
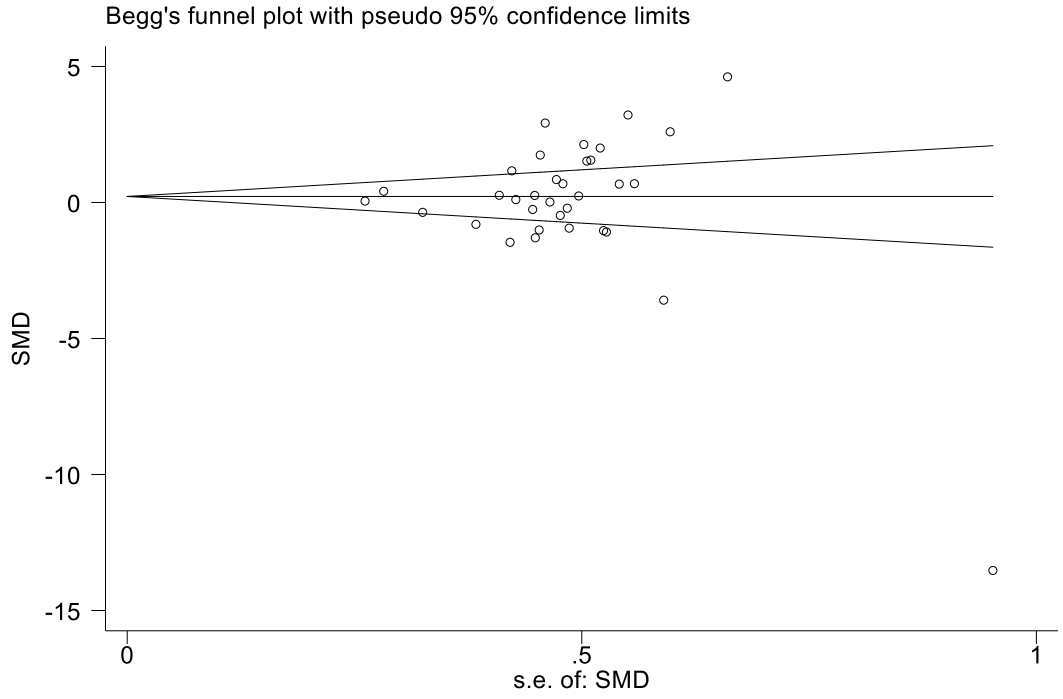
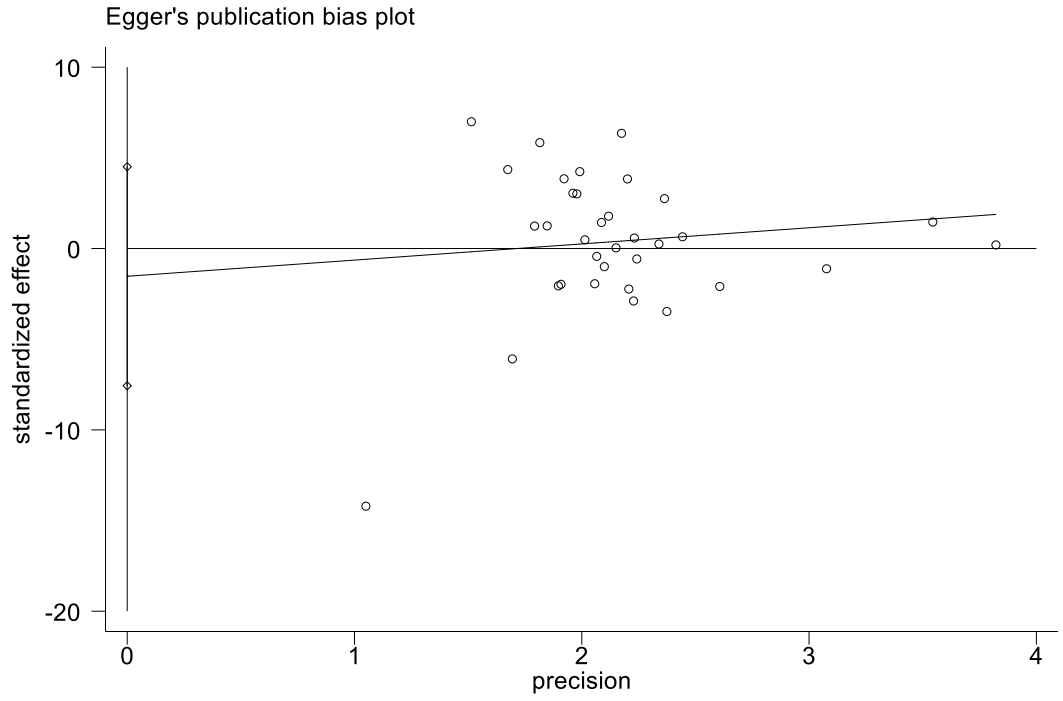
Supplementary Figure 1. Funnel plot of the included studies

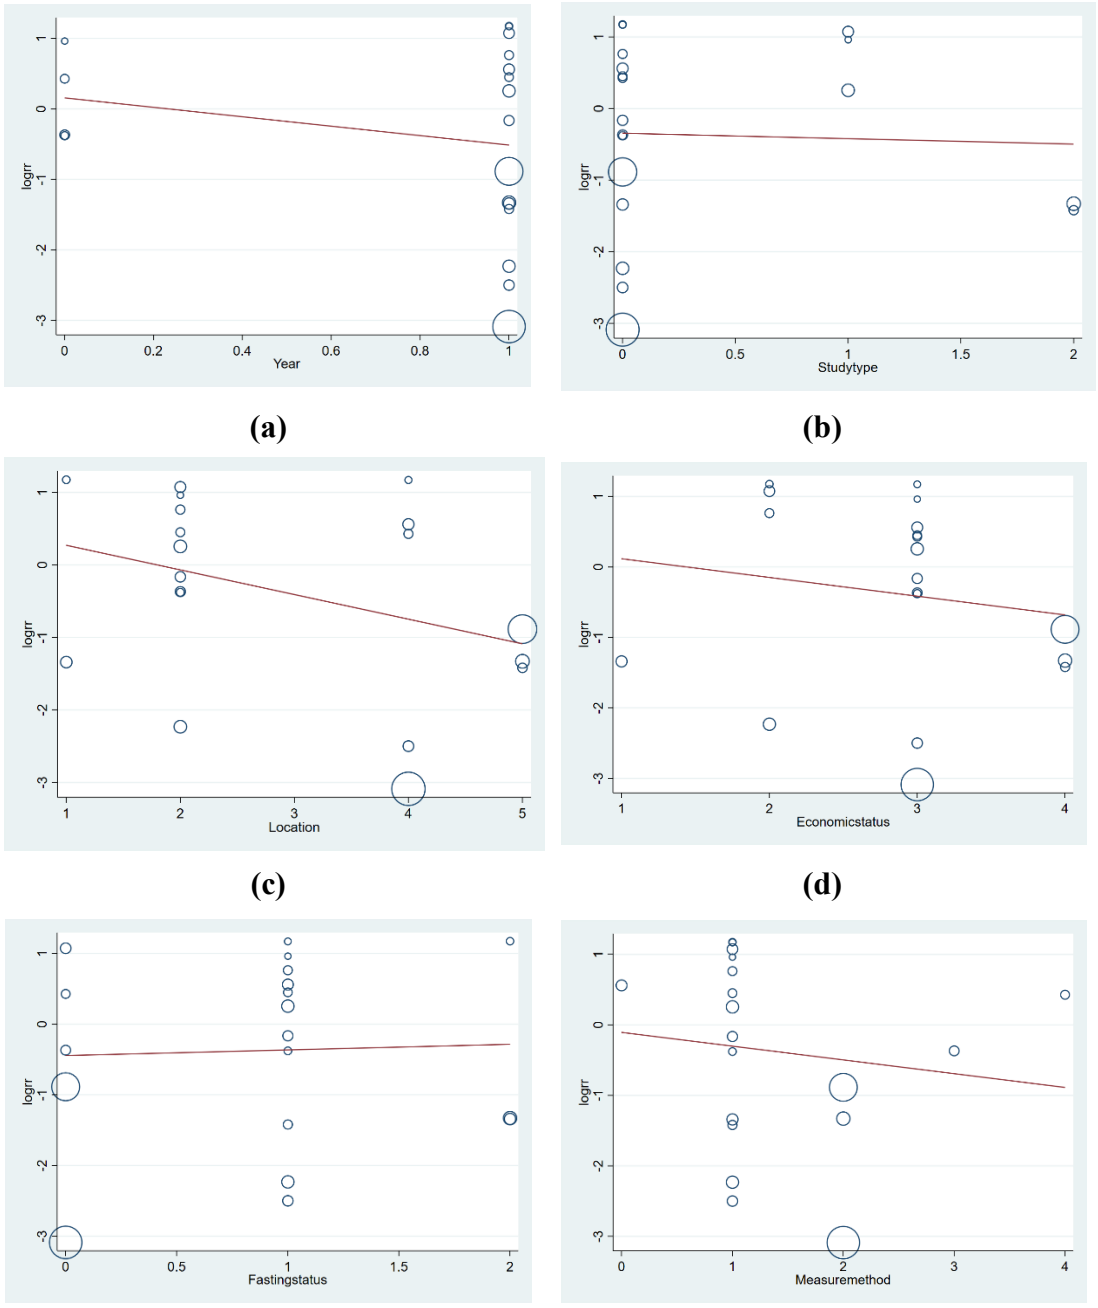


(a)

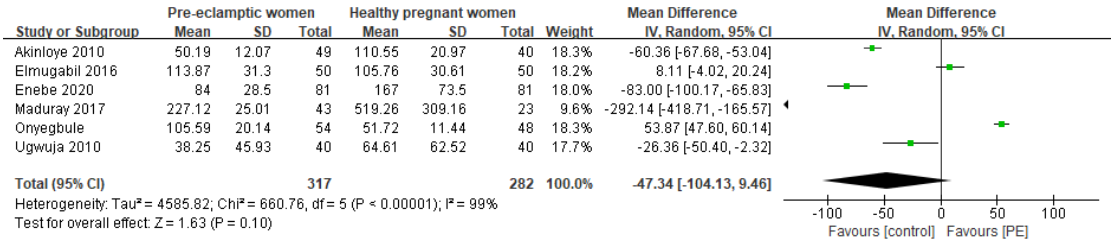


(b)

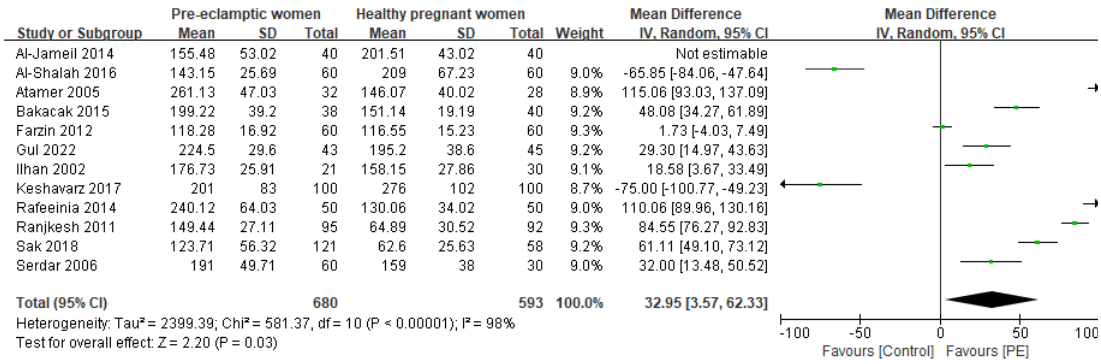
Supplementary Figure 2. (a). Begg's test; **(b).** Egger's test for publication bias



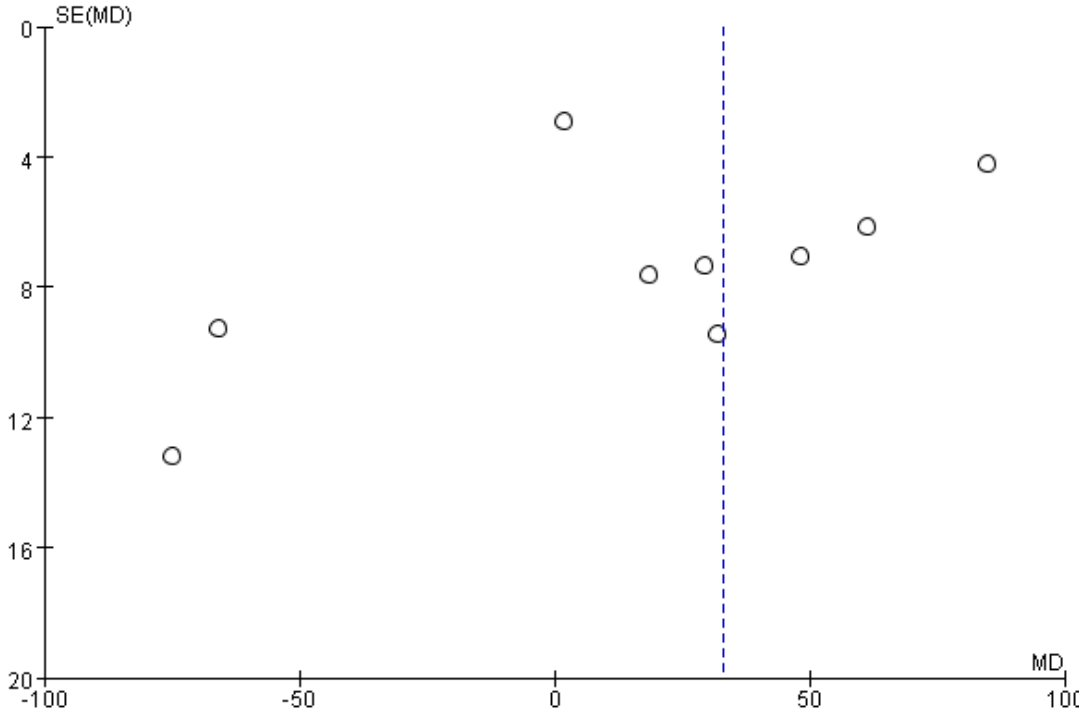
Supplementary Figure 3. Meta-regressions: the effect size was represented by the logarithm of relative risk (a). the year of the study; (b). study types; (c). the geographical location of the study; (d). the income levels of study; (e). the fasting status of the study; (f). the measuring method.



Supplementary Figure 4. Serum copper levels in African pregnant women.

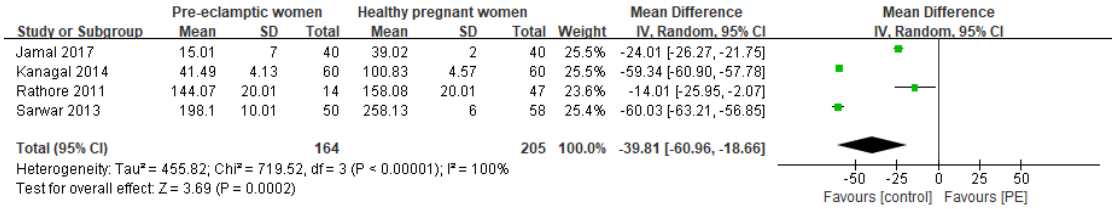


(a)

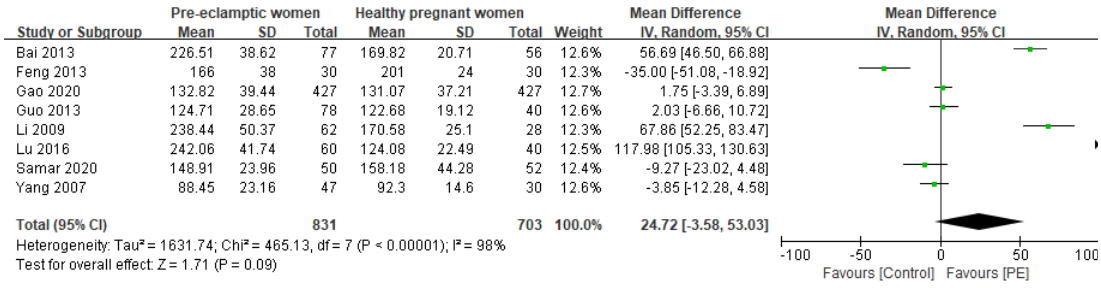


(b)

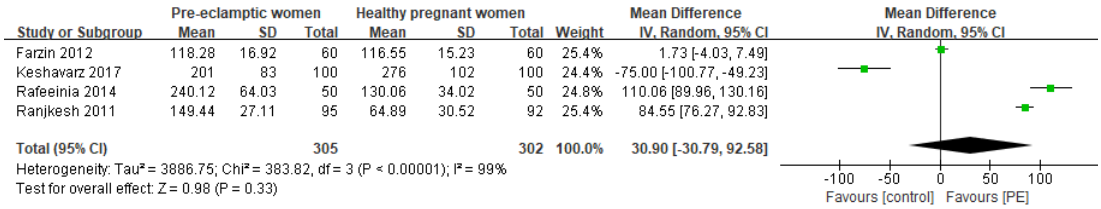
Supplementary Figure 5. (a). Serum copper levels in Middle-East pregnant women; **(b).** Funnel plot of studies on Middle-East pregnant women.



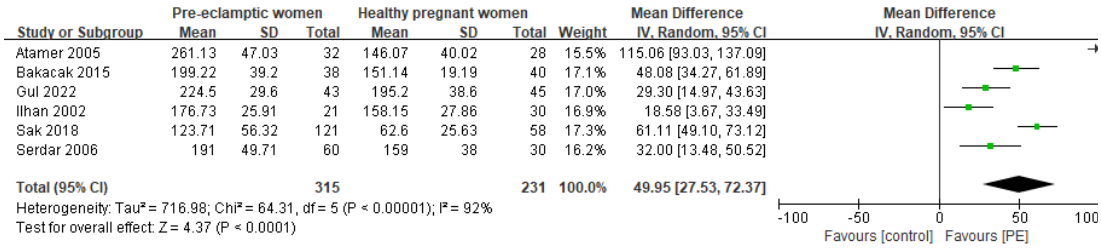
Supplementary Figure 6. Serum copper levels in preeclamptic Vs healthy pregnant women from South Asian



(a)

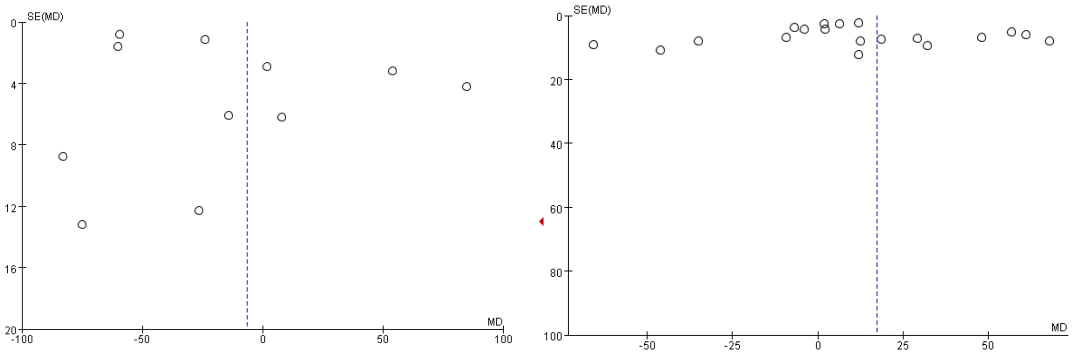


(b)



(c)

Supplementary Figure 7. (a). Serum copper levels in pregnant women from China; **(b).** Serum copper levels in pregnant women from Iran; **(c).** Serum copper levels in pregnant women from Turkey.



(a) **(b)**

Supplementary Figure 8. (a). Funnel plot of studies on Low-and-Lower-middle income economies; **(b).** Funnel plot of studies on Upper-middle and High-income economies.
