S4 Appendix. **Keyword search and search strategy.**

1. Keyword search

We would search the databases using the following free text and exploded MeSH terms:

1. **Prevalence**: prevalence, epidemiology, and burden

2. **Chronic kidney disease**: CKD, chronic kidney disease, chronic renal failure, chronic kidney failure, chronic renal insufficiency, chronic kidney insufficiency, ESRD, and end stage renal disease.

3. **Region**: Asia

2. Search strategy

Period of searching:

We searched the literature that published from inception until 30th Nov, 2021

Table S1. Systematic Review Search Strategy: between the group of prevalence key search, chronic kidney disease key search, and Asia

Database	Search term	No. of Article
PubMed/Medline	**#1** "renal insufficiency, chronic" [MeSH]	124,666
