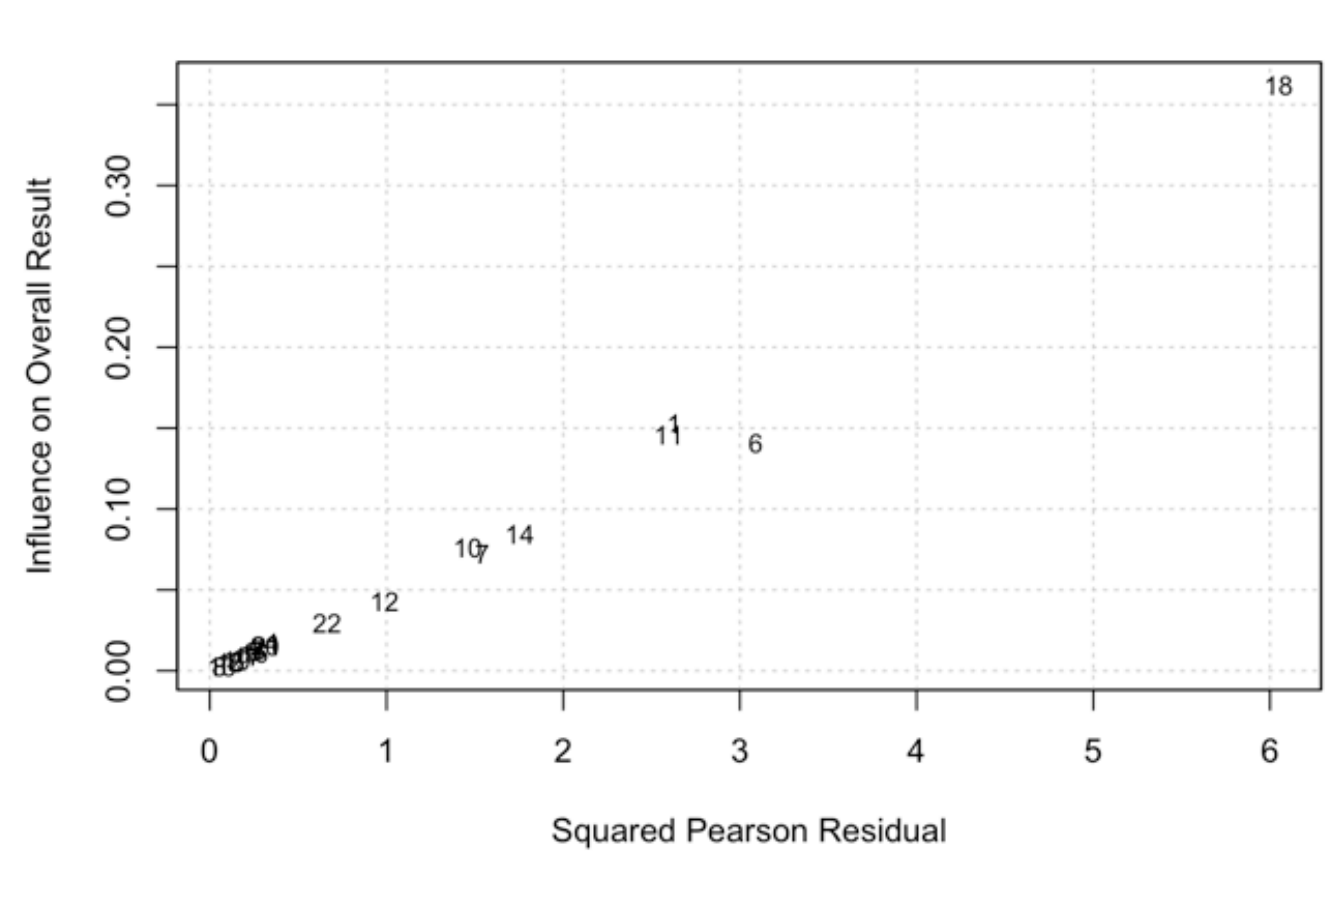
Influence Plots



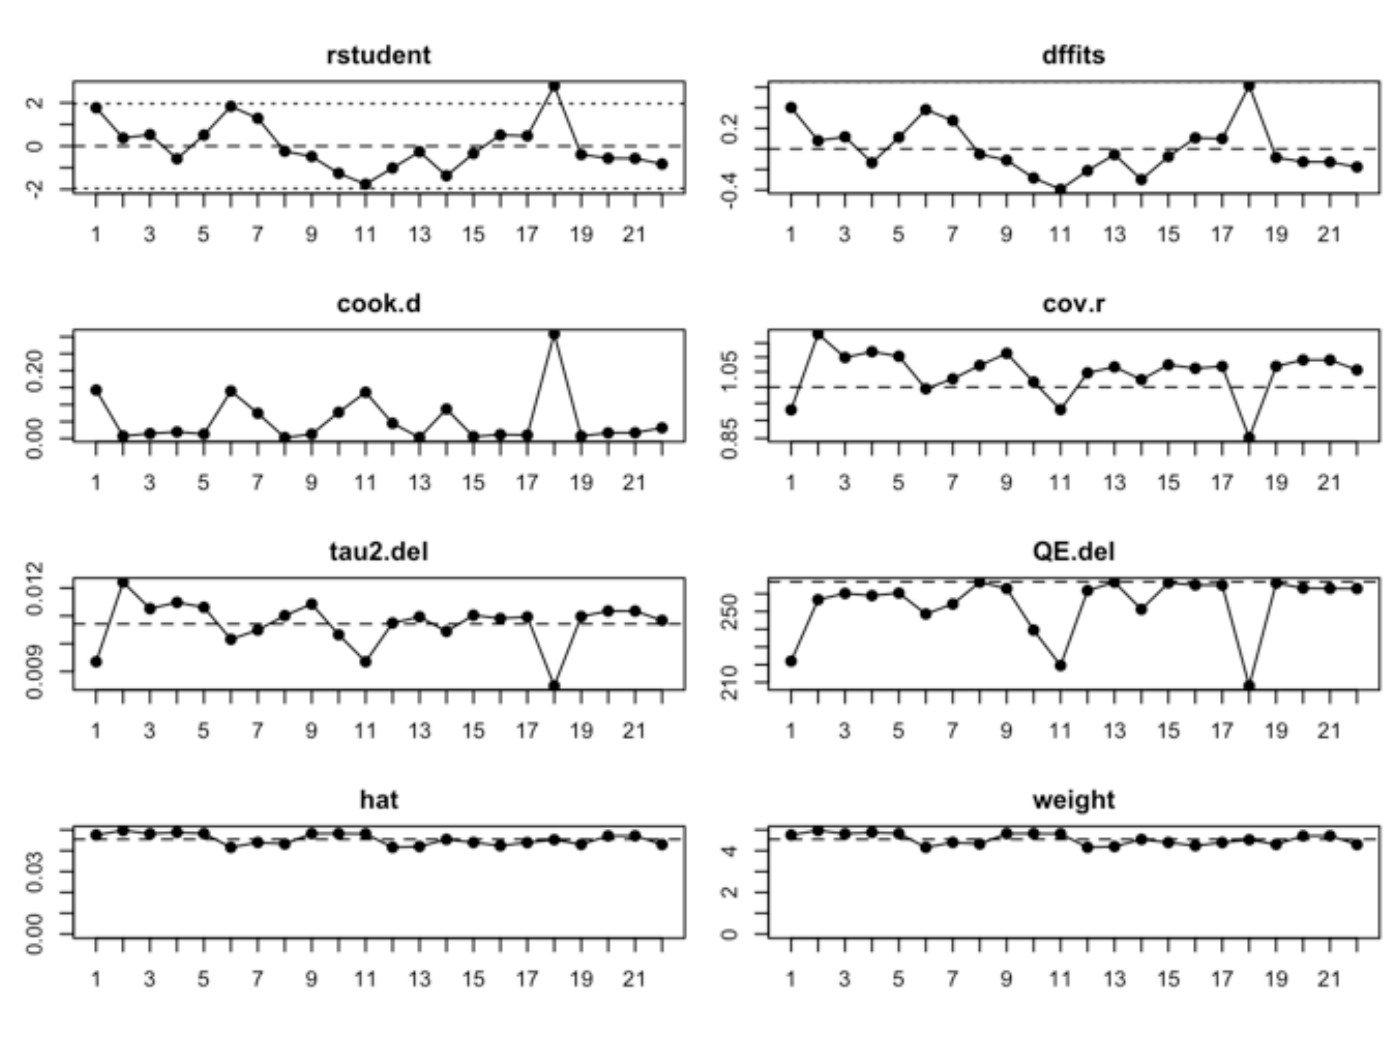
Suppl Figure 1.5 QC Plots for Bipolar Disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



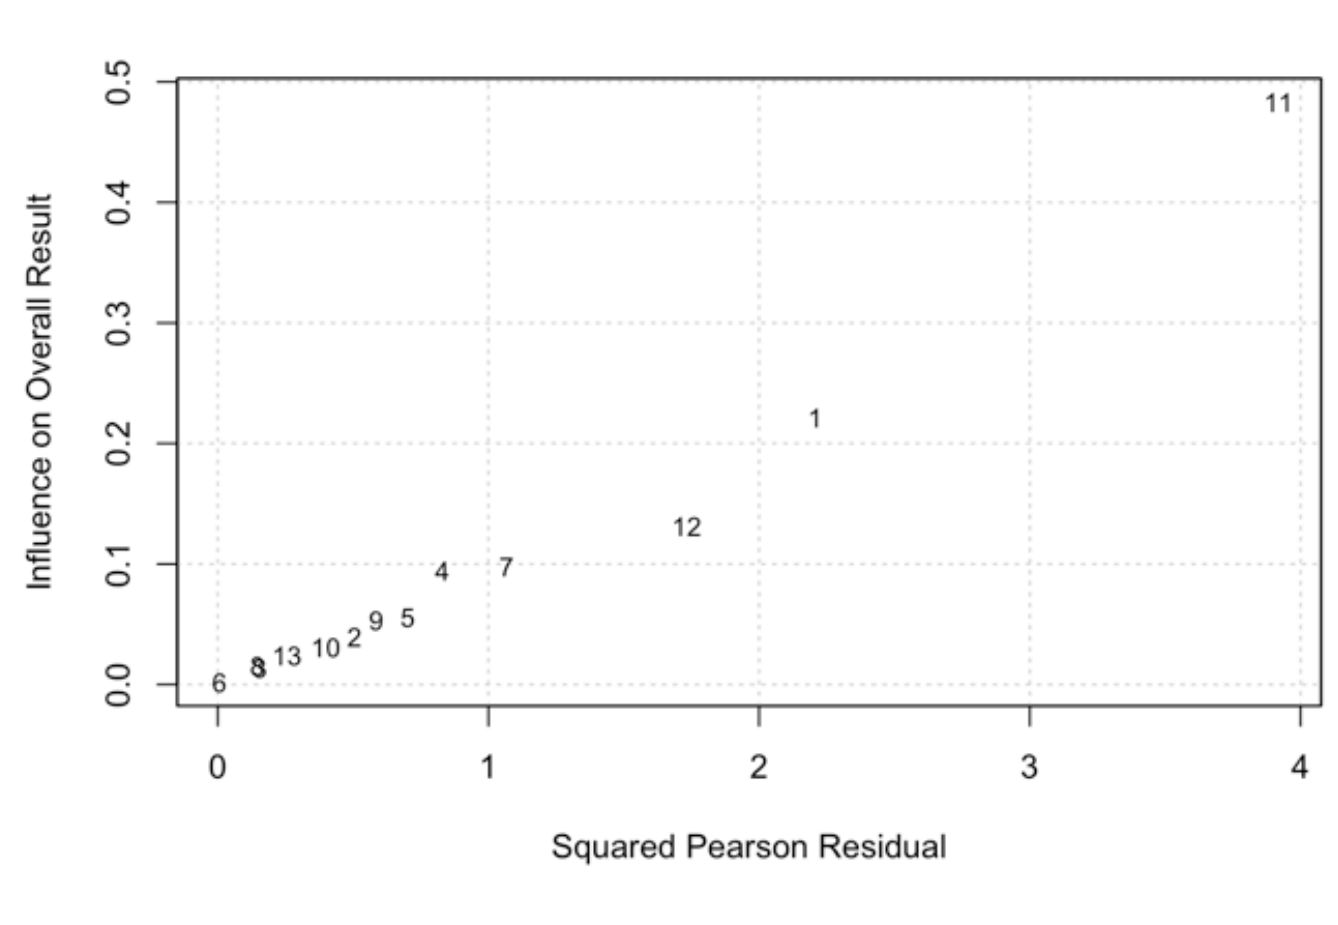
Influence Plots



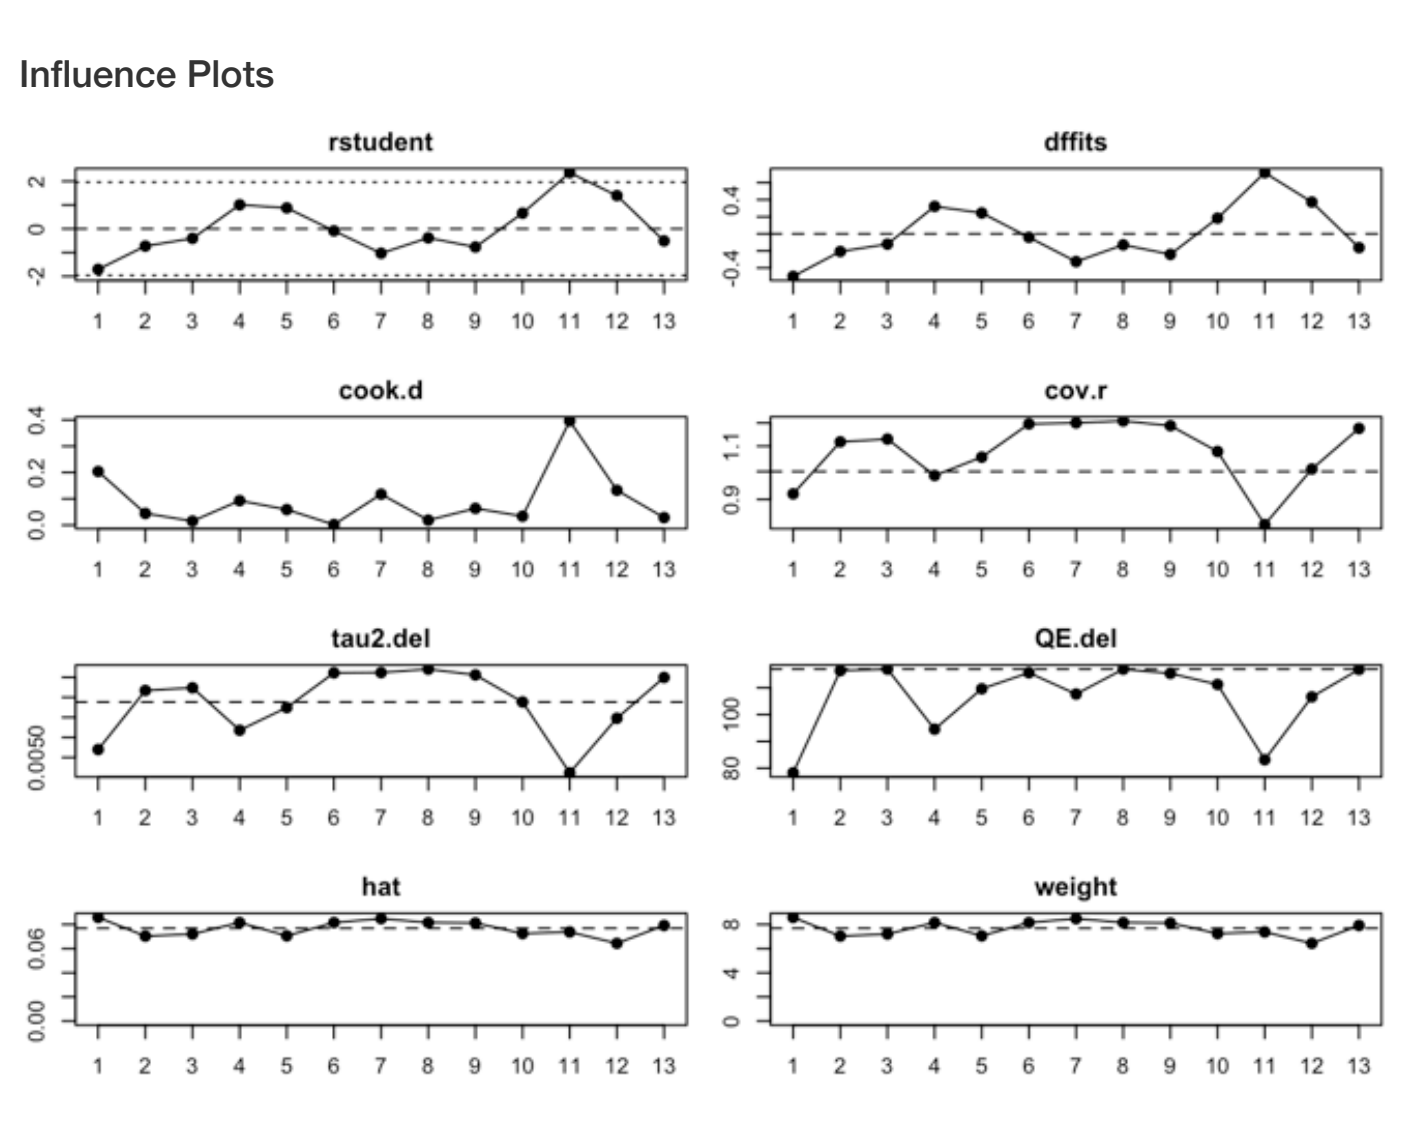
Suppl Figure 1.6 QC Plots for Schizophrenia/Any psychotic disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



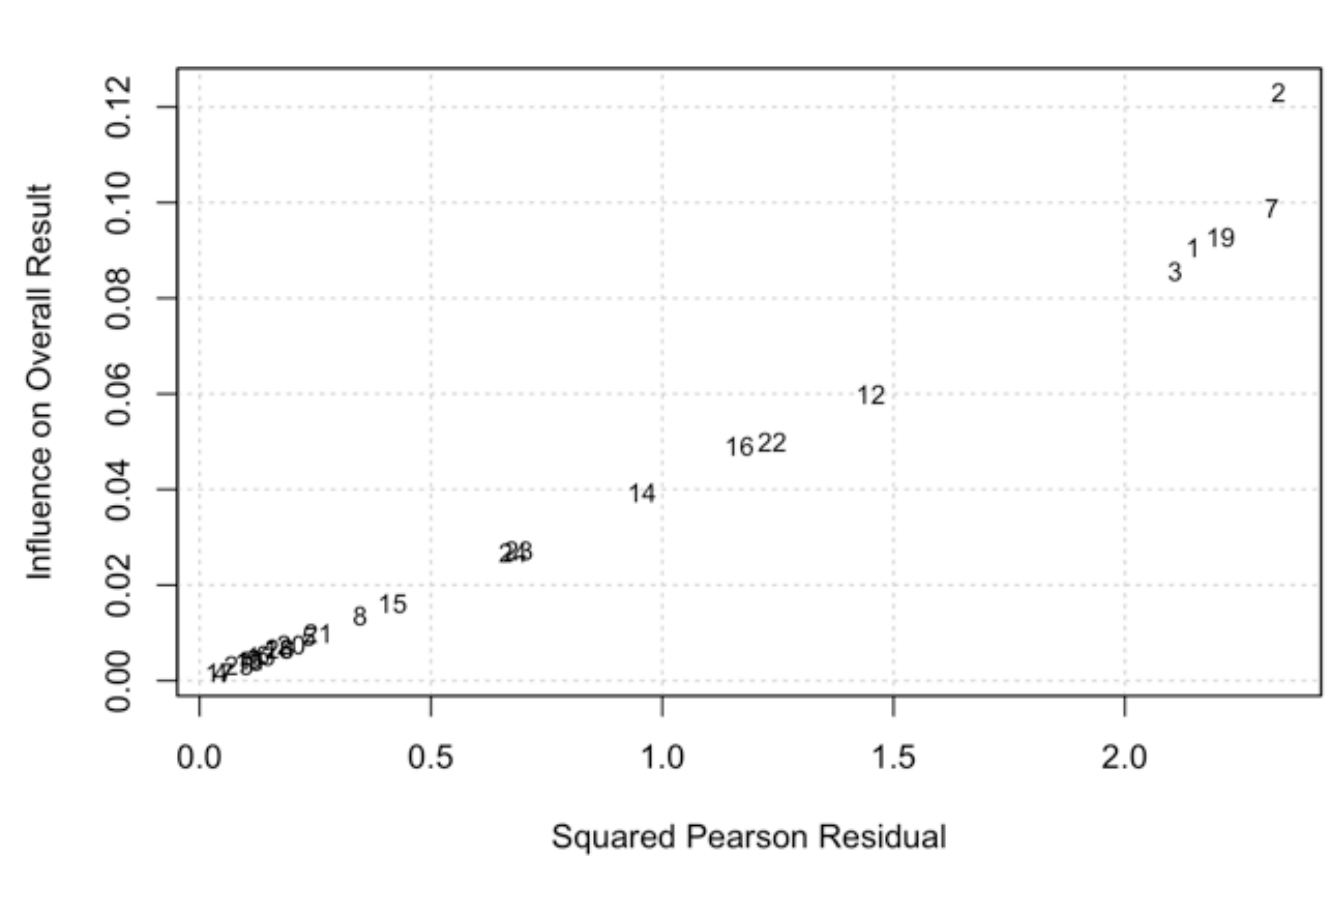
Influence Plots



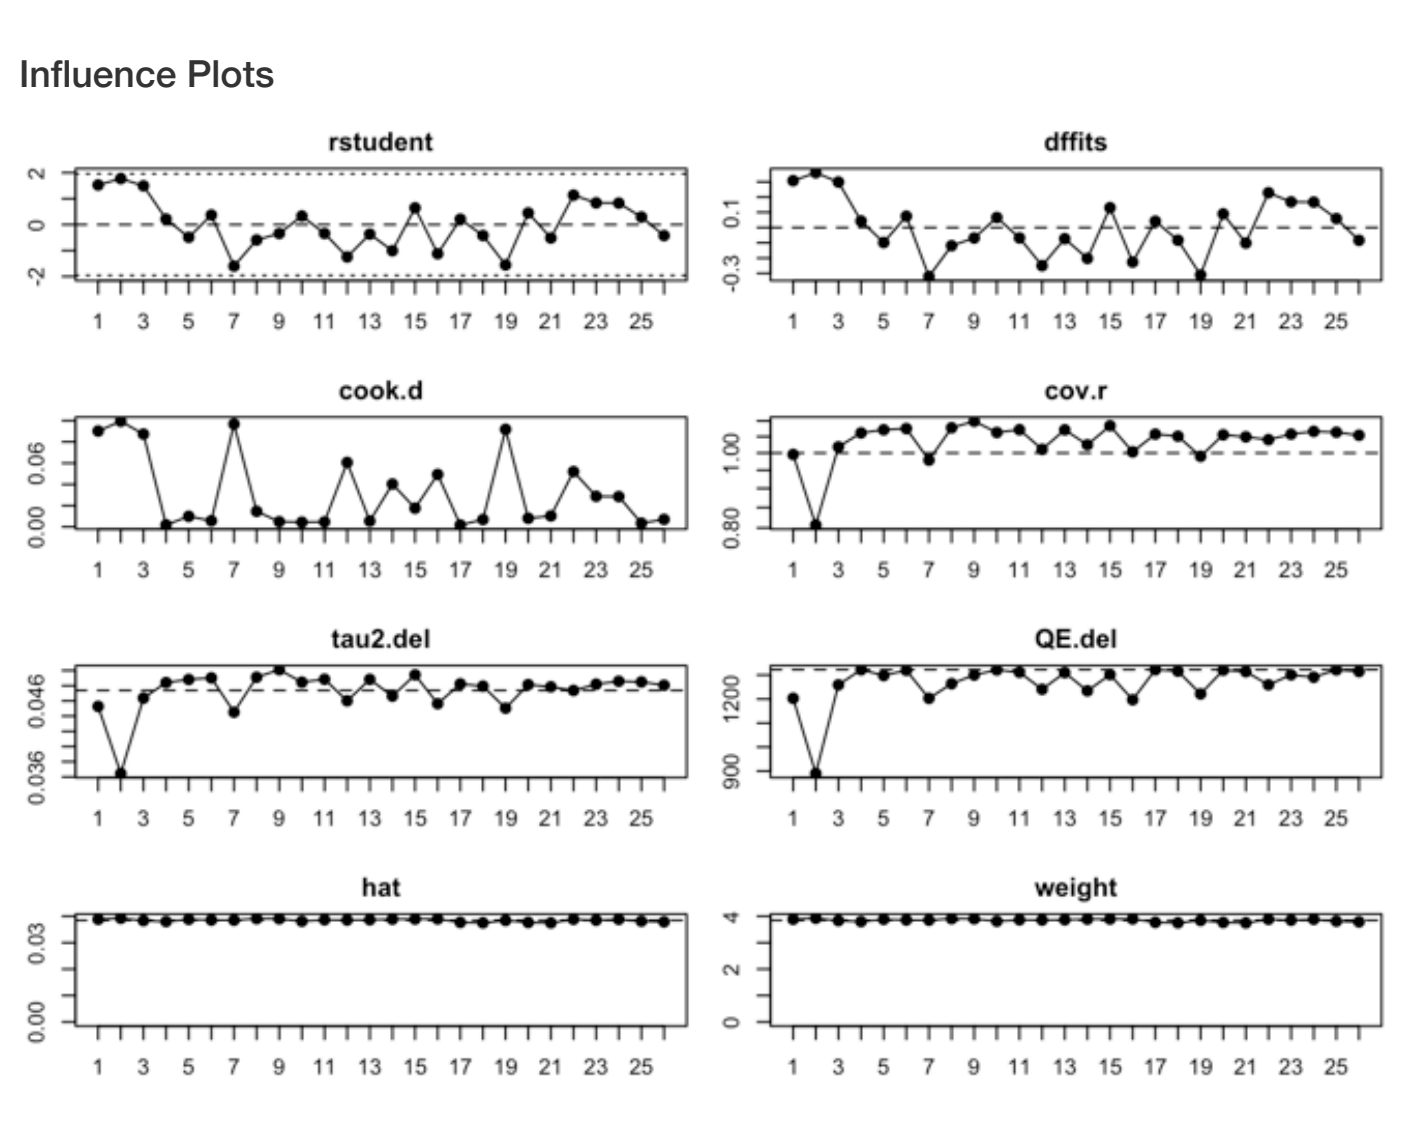
Suppl Figure 1.7 QC Plots for Any anxiety disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



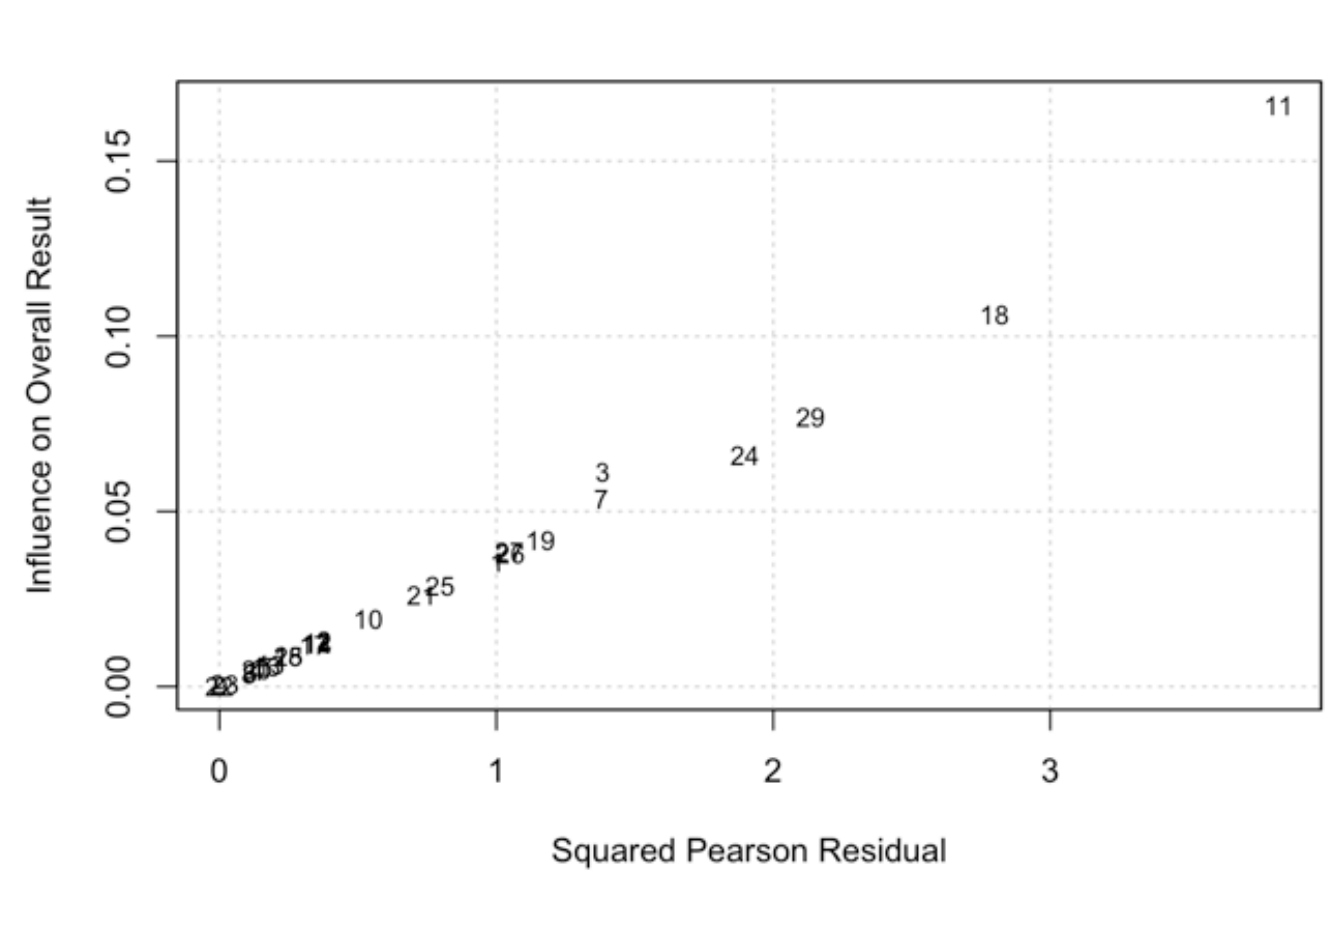
Influence Plots



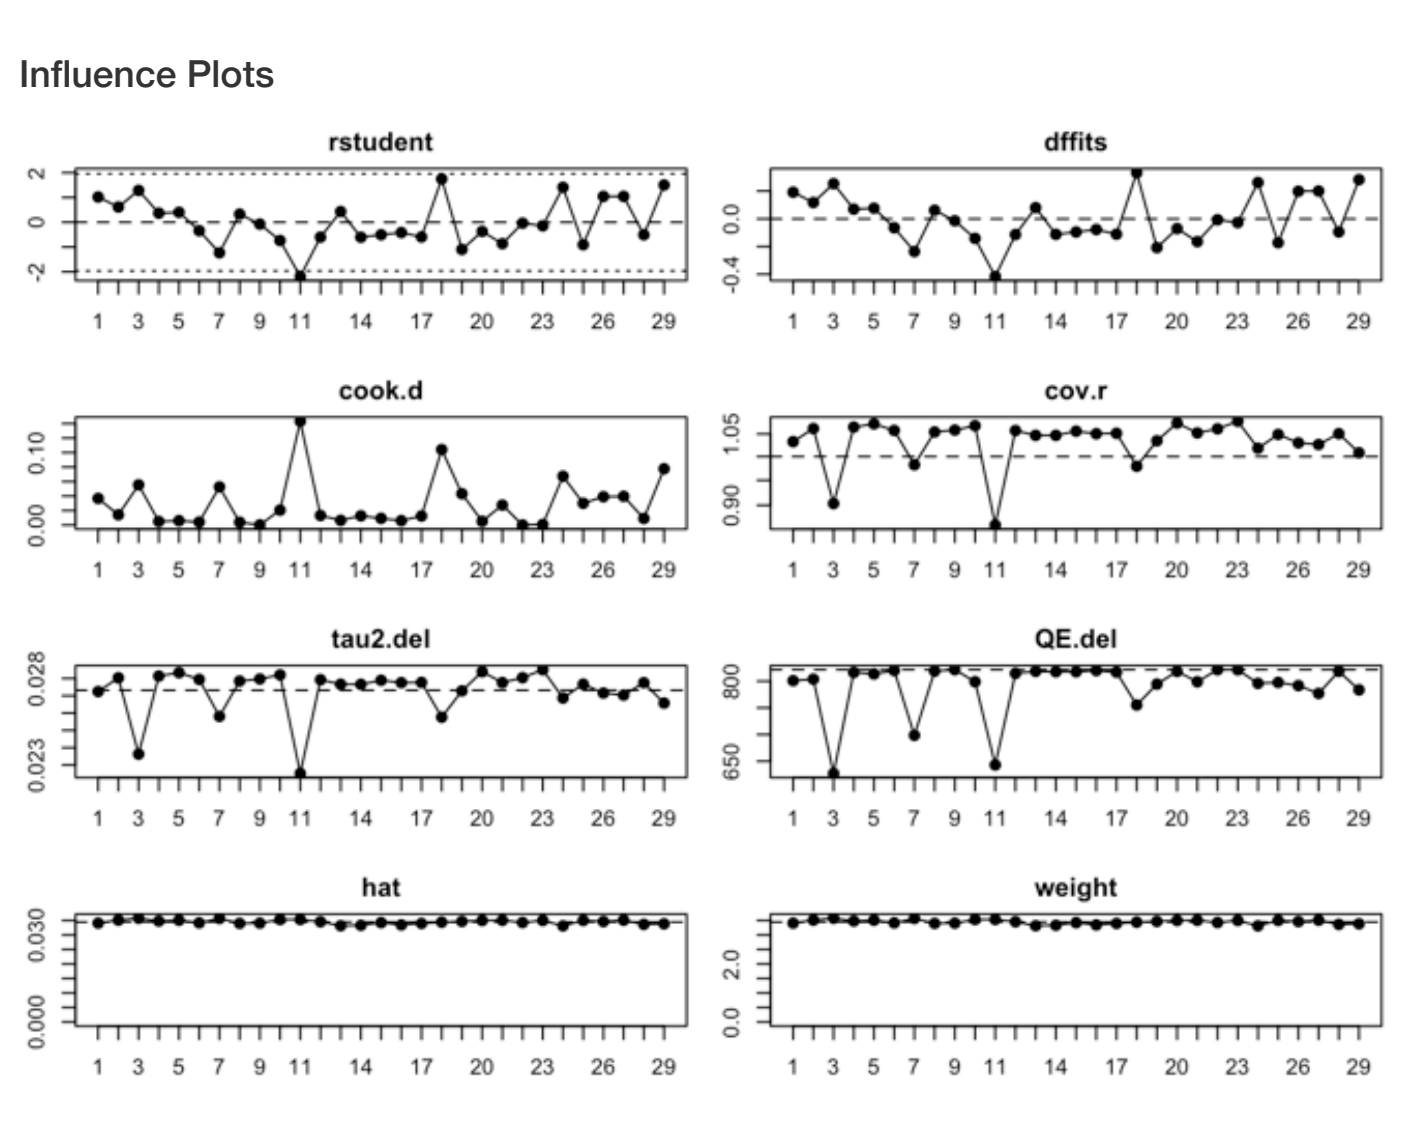
Suppl Figure 1.8 QC Plots for Generalised Anxiety Disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



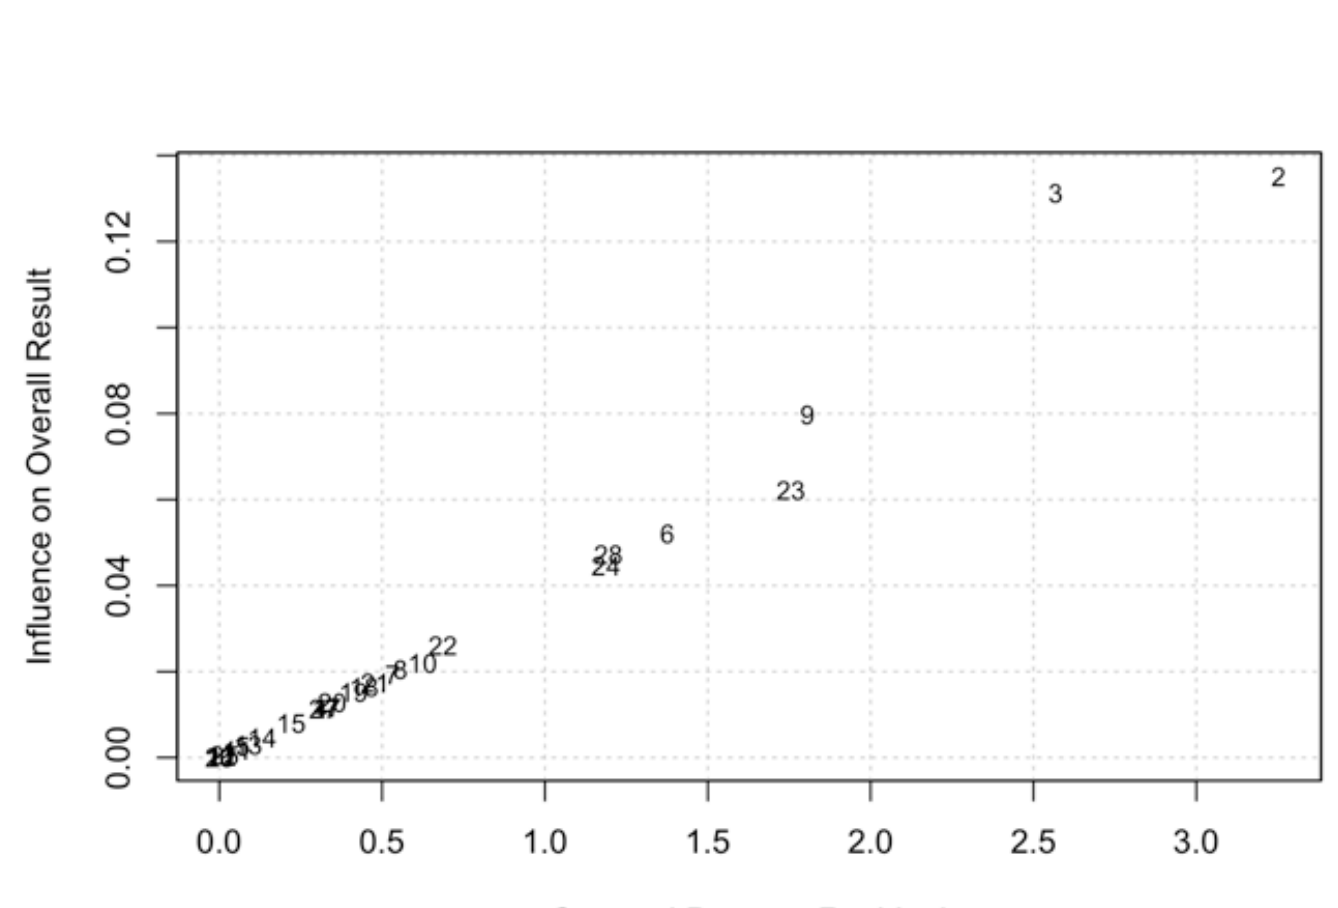
Influence Plots



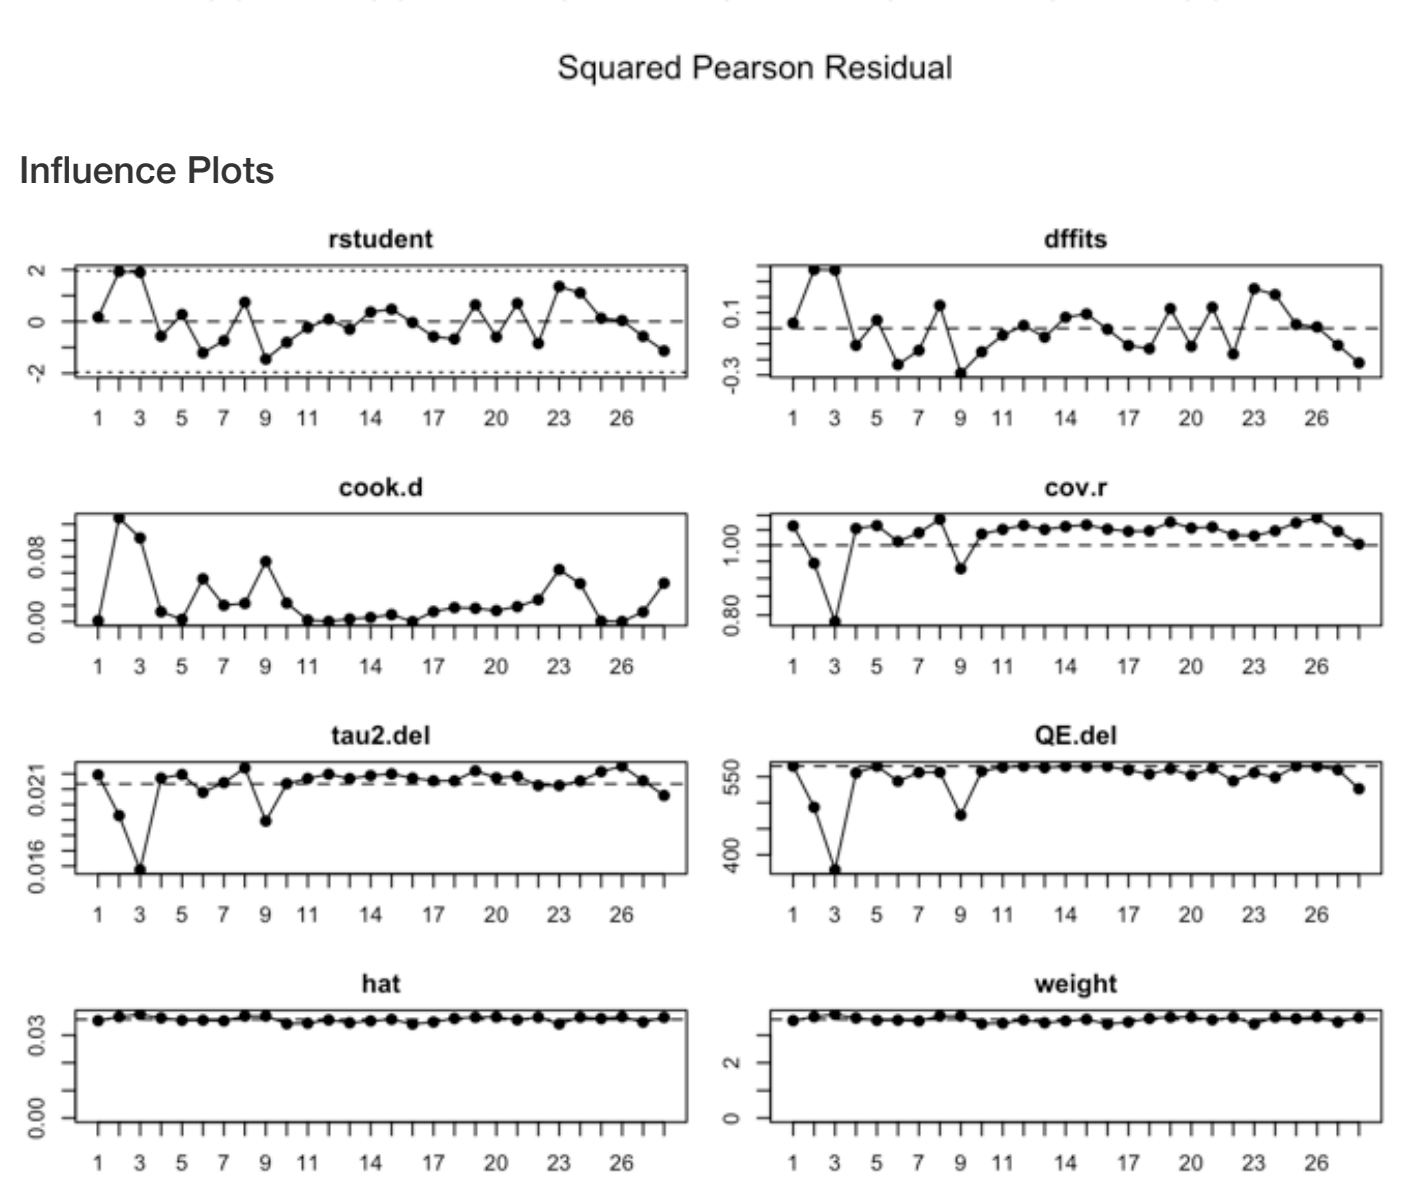
Suppl Figure 1.9 QC Plots for Social Anxiety Disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



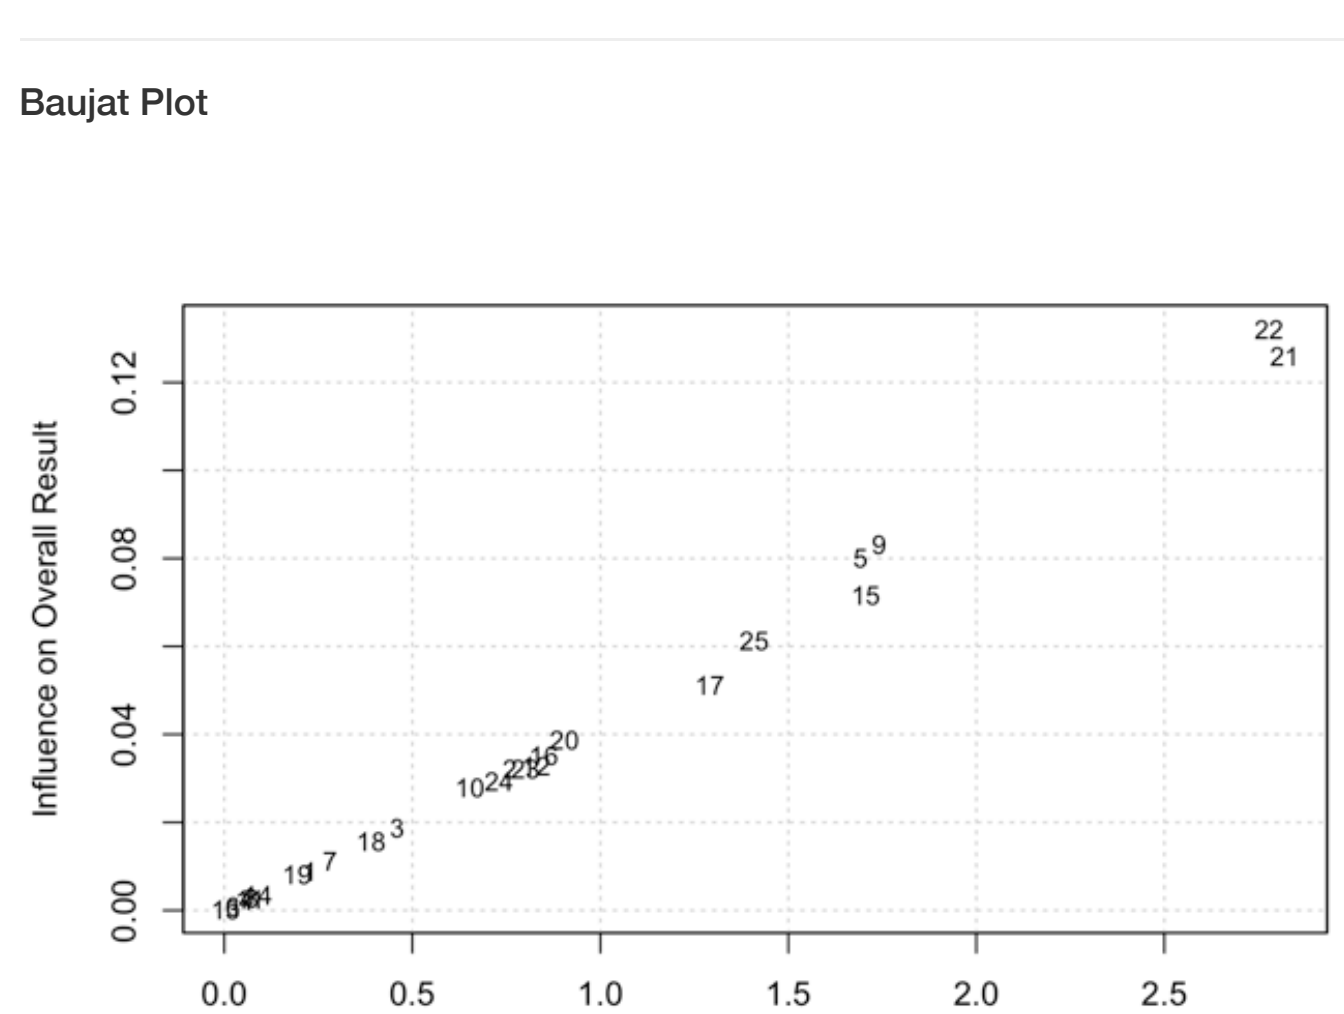
Influence Plots



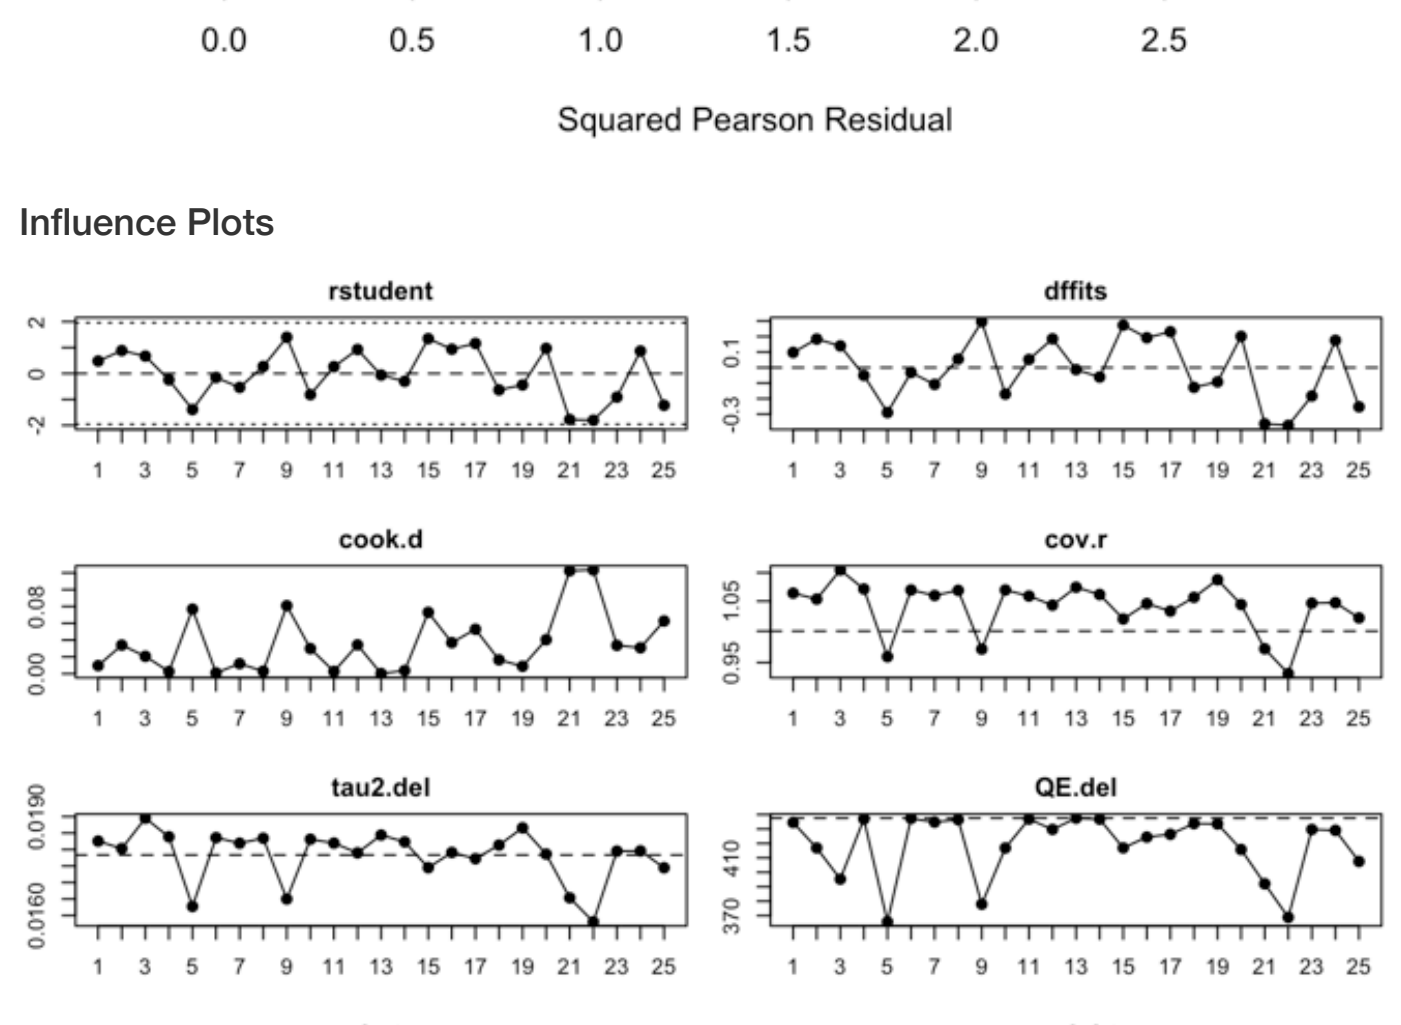
Suppl Figure 1.10 QC Plots for Panic Disorder

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot



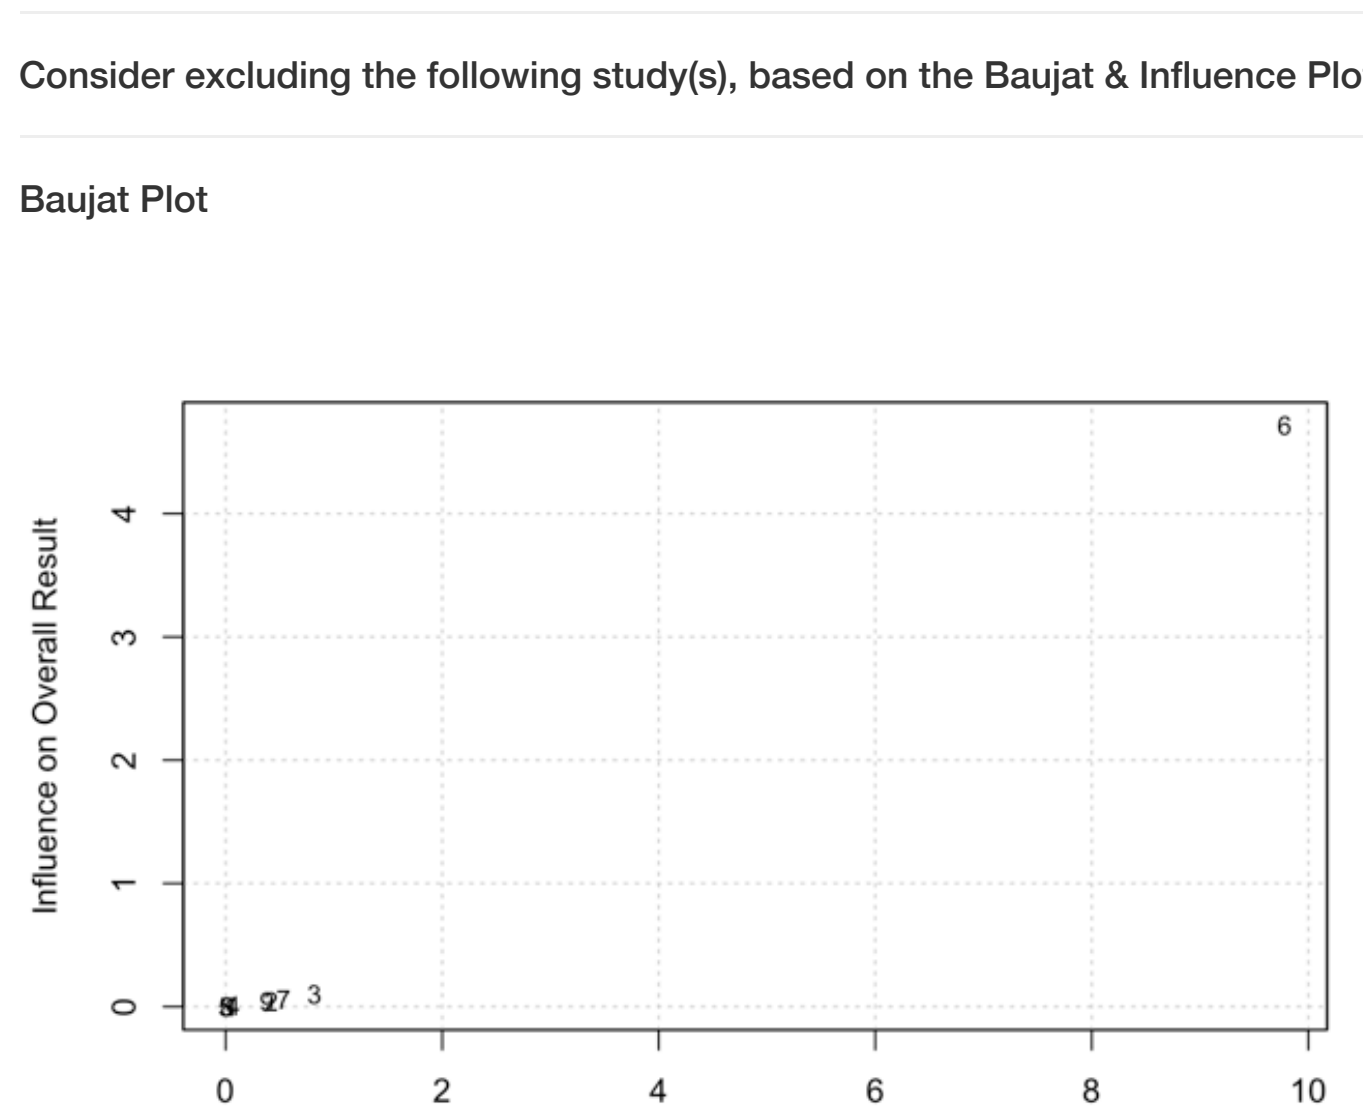
Influence Plots



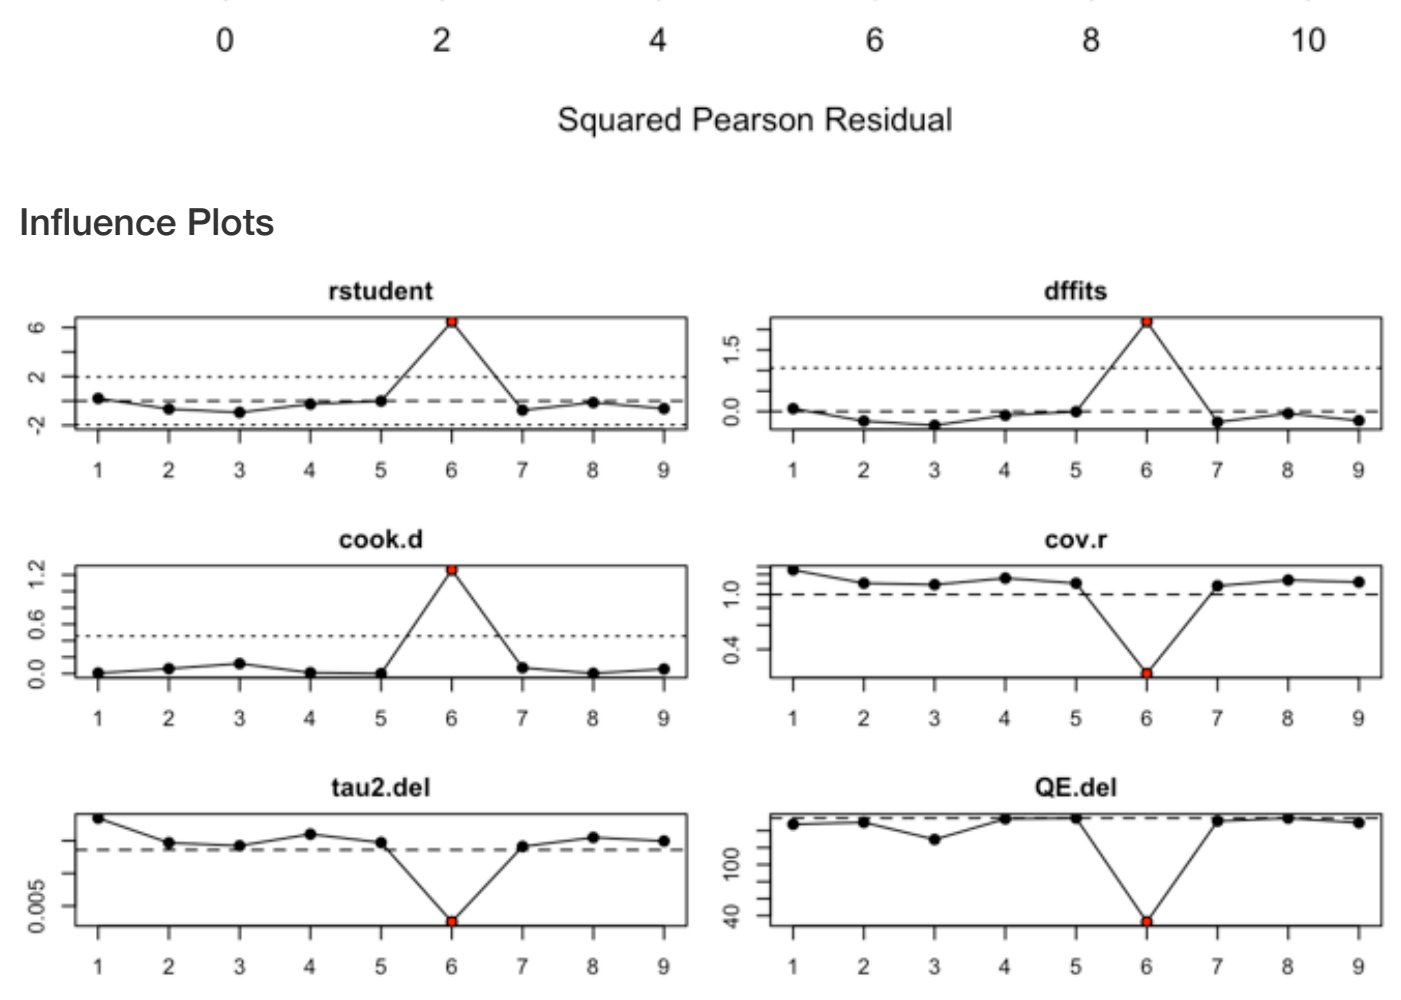
Suppl Figure 1.11 QC Plots for Agoraphobia

Consider excluding the following study(s), based on the Baujat & Influence Plots: Geller 2000

Baujat Plot



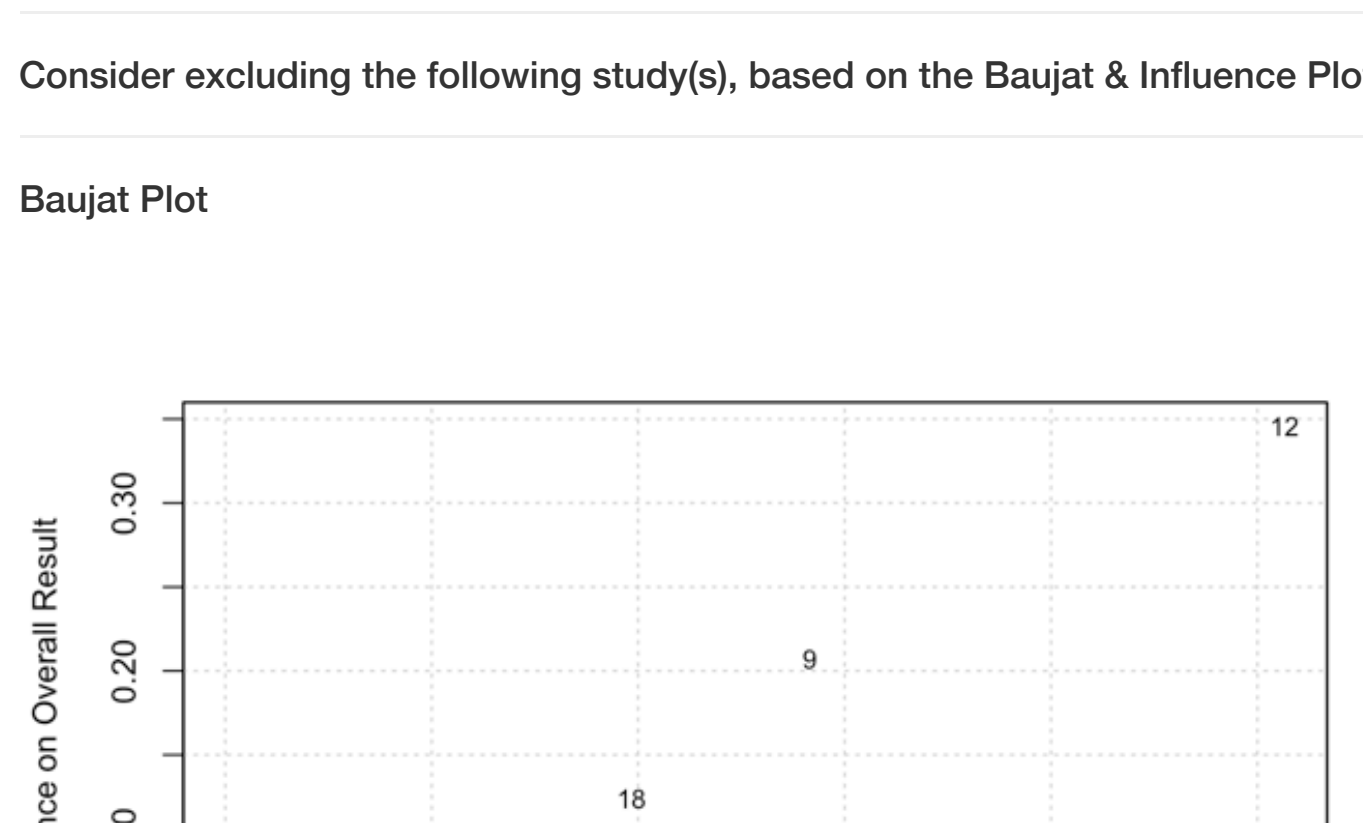
Influence Plots

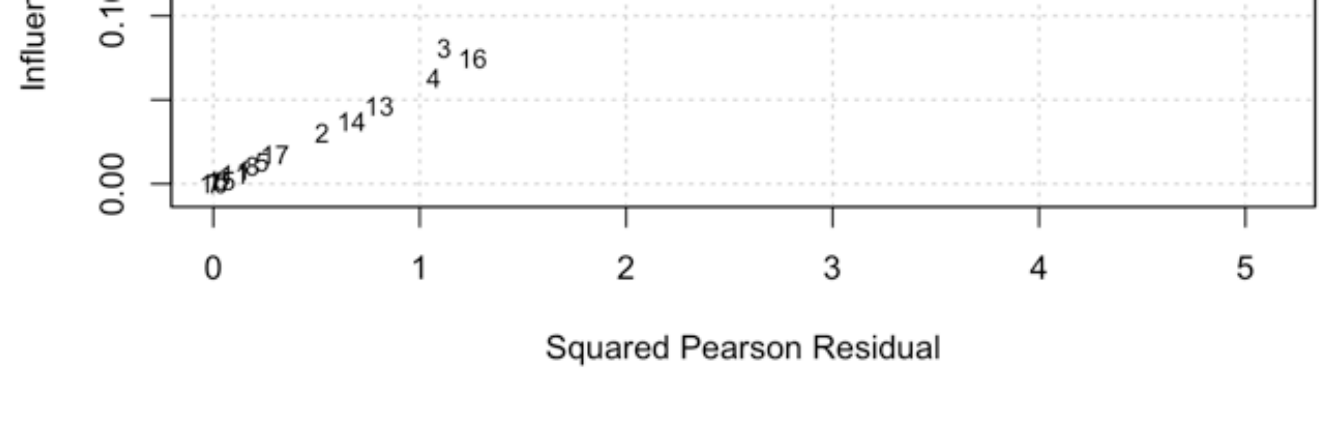


Suppl Figure 1.12 QC Plots for Simple/Specific Phobia

Consider excluding the following study(s), based on the Baujat & Influence Plots: None

Baujat Plot





Influence Plots
