4. Toro-Ramos T, Michaelides A, Anton M, Karim Z, Kang-Oh L, Argyrou C, et al. Mobile Delivery of the Diabetes Prevention Program in People With Prediabetes: Randomized Controlled Trial. JMIR mHealth and uHealth. 2020;8(7):e17842.

Supplementary Material 1.5. Quality assessments of included studies

Quality assement, intervention studies

Studies	Design	Purpose	Data collection methods	Sampling and sample size	Measures	Information on study population	Overall risk of bias
Liao *et al.*	Adequate	Adequate	Adequate	Adequate	Minimal	Adequate	Medium
Prochaska *et al*.	Adequate	Adequate	Adequate	Minimal	Adequate	Adequate	Medium
Schwalm *et al*.	Adequate	Adequate	Adequate	Adequate	Adequate	Adequate	Low
Toro-Ramos et al.	Adequate	Adequate	Adequate	Adequate	Adequate	Adequate	Low

Risk of bias: Low, if they had optimum quality in at least five out of the recommendations, and no domains with least valuable quality. Medium, those with five or fewer optimum quality domains with only one least quality domain. High, more than one least valuable

Supplementary Material 1.6. Overview of private Danish digital healthcare clinics restricted to digital contact forms

Name of eHealth	Types of eHealth	Providers profession	Services provided	Database where the eHealth services were found
Aleris Hamlet	App with video consultation	Doctors	Online consultation and medication prescription	Google, App Store and android
Cyber-lægen	Online Video consultation	Doctor	Advertise with free online Doctor consultation	Social media
Eyr	App with video consultation	Doctors	Individualized healthcare services and medication prescription	App Store
FBlægen	Offering contact with a doctor via social media	Doctor	Offering medical examinations	Social media
HelpMe	Online consultation	Doctor	Offering medical expert advises in connection with an online course	Google
Hormon-kuren	Video consultation and web-based pharmacy	Doctors	Medical counselling and pharmacy	iOS and android
Jysk Pension Online Læge	Online consultation via App	General practitioners	Renewal of birth control pills prescription	Google
Skinscan	Software that examines melanomas	Dermatologists	Software that possibly examines skin for melanomas and offers personal counselling	Google
