SARS-CoV-2, severe acute respiratory syndrome coronavirus 2; NR, not reported; F, female; M, male; IQR, interquartile range.

[a] See reference list of studies included for question 1 and question 2. Reference numbers differ from the main text.

[b] Location is reported as described in the study; region is WHO region.

[c] Median and interquartile range (IQR) or mean and standard deviation (SD)

[d] Follow-up recorded according to study protocol (1: 14 days after last possible exposure; 2: 7 days after diagnosis; 3:>7 days after diagnosis; 4: until negative RT-PCR result).

[e] Studies only included for question 2.
